WPC Fletcher was facing the Dr lain West, consultant anti-Gaddafi group, with her back to the building about 25 yards away, when a burst of automatic gunfire was heard.

Commander Hucklesby said: "Several eye-witnesses said they saw an automatic or semi-automatic firearm being pointed from a first-floor window of the Libyan People's Bureau with smoke and flames coming from the barrel of the weapon. WPC Fletcher was shot in the back by one bullet. "Unsatisfactory student": De

#### Maxwell agrees to pay unions' fines

By David Felton, Labour Correspondent

Mr Robert Maxwell, the millionaire publisher, yesterday agreed to pay fines of £150,000 imposed on two printing unions whose members had been staging an occupation of his London headquarters. Mr Maxwell, chairman of

the British Printing and Communication Corporation, agreed to pay into the bank accounts of the National Graphical Association and Sogat '82, cheques for £80,000. Although each union was fined £75,000 by the High Court last week, Mr Maxwell agreed to pay an additional £5,000 "on account" of redundancy payments agreed for 65 employees. The two unions had warned

Mr Maxwell that he could face a complete shutdown of BPCC by May 7 unless he agreed to meet a £15 a week pay claim. That claim was yesterday withdrawn following his agreement to pay the mions' fines.

Technically, Mr Maxwell, who is hopeful of buying The Observer from Lonrho in the current dispute over editorial freedom, did not pay the fines himself. That was done yesterday afternoon by the NGA and Sogat '82, but he did agree to reimburse the unions and pay the extra £5,000 on top of the

Mr Maxwell's office said last night that he had nothing to add to a statement made earlier in the day which detailed the agreement for ending the occupation of

Maxwell House in Worship Street in the City. That statement did not refer to the arrangement to pay the unions'

statement said the dispute between the corporation and the unions had been "ended amicably" and the occupation of the lifth floor of Maxwell House had been brought to an end. Under the terms of the agreement the unions have accepted 65 redundancies at Waterlow Security Printers, a subsidiary of BPCC.

The corporation has agreed to retain on its staff 23 printing employees "in the hope that it could obtain work suitable for a small printing unit in London." Union sources indicated last night that the affair has cost

Mr Maxwell about £300,000 because there is no limit on the redundancy payments available to those leaving Waterlow. The company has a high proportion of long serving employees and the terms agreed, four weeks for each year of service, could add around £120,000 to the Mr Maxwell's agreement to

pay the unions' fines came after two days of intense and often bitter negotiations with printing union leaders which started at Mr Maxwell's Oxfordshire home on Monday night. At one stage there appeared

to be little scope for agreement, but then the unions emphasized that if Mr Maxwell did not pay Continued on back page, col 8 | notional benefit

# A sunshine start to the cricket season

Some of the 3,000 spectators basking in the sunshine at Lord's yesterday during the traditional curtain-raiser to the new cricket season. Last year the game had to be abandoned without a ball being bowled. But yesterday, with London temperatures touching 70F, the lucky crowd watched the MCC reach 235 for six in the first day of a three-day match against the champions, Essex. The weather picture was similar in most parts of Britain. Seaside resorts

in the South and South-West reported a mini-boom in spring holiday bookings and Bournemouth hoteliers said they were 85 to 90 per cent full, breaking all records for April. Many visitors, who had originally planned an Easter break, had decided to stay over In Devon, Torbay and Ilfracombe were bursting at the seams as trippers set off at dawn for the beaches.

The spring heatwave also brought scrub fires to North Yorkshire and the New Forest area of Hampshire. And

firemen in Devon brought under control a gorse fire which spread across bundreds of acres of Dartmoor A spokesman at the London Weather Centre said that there was unlikely to be any rain anywhere in Britain until after the weekend. The rest of Europe is suffering by comparison. Spain and Italy have experienced storms over the past few days and Corfu and Ajaccio have been covered by cloud. Photograph: Ian

#### Banks make £780m tax provisions

By Jeremy Warner

Barclays Bank and Midland Bank Group are to provide a total of £780m in this year's accounts to meet the cost of the changes in curporation tax and capital allowances that were announced in the Budget. This was disclosed to share-

holders of the two high street in London yesterday. National Westminster has already estimated that it may have to provide an extra £577m for taxation because of the changes and that Lloyds Bank is expected to put its own figure on the additional liability at its annual meeting next week. -

City investment analysts have estimated that the four big clearing banks may together have to provide well over £1.7 billion in additional tax over future years - equal to the pretax profits of the four banks put together last year - because of the changes.

Midland is to put aside £230m in its 1984 accounts to meet the cost of changes in the way capital expenditure can be offset against tax and Barclays, Britain's biggest bank, is pro-viding £550m. With the blessing of the Bank of England, both are changing the additional amounts against their built-up reserves.

The provisions have become necessary because banks have used the old capital allowances to defer tax indefinitely on income from their leasing business in which banks pay for capital equipment and then, in effect, rent it to customers such as big companies. But in the past banks have set aside only a quarter of the tax being deferred because nobody believed that it would ever become payable.

Now they believe that be-cause of the changes in the Budget, substantial amounts will have to be paid in future "They were subject to a

special tax in 1981 because it was alleged that they had a beneficial tax and profit pos-ition. The changes now proposed will therefore be a form of double taxation on a highly

# but make no concessions

Mr Michael Teisen, the historian, archaeologist and diver in charge of the project, said its importance lies in the prospect of finding more artifacts from the storage areas of

The wreck is at a depth of the ship, everyday practical some 30ft. Only three out of six items which played a big part in decks remain, all of them below naval history and which maritime historians lack. Diving is to begin in the next few days.

Mr Teisen said the artifacts should give a fuller picture of life and conditions at sea on the lower decks of a British warship

of the period. The National Maritime Museum in Greenwich has expressed great interest in the Danish project, Mr Teisen said, with a view to possibly acquiring some artifacts for the

Victory.
A £20,000 budget has been allocated for the project, which will employ five divers and another five experts for a total of 30 working days during the summer months, if the North Sea weather permits.

# Power station coal stocks likely to last into autumn

By David Young, Energy Correspondent

range forecasts for a warm summer have stretched the potential life of coal stocks at power stations in England and Wales well into the autumn.

Mr Giles Shaw, Under Secretary of State for Energy, said in Commons written answer yesterday that stocks are now estimated to last "for many months". New figures calculated by the Central Electricity Generating Board showed that demand for power has dropped by almost 40 per cent from mid-January's peak.

The board estimates that by May I demand will be running at around 3.5 billion units a day and by June 1 that figure will drop to 3.0 billion units a day. At the hight of winter, demand was slightly over 5.5 billion units a day.

world championship victory.

Alhough it can feed power into the national grid for only five hours and uses six hours' worth pumped back up to operational readiness, it has proved that it can be successfully used to meet Borders.

# **Support** urged for day of action

The Scottish trade union movement yesterday called on its members to give maximum support to a day of action on May 9 to support the miners'

Rallies will be held in Glasgow, Edinburgh, Aberdeen and Dundee, with dozens of smaller demonstrations in Scottish towns.

The Scottish miners' president, Mr Mick McGahey, said he hoped for the mass mobilization of the Scottish five oil-burning stations at Pembroke and Fawley, where oil is piped direct from adjoinpeople" in support of the strike, and told a meeting of Scottish TUC and National Union of ing refineries, and at Ince on Merseyside, and Littlebrook and Isle of Grain on the Mineworkers' officials in Edinburgh that the miners' struggle to defend jobs "is a struggle to defend the whole of the Scottish economy".

> Miners' pickets in Scotland yesterday allowed supplies of oil through to the Thomas Russell paper mill at Markinch, in Fife, where the jobs of 1,500 workers were threatened as the plant ran But at Barony Colliery

per cent of supply - the figure was 2 per cent in the mid 70s before oil prices rose and the Ayrshire, pickets refused allow a team of safety workers ground to carry out essential maintenance in spite of appeals from the National Coal Board that the pit could be Rotterdam spot market for half lost with 550 jobs.

A high-powered air gun pellet hit a window at Bolsover colliery in North Derbyshire, narrowly missing a security guard, yesterday. Police confirmed that they

were investigating. Nails were found scattered on approach roads to the pit at about the time of the incident, and police are also investigating com-plaints that female cauteen staff the colliery have been threatened with violence if they continue to work normally.

Prison protest: Miners demonstrating at Lincoln jail is support of four pitmen held on remand.

# Labour plans levy to aid miners

By Philip Webster, Political Reporter

The Labour Party yesterday allied itself more firmly to the miners' fight against pit clos-ures by calling on its members to contribute more than £100,000 a week to the National Union of Mineworkers' strike fund.

In a move which marks a escalation of the dispute, and for which there appears to be no precedent in modern times, the party's national executive com decided to ask constituency Labour parties to raise money for the strike fund by levying a minimum of 50p a week from

mbers, or by other means such as fund-raising events and door-to-door collections. Parties are being asked to

forward money direct to the strike fund. No central total strike fund. No central total will be kept and no conditions are being attached by the party to the uses to which it will be put, although Mr James Mortimer, the party secretary, said last night. I have no doubt that the transfer will of the money will go on the alleviation of hardship."
The Labour Party has about 270,000 members. The levy is

voluntary and a fair proportion

of the numbers are pensioners but, even if they were excluded the party could manage well over £100,000 a week if its members were willing to pay.

A motion passed manimously by the executive stated; We recoginze that the strike is entering a new and decisive stage. The establishment of a Tory 'War Cabinet'; the buying of extra oil for the power stations; and the penal operation and manipulation of the social security payments sys-tem - all indicate clearly that the Tory Government is trying to starve the miners back

'Shoot to

kill' plea

to RUC From Richard Ford

Security forces in Northern Ireland should shoot to kill in dealing with petrol bombers, the Democratic Unionist Party said vesterday.

The strategy was urged by a delegation of five led by the Rev Ian Paisley, the party leader, which met Sir John Hermon, the Chief Constable of the Royal Ulster Constabulary, for talks on security. The demand for a shoot-to-kill policy comes after the death of a soldier on Monday after a two-vehicle army patrol came under petrol

and gun attack in Londonderry. Mr James Allister, a DUP Assembly member for east Antrim, said a petrol bomb could kill as easily as a shotgun. Anyone wielding one should be dealt with for the weapon of death that he has in his hand because he obviously has it for a terrorist purpose and should be dealt with as the threat he

undoubtedly is." Petrol bombing has occurred almost nightly in Londonderry for weeks, with soldiers and police coming under attack from rioters.

Yesterday's meeting between Sir John and the Democratic Unionists was hailed as a breakthrough by the party, which has long demanded faceto-face talks with him.

Sir John stopped seeing politicians in 1981, determined to ensure that the RUC never became an openly political instrument. But in the wake of the killing of three church elders in Armagh last year he came under pressure to drop his boycott and reassure politicians.

# seatbelts kept

Car scatbelt legislation should be extended beyond the three-year trial period, the Casualty Surgeons Conference in Edinburgh was told yesterday. Mr William Rutherford, a consultant at the Royal Victoria Hospital, Belfast, said the trial had led to a marked drop in the number of serious brain, chest and kidney injuries. Figures from 15 casualty departments in British hospitals showed there had been up to 20 per cent

By Robin Young

Mr lan Jackson, leader of the Labour-run Torfaen borough council in Gwent, said yester. day that there was "only a fifty- " fifty chance" of his council banning the South African-born athlete, Zola Budd, from competing at the UK championships in the council's Cwmbran stadium next month. The Labour group meets tonight to discuss the issue.

Even if they proceed with the attempt to bar Miss Budd from the track, it will not affect her chances of representing Britain in the Olympic Games. She has been invited already to the ---British Olympic trials on the "" private hospitals, a figure that evening of June 6 for her chosen "." is likely to have risen with increased activity in that sector.

distance, the 3.000 metres.
At Cwmbran, Miss Budd intends to compete in the 1,500 metres, and although the event transport costs, and not to include any element for the blood itself as ministers are is intended to form part of her "" Olympic training and build-up, it would have no bearing on her qualification.

Mr Jackson said: "I believe For whole blood the charge will be £19.75 a unit, and for blood products the charges range from £6.75 for cryoprecithat the council, as both owners and administrators of the Cwmbran stadium do have powers to keep Miss Budd out pitate which contains clotting factors, to £82.75 for white cell concentrate which is used, for example, in the treatment of of it unless the laws of property have been changed drastically overnight.
This Government is quite

capable of that, but in the first instance we would hope that the British Amateur Athletic Board " would be intelligent and decent enough to accommodate our wishes, since Torfaen council supply that private hospitals do have been such bountiful hosts to them in the past."

Mr Jackson agreed that if the board refused to withdraw Miss Budd from the championships, the council's only recourse would be to cancel the contract for the hire of the stadium, and -face the possibility of bills for ""

"I do not believe that so many final commitments have been made that claims for ... compensation would necessarily succeed", he said, "but if we decide to take a moral stand ...

we must be prepared to pay A spokesman for board said last night: "We will have nocomment on the attitude of .
Torsen council until they decide what it is, but it would seem impossible for the board to ban any British citzen from the UK championships.

#### **Action in schools** a step nearer

By Colin Hoghes

A long summer term of industrial action in Britain's schools came a step nearer vesterday when the second largest teachers' union decided to reject an improved pay offer before it is made.

The decision at the annua conference in Llandudno, of the National Association of Schoolmasters/Union of Women Teachers, makes it difficult for the executive of the National Union of Teachers, the largest teachers union, to accept the 4.5 per cent offer which the management is expected to make next Monday.

The leaders of the National Union of Teachers have so far shied away from prediciting their reaction to the expected offer, which would be an increase on the present 3 per cent offer. Many of the union's executive doubt that they can win more than 4.5 per cent, but its members displayed considerable militancy at annual confer-

ence in Blackpool last weekend. Yesterday, however, the union suggested "possible cooperation" with the association if industrial action takes place in a letter from Mr Doug McAvoy. acting general secretary of the NUT, to Mr Fred Smithies, the

general secretary of NAS/UWT. The association with 120,000 members agreed yesterday to a programme of industrial action to start on Monday. Members will withdraw frm non-contractual duties such as lunchtime supervision, staff meeetings and

cover for absent colleagues. The association's action committee will draw up plans for selective strikes targeted at the most vulnerable schools and timetables, particularly where

members hold key positions. It will also propose "high profile" action, such as focusing on schools in the Prime Minister's constituency, Finchley in north London, Sir

need to offer 7.5 per cent, or agree to arbitration before the action could be called off. He said that it could turn into a long dispute. Teachers' anger had broken this year because

#### Tate buys up modern prints at Christie's

By Geraldine Norman, Sale Room Correspondent

The Tate Gallery was buying modern prints at Christie's yesterday. It spent £1,188 estimate £700 to £1,000) on a Roy Lichenstein lithograph and silk screen printed in colours of 1974 entitled "Still Life with Portrait." The portrait depicts a glossy female beauty while a plate in the foreground contains an apple and some cherries. It is

a characteristic pop image.

In the same mood, the Tate spent £216 (estimate £150 to £200) on a 1974 James Rosenquist etching with aquatint

entitles (and depicting) "Sun-glass, Landing Net, Triangle." In line with expectations David Hockney ran away with

sale with two of his works

reaching £3,240. One was "Rain", a 1973 lithograph

the top prices in modern print

printed in colour from "The Weather Series" (estimate £1,500 to £2,000). The other was his 1974 etching with aquatint, "Artist and Model" (estimate £2,000 to £3,000). The morning sale totalled £103,685. with 11 per cent left ansold.

The Tate Gallery also confirmed yesterday that it has bought Mark Gertler's The Merry-Go-Round" of 1916 from the Ben Uri Gallery. The price has not been revealed but it is believed to be in the region of£150,000.

The painting had been consigned to Christie's for sale and appeared in the catalogue of their March 9 sale of modern British paintings. There was then an outcry against its open market sale and possible export

The Children's Legal Centre, is an independent organization concerned with law and policy affecting young people.

# legal posts

By Frances Gibb Legal Affairs Correspondent The Lord Chancellor is being urged to introduce a quota system to boost the numbers of Asian lawyers appointed as Queen's Counsel, magistrates

and judges.

In a letter to Lord Hailsham of St Marylebone, the Society of Asian Lawyers gives a warning that "as a direct result of racial discrimination" large numbers of Asian barristers are now seeking to leave the Bar, severely distillusioned with what the society describes as en-

trenched racist attitudes. Mr Rudy Narayan, acting chairman of the society's ad hoc committee, criticizes the latest list of appointments to the rank Queen's Counsel, released last week, as "savagely exclus-

He also complains about the non-appointment of an Asian barrister, Mr Asharaf Bashiri, to the ranks of the stipendiary magistacy. Mr Narayan had taken up his case with the Lord Chancellor.

"There is no doubt that there are many of ability and excellence, both among Asian barristers and solicitors, who could and should be appointed", he says.

At present, of some 4,800 practising barristers in England and Wales, about 200, or 4 per cent, are not white. There is no non-white High Court judges.
One circuit judge, one strpendiary magistrate, and four assistant recorders are non-white. An official in the Lon

Chancellor's Department said that only within the past 20 years or so had there been a significant increase in the numbers of black lawyers, and judges were appointed only from barristers of many years'

But he added that the department did not "work on the basis of a person's colour.

#### National to use Old Vic annexe

Mr Ed Mirvish, the businessman who bought and restored the Old Vic at a cost of about £2½m, has handed over the theatre's annexe for five years for use as a studio by the National Theatre.

Sir Peter Hall, director of the National Theatre, announced the gift at a lunch yesterday for patrons whose money will be used to run the studio.

Actors will learn their craft there. It will also be used to do research on styles of acting that are in danger of disappearing and to develop the work of new young writers.

## 700 ill in BA food poisoning outbreak

British Airways admitted

yesterday that 631 of its passengers and 135 of its flying staff became ill with food poisoning on some of its Concorde flights and other services last month.

The airline faces claims for compensation from some of the passengers, including the British businessman, Mr Peter De Savary, the America's Cup yachi race backer, who spent several days in a New York hospital, and the deputy minister of commerce in Saudi

The outbreak of salmonella poisoning was traced to a powder used to form a glaze on hors d'oeuvres served on some intercontinental flights, includ-ing the Concorde between March 12 and March 17.

The airline said yesterday that it had completed its investigations.

"Immediate steps were taken to eliminate the cause", British Airways said. The number of passengers believed to have been affected by the outbreak is now 631. The number of flying staff affected was 135.

#### Wine trade welcomes hot weather

Despite 18p tax cuts off bottles of table wine there has been no sales surge, but if the burst of summer weather holds, the wine trade is expecting a sales boom Beer sales, which earlier this

year showed signs of a 3 per cent improvement, are also reported to be up Figures from the Wine and

Spirit Association covering January wine clearances show drop for the first time since 1979 but that was because the trade, expecting the Chancellor to cut wine prices, reduced

#### **Prince will** meet claims for paint damage

By Michael Horsnell

Prince Andrew is expected to meet all demands for compensation from the journalists he spattered with white paint from a spray gun during his visit to California last week.

The cost of the damage to cameras and clothes, which happened when he visited the Warts district of Los Angeles to inspect a house reconstruction site, could approach £15,000.

But, so far, claims for only £1,200 have been filed against the Prince with the city's British Consulate which is vetting them before forwarding them, through the Foreign Office, to Buckingham Palace.

A Palace spokesman said yesterday: "We have heard about the claims but none has been received yet. As and when they are received the will be given the fullest sac most urgent attention."

Mr Chris Gulker, a photographer with the Los Angeles Herald-Examiner, has filed an £800 claim and Mr Curt Gunther, an international photographer working for the People magazine has filed for £400 to replace a paint-spat-

A Herald-Examiner spokesman said he did not know whether the claims would be paid by the Prince. He said: "I don't know that any commit-ment has been made but I am sure that the claims will be seriously considered.

"We are trying to make arrangements to have the damage independently valued and when we have done that we shall forward the claims to

Prince Andrew was in the United States to help raise funds for the British Olympic team. He denied deliberately spraying journalists but made a brief apology 24 hours later.

# GUARANTEED AFTER FIVE YEARS. TAX-FREE

# Tighter controls on Libyans

#### LONDON SIEGE

The occupants of the Libyan People's Bureau in St James's Square would not be permitted to remain beyond Sunday night when any diplomatic immunity expired. Mr Leon Brittan, the Home Secretary told the Commons in a statement about the shooting incident in which Woman Police Constable Yvonne Fletcher died

The police would satisfy them-selves he said, that anyone emerging from the bureau was not carrying arms and explosives with them when they left and then that the premises were safe and secure.

The police view (he added) is that vithout the cooperation of those in the bureau, it does not seem possible that evidence could be obtained which would sustain in court a criminal charge for the

We have informed the Libyans will be withdrawn from Libya by midnight on April 29/30 and we look to the authorities there to fulfil their obligation to guarantee their

We have also made clear to the Libyan authorities that we hold them responsible for the safety of the British community in Libya to which we have attached the highest importance throughout. We have exercised our right to designate a protecting power to look after their

are most grateful to the Italian Government for agreeing to undertake this task and the Libyan Government has agreed to this. In London, the embassy of Saudi Arabia will act in a similar way for

Mr Brittan said he was looking carefully at any evidence that the presence of any individual in Britain was against the national interest and was not bestating to use his powers of removal where it

Two Libyans had been deported since the shooting. Libyans who wanted to come to Britain from Libya would, for the time being, have to apply for visas in neighbouring states. Their appli-cations, and those from Libyans elsewhere in the world, would be referred to London where they would be thoroughly examined. Applications for entry from those already holding extant visas would

people were advised to reapply.

These measures (he said) will ensure that in the coming months only in the most exceptional circumstances will Libyan nationals be admitted to this country. He said that the murder of WPC

Yvonne Fletcher was a barbaric outrage which was a totally unacceptable and unprecedented breach of British law, international aw and the Vienna Convention on

diplomatic relations.
I share the national sense of anger at the tragic death of a young

policewoman and at the gross abuse of diplomatic immunities which

We have made every effort to resolve matters peacefully and by mutual agreement. The attitude of the Libyan authorities has made it We shall continue, as we have

our obligations under the Vienna Convention. But what has occurred clearly raises serious questions as to the adequacy of the convention, its operation and enforceability. Sir Geoffrey Howe, the Foreign Secretary, will now review these

natters and consider whether to put

forward proposals for changes in the

that until the Libyans who are going

MPs will appreciate (he added)

international community.

have gone and the British Embassy staff in Libya return home the situation remains delicate. But we could not conceivably countenance

law. Libya for its part must now accept its clear responsibility for the protection and safe return of our staff in the British Embassy and

He said enquiries into the bomb explosion at Heathrow airport were continuing and it was not yet clear if it was connected with the incident in St James's Square.

Mr Gerald Kaniman, chief Oppo-sition spokesman on home affairs, said Labour MPs offered their deepest sympathy to the family and fiance of Miss Yvonne Fletcher.

She died on duty (he said) and we owe a tribute to her and all the police involved in the tense vigil at St James's Square.
The whole nation feels a bitte

anger at the prospect of the murderer escaping the justice which should properly await him. But most people will understand why e seems inescapable.

demonstrate the importance of upholding the rule of international law even in the most repugnant circumstances. That means strictly abiding by the terms of the Vienna that the Government must have the utmost concern for the reper-cussions of the lives of the embassy

Kaufman: The nation feels a bitter anger. The House may not wish to pursue certain matters while the situation is still so fragile and the return home of the embassy staff. But a further statement will be required not later than next Tuesday be similarly scruinized and these people were advised to reapply.

These measures (he said) will crisis could have been prevented or avoided and how weapons of the kind used found their way into the

regoriations with the Libyans. One question which would have to be answered was why, three days after the St James's Squre shooting luggage was allowed to be left for bours in terminal two at Heathrow

sirport where flights from Libya Security at Heathrow (he added)

seems to be negligent to the point of culpability and there must be an urgent inquiry into it for the sake of

There is one matter on which the whole country is united. Britain will not tolerate warring factions from

other countries using our cities as their private battlegrounds. Britain stands absolutely for upholding the rule of international law. It is the only safeguard order in a dangerous world.

It is because Libya has made an ugly mockery of the rule of law that

everyone joins in the condemnation of this unacceptable violation of Mr Brittan Said extra precautions were taken at Heathrow airport after the St James's Square shooting. More measures had been taken

since and an examination of practices was taking place between the Department of Trade Industry, the police and the British Airports

the world and the need, at the same the world and the need, at the same the country.

After the bombing there was no used merely as a cover for terrorism clear link between that and the

Mr Brittan: I agree that these are Mr David Steel, leader of the Liberal Party. The Home Secretary used the phrase "diplomatimmunity expires" on Sunday.

What happened after Mr Adem Kuwiri and his three colleagues were replaced by the so-called tevolutionary students?

Were any students given diplo-matic immunity? If so, when and why? If not, is there any reason to believe that there were accredited diplomats in the building at the time

Mr Brittan: When the so-called revolutionary committee took over there were no additions to the Diplomatic List and none of the people concerned were accepted.

We do not know who exactly is in the building so I cannot answer on the presence of diplomats in the building.

Mr Peter Blaker (Blackpool, South, Ck. I welcome the Government's intention to review the convention and one of the most important matters is whether diplomatic bags contain weapons. Will the Foreign Secretary raise that with his EEC

Mr Brittan: That is one matter which will no doubt be considered but the Vienna Convention states that diplomatic bags shall not be

opened or detained.
Mr James Molyneaux (Lagan
Valley, OUP), Leader of the OUP.
In view of the long-standing Libyan
support for Irish terrorists, will be

# NUM urged to talk to coal board chief

#### COAL DISPUTE

The coal dispute could not be solved by a wave of a wand from outside the industry, Mr Giles Shaw, Under Secretary of State for Energy, said in Mr Stapley Orme, chief Opposition

spokesman on energy who had asked a private notice question about the dispute, said the Government should sort out an energy policy based on long-term planning rather than on short-term inancial targets. Mr Shaw said picketing had not deterred those intent on going to

work. Coal stocks at power stations were at a high level for the time of year. It was enough to enable the electricity industry to meet commitments for many months.

The chairman of the National Coal Board (Mr Ian MacGregor) had made clear that the board was ready to continue discussions on the industry's long term problems and how best to achieve restructuring necessary to realize a high volume. low cost industry which was the

The National Union of Mineworkers would not attend any of the industry's consultative committees. ncluding the joint meeting today (Wednesday) of the Coal Industry Consultative Council and the Coke Oven National Council.

Mr Orme said responsibility for the dispute lay with the Government.

The dispute (he said) is about jobs, the survival of whole jobs, the survival of whole communites and the future of a vital

industry. Yet after seven weeks of a union, refused to negotiate, major coal strike this Government Mr Shaw said Mr Scargill, president taken no action whatever to To what extent was the Government subsidizing the National Coal Board to hold out against this

strike? How much texpayers money was being used to fund this fight against the miners? It could be better spent keeping pits open and

How did proposals made by Mr MacGregor, as reported in the press, differ from the regional plan to sack 20,000 miners and close 25 pits? What efforts was the Government making to get fresh negotiations which put aside the closure plans and bring in a plan for the coal industry agreed by unions and transcement?

Would the Secretary of State for Energy (Mr Peter Walker) and Mr Shaw assume their respon

and sort out an energy policy based on long-term planning as opposed to short term financial targets? Mr Shaw said the future to coal was mainly within the hands of the industry itself. It had been underwritten by the Government and its predecessors with a lot of taxpayers' money for the industry.

each year from other workers in taxes to sustain the coal industry. Investment was at £2m a day, a high lot of money (he said) that the industry can look forward to a viable and high production future.

More than £1,000m was going out

This objective was shared by the board and recognized widely within the industry. That was why 40,000 miners were working today. He hoped the NUM would join in discussions involving the consulta-Mr Shaw told Mr Geoffres

Lafthouse (Pontefract and Castle-ford, Lab) that the NCB intended to see that this year, as last year, there ere no involuntary redundancies in the programme. Sir Anthony Meyer (Clwyd North West, C) said North Wales miners

particularly were in a dilemma; they wished to safeguard their excellent reputation by continuing to work.

Could the minister give them

consolation and ensure that the

industry remained entire? Mr Shaw: I give that assurance. Mr Alan Beith (Berwick upon

Tweed, L) said a decisive step should be taken to summon a meeting of the board chairman and the union with just one item on the agenda, Plan For Coal and how it could be implemented. Mr Shaw said the board and workers in the industry had the capacity to resolve the matter. The NUM was clearly split on the issue and it was not feasible for Mr Beith to suggest that somehow or other it

ald be resolved by a wave of a wand from outside. Mr Andrew Stewart (Sherwood, C) said Nottinghamshire miners had voted to continue working and the NCB should implement the new

wage proposals on the table since last year so that these miners could get the increased pay award. Mr Shaw replied that this was a matter for the board. Mr Alexander Endie (Midlothian, Lab) said Mr Shaw should not

deceive the House and the nation by implying that this was just a little local difficulty. Some 80,000 miners were on strike. He should call a meeting of the tripartite inquiry to end the dispute on a policy of conciliation, not confrontation. Mr Shaw: If it is conciliation he is

after, why is there not a national Sir William Clark (Croydon South, C) said the strike had nothing to do with pit closures but was a political strike. It was disgraceful that Mr Arthur Scargill, as bead of the union, refused to negotiate.

of the NUM, had drawn his own conclusions as to what the dispute was about but the industry's future was crucial to the country. Most damage was being caused to the

miners themselves and to the industry's future. Mr Richard Hickmet (Glanford and Scunthorpe, C): Would be agree that the gravest consequence is upon the steel workers of this country whose jobs depend on coal? It seems apparent the NUM leadership is quite prepared to see the steel industry sacrificed on the altar of Arthur Scargill's political ambition. Mr Shaw: Arrangements have been made to try to maintain some supply of coal to the steel industry.

This is a fragile arrangement and the future of the steel industry is clearly

North, C): Has he any information as to the cost of this private army marauding around the North Midlands trying to persuade fellow workers not to go to their place of work, what their rates of pay are and who is financing them? Mr Shaw: I do not have such information, but miners are losing very substantial amounts of money

and it really must be absurd that other people are trying to prevent them resuming their earnings. Mr Tony Benn (Chesterfield, Lab): Is it not clear that, despite

everything the Government and Mr MacGregor have said, they have totally failed to persuade a vast majority of the NUM (Conservative shouts of: "How do you know?) as evidenced by the fact that the nauonal overtime ban has been going on and 80 per cent of the miners are involved in industrial action...they totally failed to persuade them that it is right to have a massive policy of pit Is it not also the case that, despite

all the assurances given by the minister, the Government cannot maintain energy supplies needed for Is it not a fact that the support of

the transport unions now being given indicates that many millions of people in Britain recognize that

production future. the miners, by their action, are

safeguarding the future energy supplies of the nation? Mr Shaw: I hardly think his last statement is consistent with his previous statements. A 4 per cent reduction in output is what is being required of the industry during the next year. That can hardly be stated to be a massive reduction in the

There is £2m investment per day and no suggestion or any major and in resources. He has to get his facts correct. If the coal industry is to finite it must produce have a future it must product volume prices according to the market.

Mr Frank Haynes: (Ashfield, Lab): When will the minister admit that Ian MacGregor is doing the dirty work of the Government? He has already announced 20 pit closures and if he gets away with those there will be 20 more to follow. Mr Shaw. He knows very well that in the discussions we have had about the future of the coal industry there has been agreement that there has to be contraction. There can be no question of maintaining every singlepit throughout every year. What is required now is an acceptance that without that objective being reached soon, the prospects for the coal industry in terms of competing with world

supplies are remote. Mr Dennis Skinner (Bolsover, Lab): Can he explain why it is that, on the one hand, the Government is prepared to ensure that oil fields that are marginally uneconomic can get support from the taxpayer as a

result of the Bill which has gone through in the last 12 months. whereas marginal pits, for some reason or other, which are likely to last much longer, cannot receive the same sort of assistance to keep them is it not a nonsense to spend £850m currently on this strike, together with the amount being spent on the police on £500 a week. and taking into account that if he looks at this matter long-term, this winter we started with 53 million tonnes of coal in stock and we are

going to start next winter with no less than 30 million tonnes? Mr Ian Wrigglesworth (Stockton, South, SDP): The sad fact is that the people likely to be hardest hit by the strike are the miners. Is that not because the leader of the mine; workers union is seeking to pursue his own political ends in this action

as they should have done nationally. they have demonstrated that they fully understand that. Will the Government demonstrate that it fully understands the anxiety in communities that are being directly effected by pit closures, by pursuing the proposal to do for the coal industry the sort of work British Steel have do

the closure of steel works? Mr. Shaw: I understand importance of the suggestion but the characteristics of this industry are steel where there were very large plants in very isolated communities. Mr Dale Campbell-Savours (Workington, Lab): Will electricity prices be raised to fund additional Mr Shaw: That is a matter the

#### Major rail closures ruled out

#### TRANSPORT

Britain had the worst financed railway system in Europe, Mr John Prescott, chief Opposition spokes-man on transport (Hull East, Lab), said in opening a Commons debate on the deterioration of the nation's per cent on capital imposed upon the inter-city rail services would not be achieved, he stated. Mr Prescott, who was moving an Opposition motion condemning the

policies to meet the essential needs of a modern developed ecomomy, said the Government was producing higher fares, fewer services and Mr Nicholas Ridley, Secretary of

State for Transport, moving an amendment welcoming the Governtrannsport system, said competition was good for both workers and travellers alike, and for the taxpayers.

users demanding help from the accident and emergency depart-

We are determined to fight

# Deaths in Dominican Republic reach 40

Santo Domingo (Reuter) - The Dominican Republic Army states it is in total control, as the death toll in two days of rioting across the country has risen to more than 40.

The armed forces said in a statement they would remain obedient to President Salvador Jorge Blanco and declared their support for the Government, promising to guarantee peace and order.

and emergency meeting with the President, said the armed forces lamented civilian loss of life in the riots. Police say more than 40 people here died in clashes with security forces since the riots spread through the country on Tnesday, with demonstrators looting shops and setting fire to buildings. In the provincial cities of Santiago, San Francisco de Macoris, La Vega and Banti, 17 people have died. Police say 12 people died in the capital on Tuesday, while more than 20 Tuesday, while more turn or buildings, including a bank, were set on fire by rampaging through the streets. More than 300 people have been arrested since Monday.
This week's violence

caused by the latest in a series of tough steps over the past two years - a rise in basic food reduce government subsidies.
The country has been trying to
meet economic targets set by
the International Monetary Fund in return for a planned \$450m (£310m) loan.

President Jorge Blanco, a former lawyer and staunch supporter of the United States, won an election in May, 1982, and took office the following Appust for a four-year term.

#### Kabul claims total victory in rebel valley for Russians

The long-awaited Soviet sault on the Panjshir Valley in Asignanistan has been met, according to the Asignan regime, with complete success. According to Kabul radio, a combined Soviet and Asignan

force is in complete control of the valley. The radio said the valley was quiet and added, oddly enough, that people were free to visit it.

The Afghan media gave no indication of the extent of the resistance to Soviet occupation of the valley, and no details of the forces involved. But Western diplomatic sources in Delhi said that the valley had been softened up over the weekend by high-level bonbing from by high-level bonbing from SU18 bombers based in the Soviet Union. This is the first time such bombing raids have been carried out inside Afghan-

The sources also gave a warning against believing that the forces of the local mujahidin commander, Mr Ahmed Shah Mahsood, have been put out of action by the Russian incursion.

During the previous Russian attempt to pacify the valley in September and October, 1982, the Western diplomats recalled, Mr Mahsood allowed them to penetrate well inside the valley before harassing them

As a result of that experience. the Russians negotiated a "peace treaty" with Mr Mah-sood, which allowed them to garrison two towns there but left him a free hand to train his guerrilla forces there and to allow his men time with their farms and families.

The treaty expired at the beginning of the year,

#### Tamil bodies recovered

The bodies of 13 youths who jumped into the sea when a naval patrol ship fired on the boat in which they were travelling to southern India on Saturday night were washed ashore yesterday at Point Pedro.

The patrol ship fired on the boat after it failed to stop when ordered to do so in the northern naval surveillance zone. Of 19 people in the boat, five were captured while one was found to have died of injuries sustained in the firing.

#### Consultants set NHS terms for budget role

By Nicholas Timmins Social Services Correspondent

Making consultants responsible for their spending will require more and better health service accountants, a significant investment in computers. and will take at least five years, a ... consultants leader said

Budget responsibility is a key element in the Griffiths report on improving health service management on which ministers hope to act after parliamentary debate next week.
But Dr Maurice Burrows.

chairman of the Central Com-mittee for Hospital Medical Services, which represents Services, which represents 10,000 consultants, said yesterday that the committee had written to consultants in every hospital laying down conditions which must be met

They included a significant

mprovement in the quality of and that at first consultants should be answerable only to doctors on the management

But Dr Burrows said his committee was divided: "Some are dead set against having anything to do with management budgets: others see it as the way forward

The future, he said, lay more with the second view. The committee had said in its letter that it hoped to encourage consultants to take on the new

#### ment at Edinburgh Royal Infirmary had risen more than four-fold in the past five years. Film to promote consideration for the deaf

By Bill Johnstone **Technology Correspondent** 

A fifteen-minute video tape, the sound track of which has been doctored to appear imperfect to the ordinary listener, has been made to illustrate to shop assistants and others who come

assistants and others who come in contact with the public the frustrations and plight of the hard of hearing.

According to the Sympathetic Hearing Scheme, the makers of the tape, the voices and effects have been so realistically educated on the tape that the adapted on the tape that the viewer can actually feel the pressures of being deaf or hard

of hearing.

The scheme is jointly organized by the British Association of the Hard of Hearing, The British Deaf Association, The National Deaf Children's Society and The Royal National Institute for the Deaf.

The film comprises four scenes and two short interviews demonstrate in dramatic form performing simple everyday

The first scene shows that the noise in a public house can mean that hearing aids have to be switched off. A scene in a department store shows another sufferer attempting to exchange some clothes. Other scenes illustrate the relief given the deaf when they receive special consideration in shops, offices, banks and other public places.

#### Vermont puts new life in Hart campaign

Senator Gary Hart's challenge nomination gained a muchneeded boost on Tuesday night when he captured a majority of 13 national convention delegates at stake in local caucuses in more than 190 Vermont communities.

With more than two-thirds of the 1,530 state convention delegates selected, the Colorado senator held a commanding lead over former Vice-President

MANY FACTS AND TOO LI

Walter Mondale. Results from 158 of the town caucuses showed that Mr Hart had 677 local delegates, or 49 per cent. to Mr Mondale's 458, or 33 per cent. The Rev Jesse Jackson won 192, or 14 per cent, and 66 delegates were uncommitted. cent.

Senator Hart, who won the state's non-binding presidential preference primary on March 6, ran well in Tuesday's caucuses in the largest cities and in small

#### Lagos is top of the costs in survey of 93 cities

main cities of Latin America are "downright cheap" to business executives being paid from abroad in foreign currencies, especially dollars. On the same basis. Europe is "something of a bargain".

These are the conclusions of Business International's annual survey of executive living costs in 93 key cities, of which Lagos and Tokyo rank, for the third

expensive places of all. Using New York, at 100, as the basis of comparison, their cost of living indices are 139 and 130 respectively.

London rates 78, Geneva and Helsinki 88, Zurich 89. Oslo Amsterdam 71, Brussels 67. Copenhagen 78, Frankfurt 74. Madrid 61, Paris 75. Rome 73 and Stockholm 77 in the cost of living table.

#### Food aid convoys run rebel gauntlet

From Stephen Taylor Harare

A sensitive operation is under way to ship emergency food supplies to Zimbabwe through a hazardous corridor in Mozambique, where the convoys risk attack from hostile guerrillas.

Armoured units of the Zimbabwe Army are assisting Frélimo forces to protect maize convoys from the Mozambique Resistance Movement (MNR) on the journey from Malawi through Tete province in Mozambique.

The 50.000tons of maize being moved in this way - 70 per cent of it bought with British aid – is a vital part of the food Zimbabwe must have in the next few weeks, before the new harvest reaches the grain

Drought has devastated the harvest, which will be less than half the country's needs and existing stocks are exhausted,

The three haulage companies involved in the shipment decided on the risky 70-mile Tele route, in spite of a spate of recent MNR attacks on the road in which a number of drivers have been killed, to save time and money on the much longer journey through Zambia.

South Africa's withdrawal of its backing for the MNR, under the recent Nkomati peace accord with Mozambique, appears to have had no effect on guerrilla attacks so far.

#### Japanese raise doubts on Aquino killing

Manila (AP) - The board investigating the killing of Benigno Aquino, the Philip-pines opposition leader released a report of its February inquiry in Japan in which two witnesses challenged military claims that a communist agent was the

and a freelance writer who both said they did not see who shot Aquino but saw the alleged assassin, Rolando Galman, "dazed" or "staggering" sec-

onds after the killing.
Mr Andres Navrasa, the board's counsel, said in an interview, that the Japanese testimony was "inconsistent with the government version" that Galman killed Aquino.

Katsuo Veda, the Kyodo journalist, said Galman was unarmed and appeared to be "just dazed" as he stood near Aquino's body. Kiyoshi Wakaminya, the freelance writer, said Galman was "staggering like he had been pushed out

Mr Wakamiya also testified that Quino told him that Mrs The Japanese police report that Quino told him that Mrs included testimony from a limelda Marcos, the President's Kyodo news service journalist wife, warned him not to come home from the United States because "we have loyal boys who may kill on their own".

The board's chairwoman, Corazon Agrava, said in a Tokyo television interview after hearing the testimony that the Philippine Government's contention that Galman killed Quino "may not be so", she said he "may have died by some other hand" than Galman.

#### Law Report April 26 1984

#### Tenant of resident joint landlord not protected

Before Lord Justice Eveleigh and Lord Justice Stephen Brown [Judgment delivered April 12]

A joint landlord living in a part of a building was the resident landlord for the purpose of excluding a tenancy of another part of the building from the protection of section [2(1) of the Rent Act 1977.

The Court of Appeal so held in dismissing an appeal by the tenant. Miss Moira Tail, from a decision of Bloomsbury and Marylebone County Court (Judge Butter), whereby she was ordered to give up whereby she was ordered to give up possession of premises at Ossington Street, Paddington, London, to the landlords. Mr Eric Cooper, Mr Paul Cooper and Miss Hilary Cooper. Section 12 provides: "(1) . . . a tenancy of a dwelling-house granted on ur after August 14, 1974 shall not be a projected tenancy at any time if

be a protected tenancy at any time if

13) the dwelling-house forms part
only of a building and . . the
building is not a purpose-built block
of flats: and (b) the tenancy was granted by a person who, at the time when he granted it, occupied as his residence another dwelling-house which - . . (iii) . . forms part of the building and tel... at all times since the tenancy was granted the interest of the landlord under the tenancy has belonged to a person

LORD JUSTICE EVELEIGH aid that the question was whether a tenancy was protected when it was granted by joint owners of the property and one of them was residing there but the others were

not.
The lease agreement was made in April, 1982, and the three landlords were described as the "landlord". The premises were part of a five-house divided into stores terrace house divided into flats. Mr Eric Cooper, who owned a

50 per cent share of the house, lived in the basement flat. In December, 1982, the landlords served a notice to quit and claimed possession from the tenant. Was the judge right in holding that the tenancy was not a protected tenancy under section 12? He had been guided by the House of Lords decision in Tilling v 18 Internal

[1980] ACT). That case was concerned with Case 10 of Part II of Schedule 3 to the Rent Act 1968. The words of Case 10 were utterly different from section 12, with which their

Lordships were concerned.

Did the facts of the present case fall within the section? It was possible to argue that Mr Eric Cooper did not grant the tenancy but his Lordship took the view that he granted it, albeit in conjunction

There was no reason to read into the section any words to the effect that the resident landlord had to grant the tenancy alone. It was to be noted that the 1977 Act did not state the nature of the landlord's interest.

The case was not entirely easy. It would be too easy to say it was on all fours with Tilling, but that was not a permissible conclusion.

His Lordship's conclusion was

the result of applying the words of section 12. The result accorded with the intention of the legislature: to one minimum of the registature: to accommodation so as to create more than one dwelling-house without being afraid that they would be unable again to have their premises under their control because of the provisions relating to projected tenancies.

protected tenancies. Mr Eric Cooper came within section 12 and, accordingly, the tenant was not protected under the

LORD JUSTICE STEPHEN BROWN, agreeing, said that the decision in Tilling was of assistance in the present case. Absurd and unjust results would follow from any other construction of section 12. Solicitors: Lewis & Pearson: Blacket Gill & Swain.

#### Effect of due diligence and expedition term

Greater London Council v Cleveland Bridge and Engineering Co Ltd and Another

ing Co Ltd and Another

A term in a contract which entitled an employer to discharge contractors if they failed to exercise due diligence or expedition in their performance of the contract did not of itself cause the contractors to be in breach of contract, and thus liable to the employer in damages, if they failed to exercise due diligence or expedition.

Mr Justice Staughton so held in the Commercial Court of the Queen's Bench Division on April In dismissing an appeal by the Greater London Council from an award of an arbitrator arising out of a dispute regarding the construction of parts of the Thames Barrage.

HIS LORDSHIP said that even of he were wrong regarding the effect of that term or if there were an inough not in breach of contract, there had, on the facts, been no gence or expedition, such a default or negligence by the requirement would have to be contractors.

various stages of the contract.

So construed it would be an obligation to use such diligence and expedition as would reasonably be required to meet the contractual deadlines. In general, a contractor was entitled to pace the performance of a contract as he pleased provided the specified deadlines were complied with, and there would be no want of due diligence or expedition if the deadlines were

The council had also contended that even if there had been no breach of contract, the contractors breach of contract, the contractors had been in default and negligent. Although a party who had failed to do what he ought to have done or had done what he ought not to have done could be in default even though not in breach of contract.

# DO SOME ADVERTISERS GIVE YOU TOO

It is not difficult to find yourself blinded by science.

Some advertisers are so wrapped up in their own jargon they fail to realise that to most people it's nothing more than mumbo jumbo.

figures you read are accurate? And how can you tell if an over-abundance of them is not just a whitewash to conceal the truth.

SORTING OUT THE WHEAT FROM THE CHAFF.

The answers lie in a book of rules called The British Code of Advertising Practice.

It is our job as The Advertising Standards Authority to administer these rules.

Where through lack of specialist knowledge the public could be led astray the rules are detailed and specific.

Financial advertising is a good example. In essence the rules state advertisements must take into account that the complexities of finance may well be beyond the people to whom the offer appeals.

An investment ad inviting direct response has to include a great deal of explanatory wording.

For instance, past growth of 500% in 5 years' would have to be qualified by the exact five years to which it referred.

And all investment ads have to carry wording to the effect that the value of investments and the income from them, if quoted, can go down as well as up.

WHEN ONE AND ONE MAKES SIX.

In protecting the public from being misled we are often accused of being pernickety.

We once received a complaint that a car with a 1442 cc engine had been advertised as a '15'. People 'in the know' apparently accept this as normal. But our complainant pointed out

that his employer's mileage allowance for a 1.5' was for engines over 1451cc. What meant little to the car trade meant a lot to him, and we were pleased that the advertiser amended the ad to include the exact

engine size in the text. READING BETWEEN THE LINES.

It's not enough for a building society to promise worth 13.93% to basic rate income tax payers' when the actual interest rate can fluctuate. This must be made clear.

A hi-fi manufacturer should not merely advertise that his equipment develops a certain number of watts.

Since there are several different ways of fair basis for comparison.

And as for computers it is not on to ad-

So we encourage the public to help by measuring sound output, he should state telling us about inaccuracies we may not have which method he used and give the reader a spotted. Last year over 7,500 people wrote

TLE INFORMATION?

Every complaint is considered and if But how can you be sure the facts and vertise what a piece of equipment will do and necessary submitted to our experts before we make a ruling.

> WHAT WE DO TO THOSE WHO PRACTISE TO DECEIVE.

If we decide there has been a breach of any rules we ask the advertiser to amend the advertisement.

If he cannot, or refuses, we ask him to withdraw it completely. Nearly all agree without further argument.

In any case we inform the publishers, who will not knowingly accept any advertisement which we have decided contravenes the

If the advertiser refuses to withdraw the advertisement he will find it hard if not impossible to have it published.

#### CAN ADVERTISERS RUN RINGS ROUND US?

The ASA was not created by law and has no legal powers.

Not unnaturally some people are sceptical about its effectiveness.

In fact the ASA was set up by the advertising business to make sure the system of self-control genuinely worked in the public interest.

For this to be credible the ASA has to be totally independent of the

Neither the chairman nor the majority of his council members is allowed to have any involvement in advertising.

Though administrative costs are met by a levy on the business, no advertiser has any influence over ASA decisions.

Advertisers as a whole accept it is as much in their interests as the public's to keep on the right side of the rules.

If you would like to know more about the ASA and the rules it seeks to enforce you can write to us at the address below for an abridged copy of the Code

> The Advertising Standards Authority If an advertisement is wrong, we're here to put it right.

# Doubts raised on killing reinforced by photograph

four Arabs who hijacked a bus earlier this month may have been captured alive and later killed by the Israeli security forces appear to have been strengthened yesterday by the first publication here of a readition of exposing sensitive. strengthened yesterday by the World) which has a long first publication here of a tradition of exposing sensitive photograph showing a man - stories. Another photograph apparently one of the hijackers taken from the rear appeared inside with a long article from which a number of details had

The photograph, of considerably poorer quality than others known to exist but not yet permitted to appear, makes it clear that the presumed hijacker was alive when he left the bus, but his state of health is not apparent because of the angle from which the picture was

The original call for an official inquiry from Mr Yossi Sarid, the opposition Labour MP, has been taken up by Mr Ehud Olmert, an influential backbench supporter of the ruling Likud coalition, and Mr Victor Shemtov, leader of the left-wing Mapam party. Mr Olmert has voiced reservations about whether the results should be made public.

It is understood from Israeli sources that the internal Army investigation into the hijacking is expected to be handed to Mr Moshe Arens, the Defence Minister, in the next few days, But no indication is available about whether any details will be released to the press or even to the Knesset's Foreign Affairs and Defence Committee.

The dramatic but blurred photograph of the young man being led away from the

#### Last phase in battle

export curb From Bailey Morris

over Soviet

The battle over proposed new US export controls on goods of military value to the Soviet Union moves into its most difficult phase this week as Congress reconvened to take final action on legislation which been opposed by Europeans.

Not since the pipeline controversy of 1982 has a trade-related issue created such strong tensions among allied governments which differ sharply on the use of export controls for national security reasons. The Reagan Administration,

in proposing legislation to extend the Export Administration Act, asked Congress to invest the President with expanded powers to restrict technology trade for national security purposes and to extend these controls to foreign companies.

The two houses of Congress have now passed sharply different versions of the legislation. A bipartisan group of con-gressional leaders will meet this week to begin tough nego-tiations on a final, compromise version. In anticipation of these

meetings, the European Community has launched an unprecedented direct lobbying cam-paign in an attempt to influence The fear in Europe is that

proponents of tougher export controls in the Defence Department and elsewhere in the Administration will win, thus raising the spectre of a new, deeply divisive US-European confrontation over high technology trade.
"If the Defence Department

is given the final say then we are lieaded for a major fight with the United States which will make chickenfeed of our agricultural dispute," said Viscount Etienne Davignon, Vice-Presideat of the European Commission and Commissioner for Industry.

A further tightening of US existing cooperative arrangements between European and American companies and threaten such ventures, in future, Viscount Davignon said. We would become two armed

camps."
House and Senate negotiators are divided over the breadth of controls proposed in their respective Bills. The EEC favours the less restrictive House version, which would protect the sanctity of existing commercial contracts and limit controls to only a short list of truly strategic technological

The Senate version would extend controls to a wide variety of goods and broaden the Government's power to impose extra-territorial controls on foreign companies engaged in technology trade.

In addition, there is sharp disagreement over which agency should be given authority to enforce export controls. The House version - sponsored by Mr Don Bonker, from Washington, would leave it with the US Commerce Department, which advocates a moderate approach to controls.

#### California let off lightly by strong earthquake

From Ivor Davis Los Angeles

The earthquake that rocked San Francisco and other northern California cities on Tuesday injured at least a dozen people. started fires, forced the evacu-ation of a school and destroyed houses near San José.

"My house looks like a hurricane hit it," said Mr Bill Berry, basketball coach at San José State University, who lives in a district known as Morgan Hill "Things were flying every-where. I ried to stand up but I couldn't. It was rocking too

The earthquake's epicentre was 12 miles east of the heavily populated city of San Jose, which is 50 miles south of San Francisco. It registered 6.2 on the Richter scale, according to scientists at the University of California at Berkeley.

The worst damage occurred around Morgan Hill, a farming town of 16,000 people 10 miles from San José. It hit at 1.15pm on Tuesday and two fires broke out immediately. Seismologists said the earthquake, followed by a series of smaller aftershocks, fault line and not on the extremely active San Andreas fault, which is where most previous earthquakes have

Skyscrapers in San Francisco swayed for up to half a minute and in Berkeley and Oakland many office workers ran into the street. At one high school some 2,000 youngsters left their classrooms and ran for open Most of the injuries were in

Morgan Hill where 12 people, including four children, were hurt, none of them too seriously. Nine homes were damaged

there, four of them completely

Damage was estimated the at between \$5m and \$10m. However, except for broken windows and food tumbling off supermarket shelves, miracu-lously there was little additional damage. At a San Francisco restaurant the shock startled people at lunch but when it was over, the restaurant manager said: "They clapped and went back to their food."

Officials at Anderson Dam, five miles from San José, noted was centred on the Calvaras a new crack but said there was no apparent danger to residents

from flooding.

California's last big earthquake was on January 22 when
one reaching 5.25 on the
Richter scale struck near the Monterey peninsular. Tuesday's was described as "a major earthquake".

The San Francisco earth-quake of 1906, the seventy-eighth anniversary of which was observed just a week ago, was 8.3 on the Richter scale. The May 1983 Coalinga earthquake that virtually wiped out the California community Coalinga registered 6.7.

#### State fails to cow Solidarity lawyers From Our Own Correspondent, Warsaw

One incident illustrates the point: Nowakowski's wife is the

defence counsel for the veteran (though still young) dissident Adam Michnik. He and 10 other Solidarity leaders and advisers have been in Rako-wiecka Prison awaiting trial the date of which has still not been stated - on charges of trying to overthrow the state authorities. Mrs Nowakowski left the prison earlier this and was promptly stopped by police who said they wanted to check the engine number of her car. She was then taken to a police station and stripsearched. The police were apparently looking for any notes from Mr Michnik.

An investigation has been started in the prison into leakage of information. How does the Western press know about the health of the 11 prisoners?

How does Mr Michnik manage to publish long articles in Der Spiegel? The defence lawyers are under suspicion. They can meet their clients only in special rooms and nobody doubts that the conversations are eavesdropped.

Each case against defence lawyers seems to tighten the Poland.

Pressure is growing on the small, beleagnered band of lawyers who defend imprisoned human rights campaigners and solidarity activists in Poland. They are trying to frighten us, one lawyer says. "Just as they are trying to frighten the writers by arresting Mark Nowakowski" (the novelist).

One invidence illustrates the process of the meeting.

Mr Bednarkiewicz had been investigating the death of a schoolboy, Grzegorz Przemyk who died after being in police custody - and a break-in, apparently by security police, into a church aid centre. Both were understandably sensitive

The doyen of human rights lawyers, Mr Wladyslaw Sila-Nowicki then protested in an open letter to General Jaru-zelski and was promptly called to the Interior Ministry where he was told that he was being provisionally charged with "insulting the highest organs of state' Another lawyer, Piotr An-

drzejewski, who defended Solidarity activists striking at a nuclear research institute, has been suspended from practice. Defence counsel in the provinces have complained that their offices are searched and that suspicious characters, claiming unconvincingly that they are underground activists, come into their offices wanting to be put in touch with other Solidarity fugitives.

There are now only six or seven specialist defence counsel for political prisoners in War-saw, some 30 in the whole of

#### Judge rejects writ to free Kenya detainees

for the release of four Kenyans, in detention since 1982, has been rejected by the Chief Justice, Mr Alfred Simpson, in the High Court here.

Counsel for the four submitted that their detention was illegal because details of their cases were not tabled in Parliament in 1982 and precise grounds were not supplied to The four are former MPs, Mr. George Anyona and Mr Koigi

sity lecturers, Dr Edward Oyugi

A habeas corpus application and Mr Kamonji Wachira. They were detained early in 1982, several months before the attempted coup in August of that year.

Giving his ruling, the Chief Justice said the adjournment of Parliament soon after the detentions did not invalidate them, and the orders were not affected by any lack of detail in the statements supplied to the detainees. The Attorney-General,

Mathew Muli, opposed the application on behalf of the

#### Iran 'will possess A-bomb by 1986'

Iran is making a nuclear bomb, which is likely to be ready within two years, according to Jane's Defence Weekly, the British defence magazine. It quoted unidentified press reports from the Gulf for the

"We checked out the reports with our sources, and they weren't knocked down," one of the editorial staff told Reuters.

A West German company had sent 40 experts to resume building the nuclear power plant at Boushahar, work on which was suspended after the 1979 revolution.

West German intelligence sources said production of a nuclear bomb "is entering its

#### Wine war

Carcassonne (Reuter) - Five French winegrowers were arrested suspected of destroying a huge hypermarkety by petrol bombs last weekend. It was selling imported wines as well as regional product.

#### Anthem lives

Sydney (Reuter) - Australian soldiers who fought with British forces in the First World War defied a government edict that "God Save the Queen" is no longer the national anthem and played it at memorial services yesterday to the Gallipoli landing of 1915.

#### Paint bill

Los Angeles (AP) - Two photographers have filed damages claims against Prince Andrew for his impromptu spray paint job on the press last week. One wants \$1.200 the other \$600. The British Con-

#### Group freed

Beigrade (Reuter) - All the 28 Yugoslav dissident intellectuals rounded up last Friday while listening to a lecture by Mr Milovan Djilas, the veteran civil rights campaigner, have now been freed, Mr Djilas said. All their flats were searched.

#### Swiss pile

Leibstadt (AP) - The first test run was held at Switzerland's newest 1,000 megawatt nuclear power plant here with commeri-cal operation scheduled to start in October. Two-fifths of the country's power will then be

#### Lesbians wed

Hamburg (AFP) - two lesbians had a white church wedding in Hamburg's Altona suburb over the Easter holdiday, the first marriage of its kind in West Germany. The pastor faces disciplinary action.

#### Jail ballad

Belgrade (AFP) - A 19-yearold Albanian singer substituted the word schiperia, (the Albanian for Albania) for shocheria (society) at a recent concert in Yugoslavia's south-east Kosoro, heavily populated by Albanians. The song thus praised Albania and it earned him a 60-day jail sentence.

#### Caviar catch

Sofia (AFP) - A team of Bulgarian fishermen landed five' giant sturgeons weighing a total of 1,225lb. One was 363lb. The catch yielded 127lb of caviar.

#### Beaches reopen

Glen Cove. (Reuter) - The New York suburb of Glen Cove finally lifted its two-year ban on Soviet diplomats using its beaches, golf courses and tennis courts. In the long wrangle, the Justice Department intervened. the council was taken to court, and a new mayor was elected.

#### Rare leopards

Krefeld (AFP) - Three snow leopards, a species near extinction, were born in the zoo here. Zoos round the world have put in requests for them.

#### Take six

Memphis (AFP) - Rock and country musician Jerry Lee Lewis, aged 48, has married Kerrie McCarver, a 22-year-old Country and Western singer. It is his sixth marriage. The first three ended in divorce, his fifth died of a drug overdose.

#### Elton John to meet Walesa

Elton John, the British rock star, plans to meet Mr Lech Walesa, the leader of the banned Solidarity trade union, during a brief concert tour in Poland this week, according to informed sources.

When exactly this unlikely spectacle will take place is still unclear. The British star, who recently featured in a much publicized wedding, will be flying with two private aircraft into Warsaw Pact territory in time for a concert on Friday

He was originally supposed in his capacity as chairman of Watford Football Club, to kick off a football match between the British Embassy and Polish journalists, but the message has now reached Warsaw that he has an injury. This would open up a hole in his schedule for arranging a

Mr Walesa has mesmerized number of Western rock, folk and pop stars. While he was still interned in the months after the declaration of martial law in the winter of 1981-1982, the American singer Joan Baez sent a personal tape-recorded roessage to him via a charity mission known as "Operation Baez singing her satirical song Happy Birthday, Leonid Brezh-Elton John is due to appear Car. . # Bringing Cable TV down to earth

Completed in just six months on a derelict dockland site, London's first operational earth station—The London Teleport.

It provides a vital service for Cable operators. Twin aerials transmit TV programming material via satellites. This is received by operators in Britain and abroad through small dish aerials on their premises.

Four more aerials will provide City businesses with the advanced high-speed information services managers

# How doctors get the picture-by phone

Specialists on call can now save vital time by viewing medical information—X-rays, brain scans and other graphic diagnostic aids—on their home TV sets.

A new system developed by British Telecom connects transmission equipment at a hospital with the doctor's home via the telephone network. Capital cost is not large, and the system operates for the price of a telephone call.

Apilot scheme is already in operation—with plans well advanced for extension to the rest of Britain, and then overseas.

Apublic service that could literally save lives: a new market for British Telecom.

# Taking stock-minute-by-minute

New equipment, new techniques for stock and credit control, for funds transfer, even for selling directly off the TV screen, give management the possibility of a minute-by-minute overview of business operations.

Akey to the real-life viability of these seemingly science fiction developments is Packet SwitchStream (PSS), and KiloStream, just two

of British Telecom's growing range of digital services.

PSS and KiloStream provide fast, high quality data transmissions at the most economical cost.

They are already widely available in major business centres and they are rapidly expanding countrywide.

#### <u>Competing in</u> <u>a world growth market...</u>

Trading contracts agreed with 60 countries.

Turnover growth from overseas business up 50% in past year.

Training expertise wins £8 million Middle East contract.

World's first intercontinental data transmission service operational.

Transworld Airlines choose British Telecom for international data transmission service.

#### Wall Streethere we come!

"The Thundering Herd" buys British. Merrill Lynch Capital Markets, the world's largest stockbrokers, is replacing current equipment with our unique City Business System.

This provides international dealers with comprehensive telephone facilities, data retrieval, computer access and telex in one compact terminal. All controlled simply by touching the monitorscreen itself.

The City Business System has already won orders worth over £16 *million*, with exports to four continents.

#### The Times Profile Breyten Breytenbach

It was ar the age of 36; the height of his literary acclaim, that South Africa's leading Afrikaans poet Breyten Breytenback was imprisoned for seven years for clandestine activities against the apartheid system.

Recently released and now back in his Paris home with his wife Yolande, Breytenbach is still numbed by his prison experience and the shocks of reentry into freedom. But he consented to talk about how he was caught, and how his fellow-Africaners treated him.

Relishing his return to the food and wine of France, he toasts the Ilinary contrast with South African prison food. "Spare diet in the punishment cell is a handful of dry gruel, so dry you have to mix it with toothpaste to get it down", he said, and confirms that food in South African prisons is still graded according to the race of the prisoner. "Even the condemned man's last meal is subject to apartheid. Before being hereed the white prisoner gets a whole hanged the white prisoner gets a whole roast chicken. The black prisoner gets half a chicken. Strangely enough, from the time they are condemned the blacks get the same food as the whites - except for that last meal. Its like a kind of reaffirmation of apartheid in the final moment before the gallows."

Breytenbach, now 43, is an unique thorn in the side of South Africa's governing Afrikaners, whose resentment of his dissidence conflicts with their respect for his artistic eminence.

His contribution has been to push Afrikaans beyond its own confines, making it sing

Afrikaans is one of the newest languages in the world, evolving over the past 300 years from the Dutch spoken by the first white settlers in South Africa. Today it is linguistically closer to modern Flemish than to modern Dutch, and is understood in Holland only if spoken slowly. Because it is the home language of three million white Afrikaners - the group which has ruled South Africa since 1948, in varying degrees of domination over two million English-speaking whites of British descent, two million became fluent in French. There he met "coloureds" (of black and white and married Yoland Ngo Thi Hoang one million "Asiatics" (mostly descendants of Indian labourers) and more than 20 million blacks it is identified with the 317 apartheid laws and regarded by most blacks as the language of their oppression.

Conversely, most Afrikaners regard it as the language of their survival, and the relatively few Afrikaners who reject apartheid and refuse to conform to refused entry to South Africa as a Afrikaner Volkspolitiek are branded as outcasts and verragiers - traitors. Breytenbach points to the number of leading Afrikaner poets who have been makes interracial marriage or sex a destroyed as people by the clash between the broad challenges of their art and the narrow demands of such Volkspolitiek: Leipoldt, rejected by the Volk, virtually stopped writing; Van Wyk Louw was ostracized after public repudiation by Verwoerd; Opperman drank himself to ruin; Ingrid Jonker walked into the sea to her death; Blum left the country and was never heard of again; Kirsch, Eybers and Philander emigrated; Watermeyer drank himself. Africa to contact known anti-apartheid to an early death and Gilliland and Knobel both committed suicide.

Badly spoken, Afrikaans is an ugly language which rasps like sandpaper to the ear. Well spoken, it is one of the gems of the linguistic store, rich in vivid imagery and musical sounds. Political orators such as J. D. Basson make it sound like a cello, full of fruity tones and cadences, and its innovative modernity gives its newer words a special impact - an aircraft carrier is an abbaskip (piggyback ship) and a subway rail is a moltrein (mole train).
Breytenbach's contribution has been

to push Afrikaans beyond its own confines, expanding its boundaries of poetic vocabulary and making it sing with a new confidence. In prison he

In die middel van die nag kom die stemme van die wat binne enkele dae gehang sal en in die klanke 'n dun benoudheid

soos van stywe toue In the middle of the night come the voices of those who within mere days will be hanged and in the sounds is a thin anguish

as of stretched ropes The translation is crudely inadequte to the beauty of the lines in Afrikaans, conveying only a hint of Breytenbach's

How did this nationally acclaimed poet, his brother a general in the South African army and his background deeply rooted in the Afrikaner group consciousness, come to declare a private war on that group's innermost political values?

A descendant of an old Cape family - the Berytenbachs were among the early settlers of the seventeenth century - Breyten graduated from high school in the Afrikaner heartland of the western Cape Province, but deviated from the Afrikaner norm by eschewing the adademic shrine of Afrikanerdom, Stellenbosch University, in favour of the English-language University of Cape Town. For him the first stirrings of art – painting and poetry - began at the age of 15, and he was impressed with the reputation of the fine arts faculty in Cape Town.

At the age of 20 he abandoned the

course and set out for Europe, working for a time as a porter at Euston station before drifting into a variety of jobs in different parts of the Continent. But Lien, born in Vietnam and raised in Paris, whose father was finance minister under Ngo Dinh Diem.

During the next two years he produced two volumes of poetry which earned him South Africa's top two literary prizes - but when he applied for a visa for his wife to accompany him to collect the awards she was "non-white", and it was pointed out that Breytenbach could face arrest under the Immorality Act, which

Breytenbach's response was to begin an involvement with anti-apartheid groups in exile. He ultimately joined with two other white South Africans, Barend Schuitema and Don Morton, to plan an organization they proposed to call Okhela, as white anti-apartheid contribution to the cause of oppressed blacks. It was decided that Breytenbach should travel incognite to South whites and some black spokesmen, such as Steve Biko, with two aims. One

Breytenbach with Yolande, his Vietnamese-born wife. She was refused entry to South Africa when her husband was awarded literary prizes there.

was to channel money from European church groups to black trade unionists in South Africa, and the other was to "help develop a political infrastructure among anti-apartheid whites, to project to other whites inside South Africa the ideal of an alternative society free of racial barriers".

With the help of a French anti-apartheld organization, which supplied a false French passport in the name "Christian Galazka", Breytenbach shaved off his beard and flew from Rome to Johannesburg. But the French group must have been infiltrated. because from the time "Galazka" obtained his visa the South African security police had him under surveillance. They were later to claim that an air hostess aboard the plane was working on their behalf, and that they knew "Galazka" was Breytenbach all along, but subsequent events cast doubt on both claims, suggesting it was only after his arrest more than a week later that they discovered his true

He was taken in shackles a thousand miles to prison where he spent the next five years

They shadowed him in Johannesburg and Cape Town, noting his contacts, before arresting him and charging him under the Terrorism Act. Initially Breytenbach was not unduly concerned, because he felt he had not done anything illegal in normal terms beyond using a false passport - hardly a major crime.

But he was to find that in South Africa normal terms do not apply to political activities. He was sentenced to nine years in prison for the intent with which he had entered the country, the court taking the view that trade union campaigns against apartheid constituted a threat to the safety of the

So it was in November 1975 that Breytenbach began his long period of solitary confinement among the condemned prisoners in Pretoria's maximum security section - a confinement which was to be interrupted only by three bizarre events.

One occured when, after repeated petitioning by Afrikaner writers such as Andre Brink, he was allowed to see a new edition of his work. The prison authorities interpreted this literally - he was allowed to see the volume but not read it, their reasoning being that he was banned from reading unauthorized material even though it was material written by himself. Under the eyes of warders he was permitted to handle the book and flip over the pages cursorily before it was snatched back, lest he might dwell on any word within.

Another strange event was when he was removed from his cell one day by the senior security police officer, Colonel Broodryk, and taken to the latter's home. Broodryk, who admired

Breytenbach's writing, walked with him in the garden and introduced him to his two daughters, who asked for and received Breytenbach's autograph. Broodryk was later to allow Breytenbach to write a book of poetry in prison; a book which, without consulting the author, Broodryk caused the printers to dedicate to himself.

The most bizarre incident of all, however, began when a warder broke all the rules of the prison to whisper into Breytenbach's cell that he was a secret ally named Groenewald who wished to help Breyten escape, and was prepared to smuggle letters and messages to friends outside.

It was such a crude attempt to win as trust that Breytenbach made his responses sound absurdly naive or indistinct - guessing, correctly, that he was being tape-recorded by Groenewald. He played along accepting writing materials and sending out several letters to Yolande and others, hoping some might get through as part of the official campaign to win his trust, and verbally led Groenewald into ever wilder realms of subversive speculation about sabotage targets.

The result was a second trial under the Terrorism Act in June, 1977, when he was formally accused of planning an escape, recruiting a warder for such a purpose, illegally sending letters from prison and plotting to blow up targets such as the Afrikaans Language Monument in Paarl. The state officials realized all too late that they had been sent up by their poetic prisoner, and shortly after the trial began the patent absurdity of the charges became embarrassing even to the state pros-

The prosecutor had not bothered to listen to Groenewald's tapes, and had relied on transcripts supplied by the security police. When the recordings were played in court and heard to be nonsensical or indistinct, and to bear little relation to the "transcripts", however, Breytenbach was aquitted of all charges except that of smuggling letters out of prison, for which he was fined a nominal 50 rands.

He was taken in shackles a thousand miles, from Pretoria to Pollsmoor Prison near Cape Town, where he was to spend the next five years of his captivity until the end of 1982.

During this period, increasing diplomatic pressure was being brought to bear on Pretoria by the French government, pressure which became sharper with the accession to power in Paris of the Mitterand administration. When the South African government finally relented at the end of 1982 Breytenbach became one of 27 political prisoners, and the first white, to be released before full expiry of sentence in the first such commutation in 30

Breytenbach says his remission of sentence from nine years to seven, to which the South African authorities attached no conditions beyond ascertaining that he would leave the country, was sudden and unaccompanied by any prior indications by officials. At first he could not believe it, and thought he was being taken to the superintendent's office to be told of punishment for some infraction of

After a four-hour delay in his release, owing to the fact that no box could be found anywhere in the prison for his original clothes and belongings. he was allowed a brief visit to his father before flying to Johannesburg to return to Paris. Although his father had not spoken a word in years, following a stroke, he looked at Breyten and burst out with Magtig! (Wonderful!). It was the only word he could manage, and he repeated it several times as they shared a bottle of wine before Breyten's supervisor indicated it was time to go

On the way to the airport he gained permission to run into the sea for a quick swim (emerging from the water he noticed a sign proclaiming that the beach was segregated), and he and his clothes were still wet from the swim when he arrived at the airport. He had forgotten about boarding procedures, and when an airline official reached for his parcel of manuscripts to put it through the security screen a tug-ofwar ensued, until Breyten was assured that his separation from his manuscripts was only temporary.

to the airport.

In Johannesburg Yolande and the French Ambassador were waiting for him with a ceremonial bottle of champagne, and the Breytenbachs flew to Paris after seven and a half years of separation.

"I couldn't get used to things on the wall, like pictures and ornaments... walls looked cluttered after the bareness of the cells. I kept opening doors and leaving them open - the joy of an open door, to walk through whenever you like. Telephones were exotic things I had forgotten about, colours overwhelmed me, the bright colours of clothing, flowers, books... and the voices of children... I hadn't heard the voice of a child for seven years. To see the stars at night! And the moon! To ride in a car, and see other cars going by, travelling so fast... and not knowing the value of money, not knowing what things cost after seven

But for him the worst moments of imprisonment were waking up every morning. "After the freedom of dreams you open your eyes to the reality of the cell, and the realization that this is your reality for years and years to come." In time the reality became unreality, and he would hallucinate. He would be sure that Yolande was speaking to him, and would answer out aloud. He also acquired an imaginary cell companion, Don Espejuelo, (Sir Mirror) a sardonic old Spaniard who criticized Breyten's poetry and scoffed at his views on painting, books, cinema and music.

He speaks of his separation from Yolande, but also of missing the prison life

"He is a hardegat (hard-assed) old chap, Don Espejuelo", says Breytenbach. "Always punching holes in my self-esteem, always arguing, but stimulating company in a place like that: After a long time in solitary confinement I also started getting visits from Dostoyevsky, which was terrific. I came to know him quite well, and to call him Feodor. In fact, I owe Feodor a poem, the poem referred to in Karamazov, about Christ returning to Spain where he meets the Grand Inquisitor. One of the brothers Kara-mazov describes the poem but it's never written. That's the one I promised to write for Feodor.

He plans to write mostly in French and English. Is this a rejection of Afrikaans? "Not as a language, no. I'd never reject Afrikaans as a language, but I reject it as part of the Afrikaner political identity. I no longer consider myself an Afrikaner. Actually I prefer to consider myself a citizen of the world. I feel at home here in Paris. I'm a Parisian: But Afrikaans . . . I've long felt there was hope for it only if it were used in resistance to apartheid, but I think it is now too late. For blacks it is a denial of reality and a humiliation. Afrikaans as the youngest prince of the Germanic languages? The prince has been poisoned. What remains is a

language for use on tombstones."

He speaks of the years of separation from Yolande, the pain of isolation and the early part of the strange sensation of missing some aspects of prison life; an occasional pang of homesickness for his cell, its certitudes and reassuring routines. "The other night I dreamt I had to go back, and my biggest worry was that I'd given away my spoon and plate and bit of soap. Would I be able to get them

As writer and artist he counts it an advantage to have been imprisoned, and feels that his writing has been improved by the experience. His imprisonment has also helped him to square accounts with himself, as part of what he regards as a necessary process for white South Africans opposed to apartheid - the need to pay an expiative price for it.

have seen evidence of the most appalling bloodshed in Observerland (writes the editor of this column, Miles Kington).

During the course of an ordinary journey to Observerland, to have lunch, actually, I have seen scenes and heard reports which make it plain tht heads are rolling, backs are being stabbed and blood is being spilt. Normally not a squeamish man, even though I was invited there on a courtesy visit. Lunch, as I think I have mentioned.

Terrible things have been happen-Terrible things have been happening", a man called Donald told me,
"and they are going to get even
worse. Only last week a man came
into my room and tried to give me
the bullet. Luckily he missed,
otherwise I would not be here today, if indeed I am here today, because from day to day I do not know if I am here or not."

Donald explained to me that the land is divided into two main tribes. He belonged to the more munerous one, the so-called N'uj, who do all the work and cultivate the wide rolling spaces of newsprint which dominate Observerland. Unfortunately, they are subservient to the Lourho tribe who, although much smaller in numbers, have all the money and firepower, and usually win when it comes to open strife.

Donald speaks with terror yet nobility of the man they call "Tiny", the leader of the Lonrho tribe, who is legendarily supposed to eat underlings for breakfast, though whether this was a literal fact or merely a figure of speech I was not able to find out. But I was shown bloodstains and heard sounds of firming from the personnel department.

These bloodstains come from the feet of my warriors", said Donald, whose other name I am sworn not to reveal. "Traditionally we have always travelled in our ancient transport known as black cabs, but the Lonrho are now cutting off our money for this, and many have been forced to walk. No wonder their delicate skins

The income of Observerland depends largely on the number of visitors they are able to attract every Sunday, and it is a matter of pride with Donald that this number has grown since he became chief of the Nuj. It is a matter of sorrow that "Tiny" denies the growth of these numbers, but Donald is confident that the young men of his tribe are 100 per cent behind him. His main fear is that "Tiny", tired of the conflict may sell his homeland to the dreaded Pergamon tribe.

Who knows what is happening?" says a tired Donald. "Perhaps I will be rescued by the ancient chiefs, the socalled independent directors. Perhaps I will not. Perhaps I will be forced to flee Observerland where I have lived for so many years and start a new life. Perhaps, O Kington, you will give me a small job in Moreoverland."

And perhaps not But whatever happens, I pray that peace will come soon to this troubled place. The Sunday visitors to Observerland are not, perhaps, very interested in the tribal conflict - many of them come only to taste the cooking of the legendary Jane Grigson – but until this conflict is over, there can be no peace, not for Donald, nor for any of the N'uj, who only ask to be allowed to continue with their traditional rite of gathering after work at the watering-holes, as the expenses are cooked softly in the background.

#### Hats, Daimlers and Hitler

les Kington

In June 1939 the King and Queen went to America, the first visit by a British sovereign. Vast crowds at the World's Fair in New York and elsewhere adored them. The Queen looked spectacularly pretty. The impact of the visit on the Americans from coast to coast was enormous. Even the virulently anti-British Col. McCor-mick's Chicago Daily Tribune succumbed, reduced to muttering subdued warnings under vards of pictures and stories, the United States receives them cordially, if with mental reservations." New York's Mayor, La Guardia, told the King that "he had negotiated a treaty of friendship which would take many years to revoke." That visit did more than anything to put America on our side when the war began less than three months later. At the beginning of the year

H. G. Wells, discussing the coming visit in the News Chronicle, wrote, "These young people are, I believe, a very charming of the year. charming couple, constantly smiling and bowing but they mean absolutely nothing in the problems of today....That visit is of very small importance in my horoscope. What is of very great importance is the approach of daily Transatlatic

On August 28, five days after the Nazi-Soviet pact was signed, Bernard Shaw had a letter in The Times about the "joyful news that Hitler is now under the thumb of Stalin whose interest in peace is overwhelming. And everyone, except myself, is frightened out of his or her wits. Why?" The judgment of very clever people is not to be relied on in serious

The judgment of the ordinary people is always better. They understood that the King and Queen had caught the emotions of the Americans and that it was these emotions which would count more than any poli-ticians meetings. All during 1939 the British knew the war was close despite Neville Chamberlain's pitiful searching for hope of peace in the ambiguous utterances of Hitler. Chamberlain could still think all was not lost after Hitler marched into Prague on March 15; and when Hitler marched into Poland early on Friday September Chamberlain delayed the military support pledged to Poland (which might have been some nia, and other notable events use if it had been immediate), dropping pleading leaflets not

The World We Left
Behind
By Robert Kee

(Weidorfeld & Nicolson, £11.95)

from their reading of unpublished documents and from the private motives of leaders, it is in the newspapers of the time that the broad truth appears.

The irremovable daily facts are there. Robert Kee, as demon-

there. Robert Kee, as demon-strated by his history of Ireland, is an able historian. He has let the newspapers of 1939 tell the story of that fascinating year guided by his intelligent selec-tion which gives a fair sample of the mood and behaviour of politicians editors and people. The illustrations, all taken

from the newspapers, are brilliantly chosen. How nice to see the basic sports saloon. Daimler for £485, and the sketches of Paris spring hats in The Times looking far more attractive than those of 1984.

Though the Parish has been saloon years, but particularly in 19 one of the most intense period international diplomacy.

Anthony Parsons, tho being a party to and file. Though the British knew better than their politicians that war was inevitable they wisely decided to enjoy themselves while they could, A thousand special trains at the August Bank Holiday weekend were laid on by the London Midland and Scottish Railway Company alone. Murder trials and sport got more attention than heavy political matters.

During the year there was a significant shift of attitude. The public had wanted to be deluded by Chamberlain's "peace with honour" at Munich in 1938, and he had their backing then. They were not mentally prepared for war. A public opinion poll published the day Hitler entered Prague what the public now thought had been meant by appeasement. Only 28 per cent approved of it as "a policy which would ultimately lead to enduring peace".

There was sympathy for Jewish refugees from Germany but it was not universal. The Sunday Pictorial in January had a headline "Refugees get Jobs -Britons get Dole", and in the story the unfeeling words, "European refugees are stealing jobs from Britons by the hundred every week". An editorial in *The Evening Standard* said. "It is not possible for the British covers and the British c the British government to allow immigrants to pour into this country. We can only allow harbourage here so long as provision is being made at the same time for refugees to move on elsewhere..." Yet the horrors inflicted on the Jews by Hitler were well reported.

Mr Kee's re-creation of the atmosphere of 1939 is authentic as I remember it. It is absorbing and worth any number of conventional histories. Franco's victory, Chamberlain's appeas-ing visit to Mussolini in Romethe first betrayal of Czechoslovakia, Italy's invasion of Albathe contemporary view of them. All the trivialities which entertained people at the time are history accurate and compre hensive, but fun to read will

enjoy this book.

# Anatomy of an honourable error

The Pride and the

By Anthony Parsons (Cape, £8.95)

Could and should Britain have done more to have prevented the toppling of the Shah? This personal account from our Ambassador in Teheran from 1974-79 provides fascinating insights towards answering that question. Yet strict observance of the Official Secrets Act and the 30 year rule means that we are only given a partial glimpse of what was over a number of years, but particularly in 1978, one of the most intense periods

Anthony Parsons, though being a party to and fully involved in much of these discussions, had to exclude this. area of diplomacy. In consequence there is too much "mea culpa" as though to compensate for the criticism that his on the spot assessment proved in the event to be wrong. He takes too much blame on his own shoulders and this gives the impression that his personal udgment was the dominating actor. In reality there were many other judgments, many other imputs. Well before the crisis the correct questions were. constantly posed by the British Embassy in Teheran. "Has the Emperor any clothes?" was but one. The fact that on balance he

David Owen examines the overthrow of the Shah

indictment of his professional national security. Subsequent expertise. This is worth stres- eyents have tragically proved expertise. This is worth stres-sing because some of the greatest public servants have been associated with mistaken judgments and yet have still retained the confidence and the respect of the politicians who they advised. Anthony Parsons was brought back in January 1979 from Teheran to London on promotion to a specially created Third Permanent Under Secretary job in the Foreign Office. The intention was to let him obtain invaluable experience of up to the minute service in Whitehall so that he would be ready should whoever was the Foreign Secretary after the election wish to send him either as Ambassador in Washington or to the United Nations, The worst public servants are those who always hedge their bets. The best, and Anthony Parsons was amongst the very best, pose the right questions but are also ready to giving the wrong answers. It is a tribute to his professional skills that he was

The trendy Left in Britain in 1978 pretended that the fall of the Shah would improve the lot one. The fact that on balance he of the average Iranian and not concluded that at best he could came to the view that the Shah have damaging effects on only hope to survive as a could survive was not an British interest or on inter-

able to command the affection

and regard of people as diverse

as myself, Lord Carrington and

Mrs Thatcher,

how wrong those sentiments were. The abuse of human rights that existed under the Shah's regime proved to be much less than what followed in the wake of the revolution. The Iran-Iraq war is but one of the tragic consequences of the regional insecurity that manifested itself as soon as the Shah's grip on the region was

On the reasons for the Shah's fall, this account gives too little weight to the inflationary pressure that began to feed through the Iranian economy acting as a focus for discontent amongst the middle class professionals, as well as within the bazaar. Also, insufficient stress is given to the shattering effect over the last few months of the Shah of the strikes in the oil fields and the total inability of the armed forces to keep of production up. It is amazing in retrospect that the Shah did not anticipate this potential weak-

Assessing the critical days in the Summer of 1978, one is bound to ask whether we and the United States should not have put much more pressure on the Shah to abdicate and to leave Iran. We had already

had insufficient knowledge about his state of health. We understimated his capacity to vacillate and we attached too much importance to the need for him to be physically present in Iran in order to hold the armed forces together. In retrospect we should have given him a much firmer steer that he should leave and appoint his son as successor with an interim regency. This might have taken away the emotive focus for discontent around which public opinion in Iran could combine. There was little else that bound together the disparate groupings that coalesced to topple the Shah other than hatred of the man. The fault for any mistakes in our overall diplomacy at this time does not lie with our Ambassador in Teheran,

inevitably an Ambassador's personal contact and involve-ment with individuals clouds their judgment, One does not expect from an Ambassador's reports total objectivity for their task is to try to put themselves in the position of the government and the rulers whose actions they have to interpret back to their own country. The

intimacy of Anthony Parsons' relationships with the Shah and the former Prime Minister Hoveyda brought great benefits to Britain over a number of years. If criticisms are to be made about what was said through the British and US Ambassadors to the Shah in the last few critical months, they should be directed at us

inspired passages, were patchy and repetitive: perhaps they should be declaimed. His book

on Milton – interestingly Wilson's last biography was of Milton – was dictated over the space of ten days in his study at

Kingsland, his Sussex home. Wilson remarks: "He is out of

fashion, out of print, in most cases out of mind, not because of the quality of his literary output, but, very largely, because of the nature of his political and religious beliefs". He later trims

Burroughs: plunging in the vertigos

**Fiction** 

#### Prairie oyster

**Opus Pistorum** By Henry Miller (W. H. Allen, £9.95)

The Place of Dead Roads By William S.

Burroughs (John Calder, £9.95)

Coals may have been brought to Newcastle, refrigerators sold to Esquimaux, sand scattered in Arabia, but *Opus Pistorum* achieves more. It is pornography written by Henry Miller. Penniless in Hollywood during the Second World War, Miller was paid a dollar a page for his lubricious effusions by a local bookseller, who catered in censored material to some leading film producers and directors. Miller obliged and the result is Opus Pistorum, Latin for the Work of a Grinder or Miller. It is more like the work of a dollar-a-trick literary whore. Despite praise from William S. Burroughs and Terry Southern, who term these pages and acious and a spring whiff of the 1920s, Opus Pistorum books about the Tropics of Cancer and Capricorn seem as steady as the Pilgrim's Progress. f you want an American in Paris in the obscene mode, punctuated with dots in the manner of a Céline novel, this is

your prairie oyster. Burroughs himself has emerged from playing with his handguns in his mid-Western bunker to write The Place of Dead Roads. It is a surreal timetrip through the cowboy myths of the American West, riddled with obsessions about revolvers, shooting, the male body, death and Egyptology. It is too personal a novel to

communicate more than the private world of a writer, whose gifts have always been greater than his capacity to organize them. Even the French Roman-tic poets aimed at fixing the vertigos. Burroughs plunges within them.

Hix Nix Stix Pix by David Liewellyn Burdett (Cape, £8.95) might well be another American hit-and-miss Hollywood novel written in the slang from the headlines of Variety, the trade paper. In fact, it is a witty and engaging run through the studio years from the First World War to the Second, an artful blend of political facts and the screen career of a star named Inshroin. Usually the mixture of history and romance confuses without entertaining, but in this case, as in E. L. Doctorow's Ragtime, the invention and resurrection of time past leads to an intriguing first novel from David Llewellyn Burdett.

The Hawthorn Goddess by Glyn Hughes (Chatto & Windus, £8.93) is a magical novel, quirky and earthy, about Yorkshire history during the period of the Industrial Revolution, The heroine, Anna Wylde, represents the doom of nature and the land. She suffers from the dominance of Reason and Profit, and even superstition, although she herself is halfmythological, a creature born of the ancient folk ways. Glyn Hughes has an arresting style, both rich and abrupt, mannered

with sudden inspirations. He intends a trilogy about Anne Wylde with her reappearing to live through the social history of the nineteenth and twentieth centuries. If he does not labour his old beliefs and correspondences, he might achieve a moving and singular body of work in the end.

Andrew Sinclair

#### The cost of pearls and caviar

Hilaire Belloc By A. N. Wilson (Hamish Hamilton, £12.95)

A. N. Wilson describes Hilaire Belloc as a dirty, noisy figure, "an opinionated supertramp". A contemporary, Gertrude Ather-ton, was constantly expecting Belloc's mind to "explode and burst through his skull . . . such a flow of words I have never listened to." He was not too worried about personal appearance, always wearing mourning after his wife's death in 1914. Anyone who did not mistake him for an undertaker would very naturally think of him as a priest". In later life he turned up at his agent's dressed typically in a "well-filled black fustian suit, dripping with soup, dandruff, grease and fishbones,

and bulging at the pockets with

newspapers and a bottle of white

He was an eccentric genius. He once declared that writing history was a matter of flair, not of facts. Certainly Belloc had flair. History itself has judged bim of little worth since he either mishandled or ignored its facts. Wilson, too, has flair, and with a better balanced attitude towards anecdotes and substantiated facts, has brought Belloc, the rear half of Shaw's monstrons Chesterbelloc beast, to Woodrow Wyatt vigorous life in the biography.

It is a bonu when amusing subject and amusing author coincide. This fortunate conjuction has oc-curred with Wilson writing with

Roman Catholic of the continental tradition, anti-Jew, and a trenchant critic of Parliament despite sitting as a MP for South Salford. And in his craft, although a prolific writer, he was careless. Many books were dictated, and though full of

Out of a minor star Wilson

ance he was a melancholy man. Elodie, his Californian wife, confided, "I love you for your sad face". She and two sons predeceased him; no wonder that in his heart he was not "right as a Ribstone Pippin". He would have been even more disconsolate if he had known that fifty years on the wish expressed in On his Books was sadly futile and unfulfilled: "When I am dead, I hope it may be said: 'His sins were scarlet; but his books were read."

**Brian Martin** 

## Azur, gules, vert, sable, purpur and turnips rampant

Chivalry By Maurice Keen (Yale, £12.95)

"May God raise me to that honour, that I may hold her, in whom dwell all my heart and thought, naked in my arms once before I cross the sea to Outremer",

This, the most haunting of all Maurice Keen's quotations was the eve-of-crusade prayer of Guy, the chatelain of Coucy, with its sharp clear evocation of once-real passions, its strange and robust mix of sacredness and secularity, and its touch of Outremer far country), it says much about the mood of this remarkably good

The theme of Maurice Keen, in his history of chivalry in chivalry's true period, from the early 12th to the early 16th century, is that chivalry in fact was more secular, less Christian in its origins and ambiance than historians have imagined. He traces this back to the new cavalry tactics of the mid-11th century whereby, on field of battle, the knights had become a rather separate and a superior group, and to the even earlier invention of the stirrup which gave mounted warriors (shades of Monty Python), amongst other great advantages, the power of unhorsing. Maurice Keen sets out to unravel and assess in correct relation to each other the main components martial, aristocratic and, inevi-

tably though by no means the tournament which remind overwhelmingly, Christian - of one of Mark Gironard's suggestion in The Return to Camelot. ric ideal. He is never less than interesting, often most compel-ling, in his depiction of, for instance, the Crusades as the greatest of all chivalrous adven-

The culture of chivalry was a very visual one. The colours of the robing white and scarlet, dark brown stockings (to remind the knight of earth and so mortality), the white belt of chastity, gold heroic spurs. The "tinctures" of heraldry: azur, gules, vert, sable, purput, arranged in combinations by which one could recognize the owner in a battle, early examples of functional design. The dazzling virile colours of

his study of the re-rise of chivalry in England in the nineteenth century, of the chivalric influence on the football jerseys worn at Rugby Maurice Keen writes School very well and with immense enthusiasm, at his best at describing pageants, feasts and tourneys, the bright and boastful scenes of knightly dissi-pation, the atmosphere he so alluringly depicts as "the unthinking gaiety of idle hours". But he never loses touch with the necessities behind the cult of chivalry, the urge for this élite aristocratic martial group to create themselves a powerful traditions, propping up the position in society and having status quo. Even an apparently

achieved that position, maintain it. And so the benevolent smiles of the great lady, familiar from the troubadours' beseeching lyrics, had more than simply sexual significance: they were the laisser passer, for the poor knight who had begged them, into a world of relative security. social and financial, in her husband's household. heralds emerge not just as interested amateurs, pedantic and eccentric sort of Lewis distinguish for example why Ot a den Rand bears on his sable shield a humble turnip, but as necessary adjuncts to pro-fessional chivalry, establishing

mad picturesque convention like the swearing on the bird - a swan, say, or a heron - before setting out to battle turns out on close inspection to be not a sudden inspirational impulse but public relations on a regal Disillusioning? Well slightly.

But it is this separation of the real from romance, the fact from faerie, which is Maurice Keen's whole point, giving great authority and a worldly-wise amusement to a book which is scholarly, original, beguiling, and which should be read ideally in conjunction with David Lodge's shimmering chivalric - academic comedy, Small World.

Fiona MacCarthy

#### Tim Heald reviews new thrillers G and T when the sherry fails

The Need to Know By William Haggard

(Hodder & Stoughton, £8.95) Some idiot once sent a letter bomb to Colonel Charles Russell, retired head of the Security Executive. He was out playing golf and it wasn't much of a bomb but it "frightened his housekeeper out of her skin and burnt a large hole in a fine Shiraz rug". The Colonel's reaction is entirely character-istic: disdainful, laconic, and cool as the gin and tonic he'll accept when his hostess can't produce "drinkable sherry". When a ghastly American psychopath says something about being a soldier, Russell

remarks crisply, "You wouldn't last long in a British regiment."

The Colonel is supposed to be enduring a civilized retirement; but this is rudely interrupted when an old friend falls off his chaise-longue after lunch at the club. Rather dead, which becomes tiresome as he had once been a mate of de Gaulie's, privy to some interesting secrets which one or two people think he may have passed on to the Colonel. Suddenly Colonel Russell finds himself a pawn in the Super Power game though despite the appalling things that happen the

fective"), but this only adds conviction to his character. His creator is in his seventies now but remains as stylishly sar-donic as the Colonel. Both give the impression of being much younger than their years, fighting fit and more than able to give the opposition a run for their money. The Aquitaine Progression, by Robert Ludlum (Granada, £8.95). It was when one of the characters is told, "You'll be

minded were congenitally inef-

with red hair", that my patience finally gave out. It was page 616 after all but still old Ludlum was chuntering on about airline timetables and the Swissair from Geneva being thirty-four minutes early, just like a latter day Freeman Wills Croft rehearsing Bradshaw. And he will keep using "careen". Cars "careen" into walls, revolver butts "careen" into jaws, and he has a red hot Vietnam veteran careening about Europe on a mission to save the world, and the man can't speak a word of anything but English. He may be top of the best seller list but what he needs is a good tarttongued interrogation from an upper lip scarcely quivers.

The Colonel is a touch reactionary for some tastes (he

much approves of a friend's Ludlum; we have ways of conviction that "the liberal-making you talk."

Mandrake in Granada, by John Haythorne (Ross Anderson, £6.50). A little frivolity is a welcome relief in this overly pofaced genre and they don't come much more frivolous than this pseudonymous romp alleged to be by a "high-ranking British diplomat". Is there a clue to the author's identity in the fact that the alarming Lady Ursula has a butler named Parsons? A very slight, very silly, very short volume which feels as if it was scribbled after the sun has gone over the yard arm by our man in a hammock somewhere tropical. But not without a gentle charm.

Monopoly, by Jonathan Evans (Michael Joseph, £8.95). "I made a count", she said. "I'd say five per cent of the women are wives, the rest mistresses."
This seems to be the key to this everyday story of international banking folk. The premise is that bankers are amazingly elamorous and sexually insatiable; also that if Russian bankers behaved like Western bankers we could be in for a lot of trouble. Maybe so, but this particular version carries about as much conviction as a stock market report by Fiona Rich-

# **DIARY**

#### Here's the Gen

Jain Sproat's secret is out. The airline to which the former Aviation Minister has just been appointed chairman - and which he refused to identify - was disclosed by an anonymous caller yesterday. It is Genair, the Humberside regional carrier and commuter link for B-Cal and British Airways. Denis Allen, a Genair director, tells me Sproat takes up his job next week. This was news to Rothschild's, where Sproat is a consultant. They did not know he was planning to move.

On Genair's past form Sproat cannot expect an easy ride. The company is now suing its former joint managing director, Brian Huxford, and Humberside fraud squad is meanwhile investigating a Genair complaint relating to its takeover of Eastern Airlines in 1982. Allen refused to discuss the airline's application to the CAA to fly to Europe's "third category" airports. "We can't let our competitors know that." And I thought Sproat was a free-for-all man.

There's no hoofer like an old hoofer. When the Rodgers and Hart musical On Your Toes, starring Natalia Makarova, opens in London next month, George Abbott, its director, will be 96.

#### On the cards

As fears grow that breaches of confidentiality will result from the controversial Data Protection Bill, John Patten, Health and Social Security Under-Secretary, could perhaps learn of the danger from his

wife Louise.

Mrs Patten, marketing director of Petroleum Charge Card and Retail Credit Card, made a gaffe when monitoring the credit-worthiness of a potential customer on her computer while he was in her office the other day. "It was most embarrassing", says Mrs Patten, in an interview in Harpers and Queen. "His name popped up - OK; his wife's popped up - and there was a string of debts ... raincoats from Burberry's and so on. He didn't know about it, and was furious. Now we run a discreet check first."

#### Weeded out

The Arts Council's The Glory of the Garden concludes that "The British garden of the arts has great beauties...but there are empty beds and neglected shrubberies." Heading the list of drama companies axed by the Council is the Horseshoe Theatre Company, whose address is The Shrubbery, Cliddesden Road, Basingstoke. The company is now considering a proposal to change the name of its building to The Neglected Shrubbery.

Conran is a trustee.

Alan Hamilton looks at the small print in the Observer wrangle

# Is it all just a Tiny ruse?

Mr Robert Maxwell and Mr Tiny Rowland both belong to that coterie of eccentric millionaires, sharp businessmen all, who suffer from an illogical inexplicable, incurable, and financially hazardous desire to own a national newspaper.

The two men share, besides this curious quirk, a foreign background and a change of name, Maxwell was born Hoch in Czechoslovakia, and Rowland began life in India as Fuhrop, the son of a German merchant and an English mother. Rowland had a specific love affair with The Observer because he was so impressed by its standing in Africa; Maxwell, on the other hand, has been a suitor at every major Fleet Street match of the last few years, but has never become the bride-

In 1968 Maxwell tried to buy the News Of The World from the Carr family, but the Carrs called in Rupert Murdoch, who defeated Maxwell's bid. When the Thomson Organisation put Times Newspapers up for sale in 1981, Maxwell was the first to declare an interest, but again he was outbid by Murdoch and retired disappointed.

His one successful attempt at owning a daily newspaper ended in tears after the briefest of honey-moons; when the Express group abandoned publishing in Glasgow and the workforce formed a cooperative to take over the plant and produce their own Scottish Daily News, Maxwell sailed into view flying the ensign of a benefactor, pumped in £114,000, and took control. He was driven out when the workforce objected to the degree of control he was assuming, which conflicted with their cooperative principles. The paper died soon afterwards.

It was significant that, after his breakfast-table flirtation with Rowland on Tuesday, Maxwell let it be known that, should he gain control of *The Observer*, he would want the rules governing its editorial independence changed to take equal account of the interests of the proprietor with those of the editor. Such a view is unlikely to impress the editor. Donald Trelford, the staff, or the Department of Trade.

Maxwell appears to have no particular friend at court in The Observer's relatively modest office at Blackfriars, although a number of journalists and senior management are now saying that anybody would be better than Rowland. The dissident lobby, which at present has thrown up no identifiable leader, dislikes the Loarho proprietorship on a number of counts.

Some members of management took exception several months ago to the way Rowland intervened in pay negotiations with printers in The Observer's machine room; they had resolved to make a stand against what they regarded as an excessive wage claim, but the machine men appealed over their heads, went

They buried Khadija Abbas Atwi in

the rough grass cemetery above Jibchit, not far from the crumbling

road where she bled to death last month. Her gravestone is explicit

about what happened, although it

does not tell the whole story. "This

28, 1984."

round to the Lonrho headquarters in Cheapside, and won much of what they were after from the hand of

Many of the paper's 70 full-time journalists are also dismayed at instances of what they see as proprietorial interference, notably the demotion of the paper's business editor, William Keegan, from a regular weekly front-page column to the depths of the interior, which they claim was a Rowland-inspired order over the head of the editor. Rowland's curious appointment of an African employee of Lonrho to be the the paper's African editor also generated a fair measure of wrath.

There is also dismay in some quarters that Lonrho is not investing enough money in the newspaper. which is currently losing an estimated £1m a year, and which in addition has had to bear a £150,000 loss from its recent sponsorship of the Prince Albert exhibition at the Victoria and Albert Museum.

Such a loss would be regarded as mere peanuts - indeed almost a profit - in some Fleet Street publishing houses. But The Observer is a small-scale operation. Its total full-time staff, including management, journalists, compositors, and all other departments, is barely 500, augmented by a casual labour force of 400 part-time journalists, printers and publishing room staff on Saturdays.

Its real problem is overheads. Its two rivals. The Sunday Times and the Sunday Telegraph, are associated with daily papers which keep their presses occupied during the week. But The Observer's press room, which printed The Times until 1974, is idle for six days out of

Were Maxwell to gain control, he could be expected to occupy those vastly expensive machines with a new London evening newspaper; the capital, which until 1960 had three evening titles, is down to one, The Standard, which even in its

machines.

The crucial question, however, is whether Rowland really wants to sell, or whether the public shouting match with Trelford over his Zimbabwe atrocities story is simply part of a plot to have a new and more successful editor. Trelford, irrespective of whether or not he is a good editor, is a strong believer in his own independence.

Rowland's personal possession, and a number of his colleagues on the Lonrho board think it quite illogical that a mining and trading company should own a newspaper at all, especially a loss-making one. Last year the chairman let it be known that he would like to be rid of it, but he was overruled by the paper's board, and by the main minority shareholder, its previous owner, Robert O. Anderson, of Atlantic-Richfield Oil.

Over another breakfast table in another place, Anderson is said to have told Rowland that, if he sold he would be ostracized not only by the British financial establishment but by the American as well. "You may think you're big, Tiny, but I'm bigger," Anderson announced in a line that could have come straight from the script of Dallas.

Rowland's apparent disenchantment springs, not so much from The Observer, but from the fact that Lourho is almost universally shunned by the major City financial institutions, and their view is likely to be reinforced in the impending Department of Trade report on the House of Fraser share deal, which City sources say will be highly

Whether Maxwell would be any more acceptable as a proprietor is open to question; he is no friend of the print unions, although some Observer managers would welcome him for that very reason. Journalists are suspicious of him, because they assume he would be an interfering proprietor. If the paper really is for sale, Maxwell will almost certainly find himself in competition with the Fairfax newspaper group of Austra-lia, which continues to express a behind-the-scenes interest in Britain's oldest national Sunday paper.

himself on familiar ground.

monopoly position makes a substantial loss. Lonrho has investigated just such a possibility, but came to the conclusion that it would lose them even more money.

Now the economic climate may be a little better, and Mr Clive Thornton, the new head of Mirror Group Newspapers, has been airing the possibility of an Evening Mirror printed on the Daily Mirror's

The Observer is very much

critical of Lourho.

Maxwell, whatever his other failings, is a man of great bravery who was awarded the MC by Montgomery in 1945 for "leading his men in a counter-attack across bullet-swept ground with great dash and determination." In trying to buy the Observer he will at least find

With friends like Scargill ...

Ronald Butt

Mr Arthur Scargill is a ruthless them to power, but in practice they politician who wishes to revolutionize society and assist the birth of a socialist state. To this end he seeks to prove (using the strong arm of the miners' sectional interest) that the kind of politics for which the electorate twice voted when they sent Mrs Thatcher to Downing Street (and transferred so many ex-Labour votes to the Social Democrats) will

He needs to establish that it is possible to break the Government's so far successful policy of laying down clear limits to the supply of public money to nationalized industries, and then letting their manage-ments run them without government intervention by subsidizing pay claims or uneconomic pro-

Any hope he has of success must depend on whether other unions could be persuaded to challenge public opinion by making common cause with the miners' union. If the strike were to spread, the indus-trially tranquil life which has been one of the most valued by-products of the Thatcher period would at least temporarily be threatened - and that, of course, involves some risk to the Government.

Yet the risk to Mr Kinnock and his colleagues is much greater since, in the end, this conflict may force them either to reveal more explicitly the kind of society they want (including the relative priority they give to socialism and democracy) or, more probably, to be seen so obviously avoiding doing so as to destroy their own credibility. For generations, the Labour Party has been a house divided but has more to be seen a house divided but has more to be seen a house divided but has more to be seen as the seen to be seen as the is managed to avoid facing the truth about itself, and the question is only how much longer it can do so.

Put simply, the fundamental issue is whether we are to live in a free economy and society, with the government providing the (non-inflationary) conditions in which personal and commercial freedom can produce the wealth needed to for a sufficient standard of welfare for all - or whether it is to be a socialized state in which jobs are preserved by bureaucratic fiat, even when there is no economic market for what they produce; in which demand is engineered by borrowing of a kind that can lead only to inflation and the destruction of real value; in which private decisions are subordinated to bureaucratic. In the past, Labour has paid

reverence to socialism for rhetorical purposes, but its leaders in office have in practice retreated from it. They have done so, first, because faced with the reality as distinct from the theory, and looking at socialism where it operates, they have recoiled from its consequences. Secondly, they know that, given a free choice, the people will not vote for it. Labour leaders have employed

the rhetoric which they deemed necessary to control the leviathan

party machine they need to carry

try to preserve a mixed society. That is why Ramsay Macdonald chose capitalist rather than socialist measures, or resignation, to resolve the economic crisis facing him; it is! why Attlee (after creating a welfaren state broadly acceptable to most political opinion in its principles, if not all its details, and nationalizing some declining industries, settled for a mixed economy.

It is why Gaitskell fought to

expunge the commitment to total! socialism from the party's consti-12 tution and why Harold Wilson is fought to turn Labour into (de facto)); a social democratic party.,

The inexorable advance of the left it has now brought to the leadership an decent man of the legitimate left, Mr Neil Kinnock, who can welcome neither Mr Scargill's ends nor his chosen means. The only escape Mr Kinnock and his colleagues have found from their dilemma is to accuse Mrs Thatcher of smashing. the old consensus; of bringing in hard-faced Thatcherism which precipitated hard-elbowing Scargillism, That is not the case,

Thatcherism came into existence because the "Scargillites" of the Sixties and Seventies gradually broke the consensus for which Gaitskell, George Brown and Wilson's. (in their different ways) had striven ill t was the unions' "Scargillism" that q destroyed the idea of a voluntarily is planned economy and pay structure; that destroyed Wilson's attempt to the centre ground of politics.

The final triumph of Seventles Scargillism (it was usually called Bennism at the time) was the revolution in the Labour Party's constitution, the abolition of the list 6 of extremist organizations proscribed for Labour Party members, and the winter of discontent with which the unions destroyed Mr Callaghan's government as they had destroyed Mr Heath's.

What alternative was then left o except to try to make capitalism and a free society work in their own il terms (while preserving the basic); guarantees of the welfare state) which is what Thatcherism amounts, to? There was that, or there was the revolutionary socialism which was " the aim of the Bennites and the Militants and is now the purpose of Mr Scargill's spearhead. In practice, if the official Labour Party could offer it no convincing alternative of its,own, A which is why the Social Democrats. have tried to create a party that could operate as an alternative to the Torics within a national consensus of basic principles, as the old Labour Party did. How can it be b seriously suggested that this government, could have gone down the ! Heath-Callaghan road to disaster?

Whoever, or whatever party, it: was which destroyed the consensusthat Mr Kinnock and his friends now bewail, it was certainly not Mrs

#### Russell Baker

#### Kick the habit, not the addict

five years. It was a question of ashtrays instead of telling them to character. Anybody who couldn't smoke in the backyard. I didn't even prove I had true grit, I decided to

It took a year to become a fullfledged non-smoker, by which I mean somebody who in the space of five minutes can hear that a favourite aunt has died, that he is about to be fired and that he has to have all his teeth removed, without feeling an urge for a cigarette. After a year of struggle, I reached

that stage and lived at it for the next four. Jumbo engines failed at 15,000ft, blackmailers threatened to destroy me, governments pirated my pitiul savings in lightning raids, yet not once in all those four years did I feel the faintest urge for a cigarette. The agony of breaking tobacco

addiction is highly overstated. For the first couple of weeks, to be sure. life was almost unendurable, but thereafter the problem was mostly a matter of concentration, for quitting cigarettes is a full-time job. If you think about not smoking to the exclusion of almost everything else for at least six months, you are almost certain to succeed. Breaking the habit is, obviously,

no job for people who have other work to do. The best way to accomplish it is to stop all other activity for six months and do nothing else but quit smoking. In the second six months, if my experience is any guide, you can do a modest amount of your usual wage-earning labour, attend three or four mild social occasions and resume a few low-pressure relationships with your family.

I am mentioning all this out of pride - not pride in defeating the

In bars and restaurants, helpless addicts blew gales of smoke around my head, yet I felt no urge to scowl at them, or make a scene, or complain to the head waiter or bartender that their stupid self-abuse was dulling my palate or ruining my capacity to distinguish between the fine Pilsener and the coarse, gassy American.

Although pathetically addicted to from the rest of society. When they cigarettes, I once gave them up for came to my house, I provided whip the cigarette habit, I thought, object when one of my children ought to be ashamed of himself. To proposed to marry a pack-a-day !

smoker. My tolerance in retrospect seems in saintlike now that we are in the age of the militant non-smoker, whose aim seems to be to make life more hellish than it already is for the addict. I was not motivated by ambition for sainthood, though. It was a simple case of sympathy for people less fortunate than I.

Even by that time, of course, " almost everybody arknowledged if that smoking was a health evil as well as a social nuisance. Many smokers, I assumed, seriously wished to be free of their curse but couldn't afford to spend six months

to a year undergoing the cure. Abusing these miserable people would have been like taunting " paupers for not being rich enough to devote a year to tending to their own to bodies. This is basically what today's militant non-smokers are up to. Of all life's unfortunates, the smoker is the last whose abuser can enjoy a sense of superiority refined by selfrighteousness.

It is curious that a society sympathetic to addictions of every other kind can spare none for the tobacco junkie. The cruelty of the medical people is even stranger.

Are they at work on a miracle cure !: that will help the smoker overcome . his habit over a weekend? If so, they keep mum about it, but not about i much else that concerns smoking. With their incessant statistics, their main goal appears to be to drive the addict into severe depression 6 because he cannot afford the time and money to cure himself. Better 2 the spirits of the afflicted.

Before the night was out, I had smoked six more. The next day, a whole pack. That was several years " ago. I keep meaning to quit again, " and certainly will, as soon a I get a year free to do it. In the meantime I . try to stay out of circulation, avoiding public places almost entirely now. I would hate the militant non-smokers to get me

before the eigarettes do.

After the soldiers come and go, Robert Fisk visits a Lebanese village in mourning

# Stones v bullets: now Jibchit nurses its hate

Occupiers and occupied: both are contaminated

lights and Israeli helicopters near us. went to the balcony, and that is when I was shot. I did not see who fired. I turned away and the bullet hit me in the back of the elbow."

Fatma survived but is still in hospital in Sidon. "An Israeli doctor came to treat me when I was taken out of the village," Mohamed Atwicontinues. "The same Israeli doctor ime to treat Khadija but she yelled at him, saying, 'You shoot at us and then you want to treat us'. She was still conscious. There

was a checkpoint outside the village

manned by militiamen and Israeli

soldiers. The checkpoint would not allow the wounded to leave the village. They kept me lying on the ground for four hours. Khadija bled she died."

fired between my feet. I ran down the road to the square. I stood in front of an Israeli vehicle and threw stones at the soldiers in it.

Then the militiamen came ran away and tried to hide behind a wall with some other girls. But while I was running with my back to the militiamen, one of them shot me in the neck. I went down to the ground. Khadija was bleeding badly beside

soldiers had come to take our men, they had come to fight Islam. We have been taught in school and in the mosque to fight the Israelis. They are our enemy, and it is our duty to confront them. The Israelis are scared. They are afraid of There is no doubt that her mother

has had something to do with this attitude. "I was in front of my daughters, with as many stones as I could defend myself with," she says coldly. "Our faith is our weapon. If my daughters have to die for Islam,

Others died that day, though hardly for Islam. The villagers describe how Sobhieh Ali Akhtar, a mother of 10 children, was killed when she ran into the street from her home holding her skirt full of onions. The villagers believe that onions smeared on the eyes and nose prevents the effects of tear gas. According to eye witnesses, one of the militiamen thought Sobhieh Akhtar was holding a bomb, so he shot her in the head.

Haj Hassan Harb was also killed: he was an uncle of the previous Shaikh of Jibchit, Ragheb Harb, a fanatical prelate who dealt in used cars and anti-Jewish oratory. Rag-heb Harb was murdered in February by pro-Israeli militiamen, the villagers believe.

The Israelis still insist they never entered the village on March 28. But several witnesses say that an Israeli officer identifying himself as Cap-tain Zeid told them to hand over any weapons in their homes and that the soldiers searching their houses spoke in Hebrew, not Arabic. Certainly, the helicopters must have been Israeli. So 100 were the soldiers who interrogated up to 300 male villagers at a local school.

Major General Antoine Lahd, commander of the "South Lebanon Army", admits that his militia were involved but says the first shots were fired by villagers. "We discovered a quantity of arms and explosives. We shot back at the resistance." Asked how two women were killed, he replies: "There was shooting from all directions. Who knows?"

by deserting members of Israel's own Lebanese militia.

who says 'Allah Akhar' (God is great) is a terrorist," says Hassan Fahas. "We should do whatever we can to resist them . . . .

#### THE MATABELELAND ACCOUNT

The editorial independence of a newspaper means that the editor and his (or her) staff are free. within the law and the constraints of libel, to decide what is written in the paper. These decisions may be taken in the light of many different circumstances and in reaction to many different influences working on journalists, the editor and his staff together. So long as the ultimate response to those influences is made by journalists the concept of editorial independence remains intact.

Editorial independence, however, can rarely mean that editors reach decisions without some recognition of the wider consequences of those decisions. A newspaper is a business like any other. It produces something for sale. Its contents must be of primary importance, of course, but the cost of production and the selling price of the product also determine the success or failure of the enterprise. It is not possible for journalists to ignore those facts unless they work for an enterprise which either has an impregnable monopoly or is the beneficiary of an inexhaustible subsidy. In newspapers, therefore, editorial independence is not an absolute indulgence to be exercised in defiance or ignorance of normal commercial considerations, where dwindling readers and mounting losses threaten a paper's very existence.

It follows that the journalistic decisions of editors whose papers are profitable inevitably command more respect from their commercial colleagues than those of editors whose papers make a loss. Though the editor and his staff must retain absolute journalistic control over the contents of the paper, that should not absolve the editor from the need to give an account for his decision to his company. Nor should mere profitability reduce that requirement for the cditor's accountability, although it may favourably condition the climate in which an editor answers for his stewardship to commercial colleagues. There is thus a continuous dialogue between editorial and commercial, in which, though there are recognized to be autonomous areas of jurisdiction - none more so than the right of journalists to be solely responsible for their decisions about what to print jurisdiction must accounted for.

These principles are acknowledged to a greater or lesser degree by most newspapers in this country, though few com-

Twelve months ago Mr Le

Cheminant of the Treasury called the pay claim lodged by

the civil service unions "utterly

unrealistic". Within weeks the

unions settled for a figure

noticeably in excess of the

expenditure plan provision. The

other day Mr Le Cheminant's

successor called the civil service

claim for 1984 "miles too high";

but now the signs point unmis-

takeably to an offer by the

Treasury above the 3 per cent

level announced with aplomb

last autumn. These, it might be

said, are the feints and flourishes

of purpose of Mrs Thatcher's

government - not so different

from its predecessors - in

handling the pay of its own

employees. After five years of

drama (the 1981 strike) and

painstaking inquiry (the Megaw

report, still on the shelf), issues

of principle are again submerged

in the detail of a deal over the

odds that were set out apparently

so clearly and immutably in the

expenditure white paper barely

The great cry of the 1970s for

the civil service, as for the rest of

the public sector, was "compara-

bility". This was the worm in the

apple that awaited ministers at

the end of the path up which

they were so expensively led by Professor Clegg in 1979. Not

only were comparisons costly -

and one reason for the failure of

expenditure control by the first

Thatcher government. What

sense did it make for a govern-

They are also the uncertainties

of bargaining.

two months ago.

panies have enshrined them in formal procedures. Times Newspapers has a formal constitution which recognizes the editor's sole responsibility for the contents of this newspaper, so does The Observer. In both cases the company maintains independent national directors whose purpose is to guarantee that the constitution is respected as much by the editor as by the proprietor or other members of the manage-

The dispute between Mr Rowland, chairman of Lonhro, and the editor of The Observer about that paper's coverage of Zimbabwe was quite properly referred to the company's national directors. Their conclusions are that Mr Rowland, as proprietor, breached the constitution by interfering with the editor's right to decide what went into the paper. Mr Rowland actually denied that he interfered, though he certainly tried hard to influence the editor against publishing his article about Zimbabwe. He also denies that he argued that such an article would damage Lonrho's standing in Zimbabwe, but his whole sensitivity to the article, and Lonrho's wide business activities in Zimbabwe, suggest that one should not take that denial too seriously. Moreover Lonrho's special position in Zimbabwe, and the fact that Mr Rowland over their years in exile managed to bankroll many Zimbabwean political leaders, must account for his particular desire to arrange for his editor to visit Zimbabwe and speak to the right people.

The facts of this particular case, therefore, suggest that this is not an isolated incident in which Mr Rowland has suddenly discovered to Lonrho's cost that he could not dictate to The Observer over its coverage of Zimbabwe. It was clear to everybody at the time of Lonrho's acquisition of The Observer that Mr Rowland's particular brand of entrepreneurial dirigisme in Africa would sit uneasily with a newspaper whose reputation was partly founded on its reportage of African affairs. It is thus hard to believe that this disagreement has blown up out of the blue. Indeed the facts suggest that Mr Rowland's proprietorial "interference" preceded his talk with Mr Trelford two Saturdays ago, even if it has only now been brought to public attention by reference 10 the independent national directors.

How else does one explain, the

appointment as the Observer's resident correspondent in Zim-babwe, of Mr Matatu who is connected with the Zimbabwe government and was employed at the initiative of Mr Rowland? That appointment aroused grave misgivings among other journalists and even Mr Trelford, having appointed Mr Matatu, seems to have had so little confidence in his Zimbabwe correspondent that he kept him totally in the dark about his researches into Matabeleland atrocities, ostensibly, but hardly credibly, on the grounds of his

own protection. How else, moreover, can one explain Mr Rowland's arrangement for Mr Trelford to visit Zimbabwe, in association with fellow directors of Lonrho. unless he expected that Lonrho's corporate interests, which he subsequently felt had been prejudiced by Mr Trelford's article, would be respected?

At least one result of the publication of Mr Trelford's article is that these muddy waters have now been cleared. It is hard to believe that the vigour of Mr Rowland's action can have been provoked by a single episode of this kind, nor that such an episode calls for such an inappropriate response as a demand for the editor's removal, or the sale of the paper. If the ferocity of his attack is because he has only just woken up to the fact that he is not able to turn The Observer into a vehicle for Lonrho's manipulative operations in Africa, well and good. But, notwithstanding his mercurial temperament, the sharpness of Mr Rowland's reaction to the episode suggests that editor and proprietor have more than one disagreement behind them. perhaps over a wider range of operations and caused by the

paper's declining performance. Mr Trelford's behaviour in Zimbabwe also suggests a desire to bring matters to the boil, perhaps because he felt that his position was otherwise becoming untenable. Whether he foresaw that the consequence of going about it in that way might be to consign his paper to an unknown future or the tender mercies of Mr Robert Maxwell is another matter. In the light of Mr Maxwell's manoeuvres yesterday, which resulted in two printing unions being virtually reimbursed for th contempt of court, it must remain to be seen whether Mr Trelford's journalistic colleagues at the Observer will nitimately applaud those consequences or regret them.

appear, in increasing number, to

be attracted elsewhere. The Civil

Service Commission's annual

report on recruitment might, in

one sense, be heartening. Per-

haps here are signs of a cultural

shift, a secular change in public

estimation of the merits of state

and private sector employment;

perhaps, at the margin, the best

and brightest are preferring jobs

in business, finance and manu-

facturing over posts in public

administration. But no one

should wish the state under-

staffed in its vital functions. The

signs are that to recruit and

retain accountants, statisticians

and engineers the state will have

That means some compara-

bility, to be sure; it means

differentials; it means the

Treasury resisting the efforts of

the clerical and executive offic-

ers' unions to scoop the available

pool on behalf of the low paid

civil servants. These say it is

anomalous and inefficient that a

number of civil servants in the

manual and lower clerical eche-

lons should qualify for a social

benefit such as Family Income

Supplement on account of the

size of their pay packet. On the

contrary: it is no business of the

Government as employer to take

a unilateral stand on low pay.

For the executive and cierical

and manual jobs there is, the

Treasury says, a buoyant de-

mand except in the capital where

things are a little tighter. That

supplies a sure principle for

setting this year's civil service

pay claim firmly within the White Paper guidelines.

to pay more.

OFF THE GUIDELINES AGAIN?

the state to erect private sector

pay as the norm for government employees? In the fullness of that

logic "pay research" (the pseudo-

science of civil service pay

comparisons) was abolished in

the absence of its grip. In

December it agreed to an exercise by the Office of Man-

power Economics aggregating

pay settlements in the private

sector - comparability resur-

rected. That study now lies on

the bargaining table, a beacon to

the unions. Negotiations are left

in a febrile condition. On one

side are those whose atavistic

enthusiasm for reducing the size

of the state (a laudable aim)

becomes a generalized contempt

for the state's servants. On the

other are those dewy-eyed com-

plainants about that ineffable

quality "civil service morale" -

this in a job which as well as

offering high degrees of intrinsic

satisfaction also offers security

and (sometimes too much)

guaranteed upwards advance-

The cleanest answer to what

should determine the remuner-

ation of the state's servants has

been given recently by Sir Keith

Joseph in the context of teachers'

pay: supply and demand. In

those terms, the publication

today of new figures for recruit-

ment to the civil service's senior

ment committed to de-manning graduates and trained specialists

#### LETTERS TO THE EDITOR

#### The bishop and Sinn Fein

From the Bishop of Down and

Sir. At a recent press conference, called by Sinn Fein in Belfast, it was said that Mr Adams, President of Sinn Fein and MP for West Belfast, was disappointed and sorry that I bad declined to meet him in order to "commence a dialogue", in an effort "to seek ways to resolve the present conflict".

My letter to Mr Adams, which My letter to Mr Adams, which Sinn Fein released at that press conference, made it plain that I regard my role as a spiritual and moral one, not a political one. My later homily at the funeral of the murdered girl, Miss Mary Travers, was concerned with the moral evil of her murder and it addressed to those her murder and it addressed to those guilty an appeal to repent and seek

God's forgiveness. I most earnestly hoped that the killing of Mary Travers and the attempted killing of her father would surely lead at last to some indication of that "change of heart" on the part of the leaders of Sinn Fein for which I had pleaded in my letter to Mr Adams, Sadly, I find no indication of a change of heart in Sinn Fein's recent statement or in any of their utterances since my letter to Mr Adams of December 24 last,

Rather, my own position has been misrepresented by being placed by Sinn Fein in a political, rather than in a religious and moral context,

I wish therefore to repeat the concluding paragraph of my letter to Mr Adams: Pope John Paul, in his latest message for peace, calls for a conversion, a change of heart, as a condition for peace. As pastor responsible for the spiritual welfare of the Catholics of Down and Connor, I shall not cease believing that this change of heart is possible and praying that it may

happen.

If I were to receive any indication that a meeting might help towards that result, I should be more than happy to meet you. This remains my position.

Yours faithfully, CAHAL B. DALY, Lisbreen, Somerton Road, April 24.

#### 'Jesus: The Evidence' From Mr David W. Rolfe

Sir, I have been criticised most vehemently in your newspaper for the style of the television series on Channel Four, Jesus: The Evidence. I make no apology for using every available device, cliched or otherwise, to help illustrate an intrinsically dense subject which has remained for so long exclusive to those with the time and facility to study it for themselves rather than rely on traditional church teaching.

Aware of the problems, most professional" Christians today base their faith on much broader principles than belief in the historicity of the New Testament. Yet the public by and large still assume that un outus, cuvine i and bodily resurrection are requirements for church membership.

The purpose of our series was to bring out in the open this division between clerical and lay beliefs. If the Church prefers to defend itself on the principles it upholds rather than the creeds it has inherited, let it say so openly. Who knows, it may find an audience prepared to

reconsider joining.

Despite the fact that TV has previously attempted to tackle the subject, it has never before engendered the widespread debate on issues central to Christianity and religious belief in general which is now taking place.

Yours faithfully DAVID W. ROLFE. Producer/Director. Jesus: The Evidence, London Weekend Television, South Bank Television Centre, Kent House, Upper Ground, SEI.

#### Dignity in the pits From Mr R. H. C. Gregory

Sir, To claim that the letter of the Rev R. H. Marshall (April 21) was one-sided would be something of an understatement. Those miners who wish to work also have a right to do so without harassment from others. The dignity of the miners who are

on strike is in danger of being sacrificed on the political altar, if the actions of a minority of their number continue in the present way. Yours faithfully, R. H. C GREGORY,

Sir. The Home Secretary appears to

justify the decision to release the

murderer of WPC Fletcher, at least

in part, by resort to principles of international law and, in particular,

to the so-called doctrine of "inviol-

It is true that the 1964 Vienna Convention on Diplomatic Re-lations recognizes, by articles 22 and

encounter with The Merchant is an insult to the intelligence of both.

I saw and enjoyed Mr lan McDiarmid's performance and, like him, believe that the modern audience does not "leave its mind at home" (The Times, April 9).

The Orchard, Nicker Hill. Stanton. Nortingham. April 17.

#### The long view in foreign affairs

There are other instances, recent Sir, Your excerpts (April 16) from Sir Anthony Parsons' forthcoming and latent, where the bill may be similarly heavy if the shadow of Iranian memoirs confirm strikingly Geoffrey Moorhouse's references to the same interlude in his book, The things to come is neglected for an immediate and often illusory statistical substance. Sir Anthony's candour, and abstention from self-Diplomats. I quoted them in my own Concorde Diplomacy - The Ambassador's Role in the World justifying hindsight, should encourage his colleagues and successors to combine innovation with the longer Today, adding that it was a pity that our Tehran Embassy had forsworn view also. Yours faithfully,

GEOFFREY JACKSON, 63b Cadogan Square, SW1. April 16.

From Mr S. L. Cowper-Coles Sir, Sir Anthony Parsons claims (feature, April 14) that it would be hard to identify physical monu-ments to the British presence in the Middle East and that traces of that presence are faintest in Egypt.

He forgets the great Nile irrigation works, of which the first Aswan Dam, built by Sir Benjamin Baker, the designer of the Forth Bridge, between 1898 and 1902, is the finest symbol. This vast system of canals and barrages, which is still used and which still bears in many places the legend "Ransomes of Ipswich", cast in iron, transformed the life of the Egyptian fellah.

Yours faithfully, SHERARD COWPER-COLES, 60 Kelmscott Road, SW11.

after losing their jobs.

#### Insolvency law change

From Sir Geoffrey Jackson

"elegant reports" on village con-ditions which doubtless would have

given early warning of the shock-

In this way Sir Anthony now

confirms my own belief that British diplomacy has overreacted to pressure, even to fashion. After a

series of virtual show trials, from the

Plowden report on, it has arguably applied itself to the motions of trade

promotion at the expense of the

political analysis and extrapolation

Sir Anthony himself was acutely

sensitive to the conspiratorial atmosphere of the Shah's Tehran

twilight; a good-humoured reference

to it on his return home was at once

picked up by the British press. It is sad therefore that this perceptive-

ness, supported by the misgivings of

his staff to which he so honourably

pays tribute, should have been

frustrated by a temporary downgrad-

ing of political intelligence as an instrument of Britain's traditional

and continuing economic and trading priorities,

at which it had always excelled.

wave to come.

From the General Secretary of the National Union of Tailors and Garment Workers

Sir, Pleas from the Institute of Directors that competent company directors will be deterred from joining ailing companies if the Government legislates on its proposed reforms to insolvency laws (The Times, April 16) will fall on hollow ground among workers in the clothing industry.

My union's members will be incensed at the suggestion that the institute is hopeful of success in its attempt to change the Social Security Act 1975 to abolish the personal liability of directors of iled companies for unpaid National Insurance contributions. Thousands of clothing workers have, over the past couple of years, experienced very considerable diffi-culties and delays when seeking state benefits because companies they had previously been employed with went out of business owing large sums in unpaid income tax and National Insurance contributions, already deducted from their wages.

We have countless examples of fly-by-night company bosses engag-ing in this practice, which is effectively cheating their workpeople out of their entitlement to benefit. It has happened in Wales, in the Midlands, in Northern Ireland, in the North-west, and it is commonplace in the North-east. These very same characters pop up again a few days after the insolvency of one

company heading another. Mean-

Rather than dispensing with existing legislation, the Government should be enforcing it more rigorously. After all, such legislation

while, our members - often mothers

with young children - can wait for

weeks or months without benefit

is not particularly harsh. Directors are only considered responsible if they "knew, or reasonably could have known" that payments have not been made to the Inland Revenue. In 1983 less than £1m in unpaid contributions has been recovered as a result.

The DHSS has not adequately used its power to recover these nonpayments. Consequently, employers are not deterred from using taxation and National Insurance deductions for trading and other purposes. In many cases this may keep the company in business for longer than would otherwise be the case, but in the clothing industry the standard and authenticity of company records and the extent to which one company is a supplier or customer of another company under the same ownership are generally such that it is not possible to say what actually

happens to this money.
Unfortunately, a relaxation in the law, as suggested by the Institute of Directors, would further encourage employers to engage in this type of

power workers they are unable to hold the nation and government to

energy supplies. So, Sir Keith is probably right, but

those sections of the community

without muscle ought reasonably to

be able to expect their politicians to

protect them from injustice. If not,

they might find that they have no

need for politicians, which might

bring about an unfortuante adjust-

ment to Sir Keith's salary.

#### Teachers' pay claim

From Mr Michael Cole

Sir, Sir Keith Joseph suggests that the reason why teachers are so poorly paid is simply a reflection of supply and demand. Can we expect, therefore, that doctors' salaries will be reduced in view of the fact that so many qualified medics are now out of work? I think not.

The salaries of teachers are low because of their lack of industrial muscle. When they strike their employers rejoice since funds reserved for teachers' salaries can

then be diverted elsewhere. Unlike the work of the manufacturing industries, the work of teachers does not produce a saleable

35 Churchfields. Broxbourne, Hertfordshire. April 23.

From Mrs Peter Lockley Sir, Mr Croft's daffodils are obviously reluctant to turn their faces to the walls of his house. Perhaps if he lined the said walls with some reflective material his flowers might reconsider. After all, they are narcissi! Yours faithfully, OLGA E. LOCKLEY. Gibstick Cottage, Winmerleigh, Preston, I ancashire April 23.

#### Arts joint funding

From Lord March and Kinrara Sir, I share Lord Cudlipp's concern (April 4) about Arts Council policy that the desirability of joint funding with a proportionate contribution from local authorities is, in practice, steadily becoming an absolute condition of Arts Council and

regional arts association grant-aid. Even where grant-receiving bodies have been devolved to regional arts associations with their council subsidy intact there is no guarantee that all or part of these sums will not be rapidly reallocated by the associations in cases where these grant-aided hodies are not provided substantial local authority

funds. Furthermore, due to the financial restrictions on local government expenditure at the present time, many authorities are finding it impossible to increase their giving to

On all these counts, notwithstanding the policy to increase the provision of council funds to the regions, some areas of Great Britain may quickly become cultural de-

However, the council states it will do all it can to develop business and other private sponsorship. Furthermore, the council's strategy docu-ment speaks of "issuing challenges to local communities to match its

funding, at least in part, whether from local authority resources or other locally-raised funds."

If that is really what the council means then, in those places where joint funding remains a highly desirable objective, should not grant-aid be measured against the contribution by the whole local community, that is, from business sponsors, charitable trusts and individuals, as well as from local authorities?

Yours faithfully, MARCH, Goodwood House, Chichester, West Sussex. April 9.

material breach or that this country is now entitled to suspend the operation of any Conventional obligations it might otherwise have had towards that state?

The danger is that subsequent state practice is often invoked as an aid to treaty interpretation (see article 31 of the 1969 Convention). Merely ending diplomatic relations but taking no action against persons who are guilty of criminal behaviour implies a particularly wide interpretation of "inviolability". Therein lies the weakness of the Government's intended course of action.

Yours faithfully. RICHARD GORDON. 2 Harcourt Buildings, Temple, EC4. April 24.

Brazilian elections

Sir, Today's Times (April 18) publishes an important editorial on the political situation in Brazil, under the title "Brazilians on the streets". Without wishing to enter into a discussion on points in the editorial which are open to in-terpretation, I would like to ask your attention to a statement which is factually incorrect. I refer to the affirmation contained in the editorial that "no Brazilian under the age of 40 has voted in a free Libya's recent conduct represents a election".

From the Ambassador of Brazil from the Opposition parties. Yours truly,

Now, it is well known that we have always had elections in Brazil every four years, by secret popular direct ballot, to choose senators and deputies to the Federal Congress and representatives to the States' Assemblies (Brazil is a federation of states).

The last elections we had of that kind and also to choose the governors for 22 states of our federation, mayors, municipal and state representatives, took place in 1982, as it was fully and widely reported at the occasion by your prestigious newspaper. Incidentally, it should be noted

that no accusation of rigging or manipulation of the results of the elections has ever been suggested by the Opposition parties, which, as a matter of fact, have been increasing their representation in Congress and carried the election for governorship for 10 states, including the very important ones of Rio de Janeiro. São Paulo and Minas Gerais, which have now, consequently, governors

It is thus totally wrong to say that no Brazilian under the age of 40 has voted in a free election."

MARIO GIBSON-BARBOZA, Brazilian Embassy, 32 Green Street, W1.

#### Mr Maxwell and 'The Observer' From the Chairman of the British

Printing & Communication Corporation pic
Sir, Your Finance and Industry leader today (April 25) gives "Questions and answers" about my "plans" for The Observer. It suggests that, if my family company, Pergamon Press Ltd. acquires The

Observer, my family's interests could conflict with those of the minority public shareholders of Pergamon's subsidiary, BPCC. This "conflict", it is suggested, would arise from BPCC's present contract to print The Observer colour magazine and would be extended if it were to print the whole

newspaper. It is my strong belief that there would be more, and more prosper-ous. British newspapers if their publishers contracted out their printing and left that to the experts. The publishers' skills lie elsewhere, in editing, selling advertising space, and promoting and distributing the

papers. That these roles can successfully be exercised separately has been demonstrated for many years by magazines like Radio Times and TV Times and the Sunday colour supplements; and more recently by Reed International's decision to have its women's magazines and Farmers Weekly contract-printed by BPCC, to the great delight of their editorial staff and advertisers and to the considerable benefit of Reed

International's shareholders. Since Pergamon acquired control of BPCC in 1981 and rescued it from closure, it has been demonstrated that effective management can make printing in Britain profitable again. If (and these are very early days) BPCC, as printer, were to obtain from Pergamon, as publisher, the contract to print *The Observer* newspaper, it would only do so on realistic, arm's-length terms, which would be fair to The Observer and profitable to BPCC.

It would be quite wrong to assume that my interest in The Observer arises solely because I see a printing contract and/or a chance to put theory into practice. Nevertheless I am confident that, when and if this situation arises, it will demonstrate the validity of my belief and bring benefits to all the parties involved to publisher, printer, advertiser, reader, employee and shareholder

Yours faithfully ROBERT MAXWELL, Chairman, British Printing & Communication Corporation plc, Headington Hill Hall, Oxford. April 25.

#### The Bettaney case

From Mr Myles Glover Sir, I write in support of the views expressed by Mr Roy Moxham in (April 19).

It is surely professionally unacceptable, and constitutionally out-rageous, that the Attorney General, and thus also the Lord Chief Justice commodity, so who cares if teachers withhold their labour? Unlike the sitting in camera, should have been denied access to evidence material to the prosecution's case in the Bettaney trial. ransom by threatening to cut off

The object of a trial in camera is to accommodate the rule of law to the requirements of security. Furthermore, both the Lord Chief Justice and the Attorney are privy councillors; and privy councillors are recognized to be appropriate scrutineers of security matters because of the oath sworn by them in that capacity.

That, of course, does not get round the problem of others present at treason trials in camera who become privy to security matters disclosed in evidence, apart from the trial judge and the Attorney. Perhaps the answer is simply to

swear all concerned under the Official Secrets Act. Or is it the case that this happens already but is not reckoned good enough in the case of matters of the highest security. because the offence being prosecuted is one under the Acts and therefore demonstrates their ineffectiveness? Yours faithfully, MYLES GLOVER, As from Buckhall Farm, Buli Lane.

# Resolution of brilliance

Number One

Queen's

If this piece turns out to be Jean Anough's swan-song as Bryan Appleyard suggested on this page last Monday, it will stand as a fitting last statement from the century's most theatrical playwright. In any other form, the story of Number One would be intolerable. On the stage, its misogynistic, self-centred ob-sessions become the pretext for a wonderfully ingenious game. .

Leon Saint-Pé (shades of the crumbling hero of Walt: of the Toreadors) is an aging goutstricken playwright, striving to keep at work in spite of a ban on alcohol and tobacco and the down to business and hatches a releatless stream of friends, relatives and artisans who ccaselessly invade his studio with demands for cash hand-

Leon, meanwhile, is battling with a comedy on the theme of ecocentricity; and, even if you miss the clue of an opening speech written in the form of stage directions ("enter an aging playwright ..."). it is soon manifestly clear that the play we are seeing is the play that he is

This means that he is cast both as master and slave: the creator of the other characters and also their victim. And it is the particular genius of Anouilh

#### Down and Out in Paris and London Gate, Latchmere

Lou Stein staked his claim to this book by directing the Paris half in 1979, and this Orwell year he completes it. Most book adaptations on stage are more enjoyable if you have not read the original, which perhaps does not say much for them. If you have, you look for exceptional flair and freshness of approach, perhaps with the bonus of rich realization of the characters a novelist draws; but that seldom

in a point, to put a narrative - then blank out to show only a

to resolve that apparently hopeless contradiction. He most obviously by switching like a master conjurer between theatrical fact and illusion (so that Leon will turn to the house for sympathy when someone remarks that nobody

likes him).
Simultaneously, Leon keeps up a running commentary on his own life and on the progress of the action, hurling impre-cations against his grandfather for thoughtlessly picking up the maladies which he has inherited and deciding that there have been too many monologues and something had better start happening soon.
After the interval, Leon gets

plot to revenge himself upon his tormentors by putting them at each others' mercy. At that point, the play takes on a new interest. Hitherto, Leon the writer has had everything his own way and has shown up his family and friends as a pack of vain, grasping, heartless para-sites. Once he entrusts the events to them, they start

fighting back. His estranged wife totters home, determined to die in the family bed. His cadging novelist friend (Joe Melia) carries off the Prix Goncourt. Summoning "the cuckold" with a little bell, Leon gloaungly breaks the news of his daughter's infidelity to his

sweaty Paris kitchens and foul London doss-houses, as the novelist describes it - fluidly and economically on stage. Antony Higginson and Simon Roberts, as Orwell's older and younger self, divide the authorial voice between them while Mr Roberts exchanges ill-paid jobs or meets a humbling variety of hoboes in between hand-outs from a prosperous friend.

Mr Stein relishes the technical challenges for their own sake and his designer, Norman Coates, provides screens that transparently reveal a grim brick street, or the Paris laundry above which pseudo-Commu-It is easy, though effective up nists draw subscriptions, and in this case Orwell's sojourn in line of dossers' busily-picked

find himself confronting a tackles it from several direc- haughty aristocrat who takes the news in his stride. "I'd have thought that scepe would have been funnier. Leon remarks plaintively. As it is, it belongs to the superb, robot-voiced Peter Blythe, who enunciates punning lines like "I don't want to lose this start I've got" without turning a hair.

Leo McKern's Leon, vastly bandaged and hobbling over Sue Plummer's attic studio like a wounded sea-lion, trumpeting exasperation and stray moments of triumph with a force that has you waiting for a terminal heart-attack, brings a quality of emotional generosity to the part which adds to the appeal of Michael Frayn's wittily cold-blooded translation.

McKern obscures the fact that Leon, as written, is as malignant as he is soft-centred. And it is Robert Chetwyn's production that takes on the task of presenting the other characters through the eyes of "the old farce-monger", through caricatured waxwork groupings and grotesque portraits of female vindictiveness and greed. Shirley Cassedy and Margaret. Whiting excel in those; not forgetting Anthony Sharp in the obligatory role of a Molièresque sawbones.

seems to prefer her involvement place, the performance lacked a with the music to be intellectual at the expense of full-blooded passion. Her reading of Schobert's A minor Sonata, D537, for example, was clean and precise to the point of sterility. Even the charmed simplicity of the middle movement was lost; it demands the nostalgia of an. adult looking back to idyllic childhood days, but there was no wise hindsight behind Miss Yeon's innocence here. And,

Miss Yeoh seemed slightly happier with the veiled, sombre, yet ripe mysticism of Scriabin's Sixth Sonata, which in her hands was aptly enigmatic, bubbling at its surface yet never reaching the point of eruption. Her evident and admirable disregard for extroversion suited even better Schumann's Nachtstücke. Here she evoked an intimate world of nightalthough every phrase of the thoughts, properly drawing her

Concerto opened out after a stiff, unrelenting first movelatter, rarely performed. The central trill in the Andante bit into the keyboard with Stravinskian incisiveness, but then faded with magical ease.

limely simple articulation; how he can feel that Andante's For Abbado, on the other hand, everything had to be softmagical progressions so clearly edged: in the Fourth Symphony, with those elephantine orcheseven the sudden fortissimo tral unisons galumphing around chords were lunged into, the staccatos smoothed out, and the timpani seemed covered in Politin's playing can often be brittle: in the Fourth Concerto's first movement he thwacked the velvet. The performance was never lacking in energy and off-beat accents fiercely, and drive, but it had more force created an astonishing vision from a cadenza which sounded

#### Nicholas Kenyon

The problem is that as yet she finale- was-beautifully in its. listeners in rather than reaching out to them.

Stravinsky's Piano Rag Music lies at the opposite end of the musical spectrum. More like a distorted image in a hall of mirrors than the undisciplined rhapsody that Miss Yeoh's own programme note held it to be, the work was clearly relished by her. Certainly its brittle distortions, had more substance to them than Copland's soporifically gentle, and distinctly un-bluesy, Four Piano Blues.

Stephen Pettitt in the sound-checks during an urally."

Dire Straits are a pop phenomenon of unusual sincerity: Richard Williams meets the group's star. Mark Knopfler (right)

# Graceful strengths

By most of the yardsticks of pop music in 1984, Dire Straits are so conventional as to be practically invisible. No exotic dancing, no men in frocks, no million-dollar videograms grati-fying adolescent fantasies: unlike the preeners and the poseurs, the members of Dire Straits exude the simple, almost stolid, slightly dated aura of men getting on with a job of work, The plain fact remains,

however, that nice girls con-

tinue to like Dire Straits, in very large numbers. The group may have had its origins, seven years ago, in the heavily masculine world of London's rock pubs, but something - some rare combination of strength and grace – in the songs, the voice, and the superbly fluent guitar improvisations of Mark Knopfler caught the attention and the affection of intelligent womanhood, leading to sales for their four studio albums counted in the millions from Holland to Japan and from Canada to Australia.

Along with Sting, of The Police, Mark Knopfler is persuccessful British rock star to be produced by the era of the Beatles and the Rolling Stones. Reserved and reflective in manner, restrained in appear-ance, he is unrepresentative of his profession, and appears unchanged by several years of applause, adulation and appointments with accountants.

His own explanation for the group's popularity is delivered with a judicious deliberation and a pleasant lack of false modesty, "Somehow", he muses, "it gets across to people that what is being done is honest and skilful. They realize that nobody is out there to make a quick-buck killing."

The group's latest manifestation is a recording - on disc, audio cassette and video tape commemorating its last tour, which began in the final weeks of 1982 and ended seven months later after visits to Japan, Australia and New Zealand, Titled Alchemy, the recording both summarizes the group's development and offers a convenient opportunty, according to Knopfler, for a

fresh start in a new direction. He suspects that the process of physical growth - from the original impecunious quartet playing in pubs to the present technically sophisticated sevenpiece band performing in huge arenas - may be at an end. It was a process, he agrees, which found an unusually exact and significant parallel in the development of his own songwriting techniques. Beginning with the songs of the third LP, Making Movies,

he composed at the piano as well as with the guitar and, in place of the simple linear structures of his early songs, he found himself writing more formal verses and choruses: "The songs dictated the style of the arrangements". he says. "I began thinking more orchestral-ly." The culmination of that a period of months, at the piano

American tour, I suppose I was trying to do everything all at once - compose a song, write a novel, make a movie.

"I'd never write a song like that now, although that sense of scale suited me at the time. Now I'd like to try something else. We can't go back to being a simple four-piece band. We've done the John, Paul, George and Ringo bit, and then we had the exhibitaration of adding the keyboards and all the synthesizers and discovering the extra dimension they could add to the music. What next? It could be acoustic guitars, or it could be brass instruments. I really don't know yet"

Typical of Knopfler's thoughtful approach was the subtle coup de théatre which closed each concert of the tour. As the final encore, the group played his gentle instrumental theme tune from Bill Forsyth's film Local Hero while the technicians came on stage to dismantle the equipment. One by one, the musicians slipped away into the night, leaving the audience to depart in a mood of

unusual serenity.
"A concert can be a very powerful experience", Knopfler says. "I've noticed in the past that people can be carried to such a pitch that they find themselves leaving a concert with their energy still buzzing and nowhere to take it. We deliberately chose to defuse that power, to let people down

In such details, and in the lavishness of the amplification and lighting systems, the concerts certainly made a poignant contrast with the simplicity of presentation of the group's early days. "In order to sustain the performance over a couple of hours or more, you have to make use of certain devices and effects". Knopfler observes. "For instance, we spent a lot of time on our lighting – but one evening we found ourselves playing in a Spanish bull-ring before dark, and everybody enjoyed it tremendously. It was comforting to know that we don't depend on the effects."

Knopfler's command of his craft has been broadened by his recent experience in the film world. His soundtrack for Local Hero was widely praised, and will be followed by music for Forsyth's next film, Comfort and Joy, and for a David Puttnam production titled Cal. directed by Pat O'Connor. "It's a chance to do instrumental music", he says, "and an opportunity to experiment with varieties of music that might not fit on to a Dire Straits record."

His enthusiasm returns when he speaks of the moments of inspiration which make songwriting a pleasure. "It's the moment when you know you're really on to something. It happened to me when I was writing 'Tunnel of Love'. There's a certain part of the song that I call the breakdown and when I got there I could feel the drums, the piano, all the things that I wanted all the approach can be found in instruments to do. When you "Telegraph Road", a 14-minute get to that state, there's a epic which was part of 1982's strange sense of one thing Love Over Gold. "I wrote it over following another, of elements falling into place quite nat-

#### Puppetry Hungarian State Sadler's Wells

To have puppets playing pup-pets sounds faintly incestuous, yet Petrushka is much the most successful item of four brought by the Hungarian State Puppet Theatre to Sadler's Wells on Tuesday. The puppets, often not much less than life-size and sometimes more, inhabit an inner stage - or, more strictly, a floorless space, since they are generally manipulated from below by puppeteers hidden behind high screens.

leading roles in Petrushka, but the fairground setting of their drama becomes more fun in this version, with improbable acrobats, an incredible tightrope walker, an impossible fire-eater, even a set of those Russian babushka dolls who lift away to reveal smaller versions of themselves which then join hands and dance.

Unfortunately, puppets cannot really dance, only mimic dancing. Hence the programme's one flop. The Miracu. lous Mandarin, where the music (recorded, all evening) cruelly exposes their limits by allowing time for expression they do not provide. Lucky matinee audiences will dodge this work.

at odds with such paint surface.

Artificial figures do not Most of the programme is match the pathos brought by directed by Kato Szonyi and human performers. to the designed by Ivan Koos. The one

exception is The Firebird, for which Vera Brody is director and joint designer with Koos. Set to the suite from the ballet. this shows a similarly imaginative and colourful treatment, including clever use of projections and shadows but, in a more sentimental vein.

Only one of the works shown here is not an adaption of a stage ballet. Classical Symphony uses Prokofiev's music for a farce about a commedia dell'arte performance that goes wrong when a spectator's dog joins in. There are live actors, too. in that one: clearly the ensemble has no doctrinaire approach to its work. The season continues until May 5 as part of a puppet festival spread over several theatres.

#### FINANCE AND INDUSTRY

**Executive Editor Kenneth Fleet** 

#### The snag in Britain's one-word solution

turn of economic events in the United States with unconcern, even verging on complacency. On the one hand there are those who point to the recent, albeit tentative signs that the American economy may be slowing from the breakneck pace of recovery in the first quarter and the still moderate pace of inflation. In these circumstances, they argue, the Federal Reserve will not feel the need for a further tightening of the monetary screw. The pressure on interest rates will ease.

On the other hand there are those, now in the majority, who see higher interest rates as inevitable. Inflation is already pointing upward and the rapid drop in unemployment and swiftly rising capacity utilization presages significant pressure on prices over the coming year. Private credit demand has surged ahead, while federal borrowing needs remain at record levels and credible action by the President and Congress to curb the budget deficit has yet to be taken. If the Fed maintains a tight monetary stance, interest rates must rise.

This cetainly appears to be the consensus view of the US financial markets. The US bonds, which perked up a little on Tuesday after lower than expected inflation figures, sagged again yesterday as the key Federal Funds rate rose above 10 per cent, and the dollar, though taking a breather yesterday, has found an new lease of life.

The calm with which these events are viewed on this side of the Atlantic can be explained in one word - "decoupling". Britain, it is argued, need no longer slavishly follow American interest rates up and down. Its inflation performance is likely to be better, its fiscal stance is tighter and confidence in the dollar is waning. So Britain does not have to match American rates to stop funds leaving the

In fact, the "decoupling" process has been going on for some time: for the last eight years, according to an analysis published by Phillips & Drew, the brokers today. The differential between UK and US long rates, which peaked at more than five percentage points in the mid-1970s, has steadily narrowed since and reversed itself in 1982. The US bond yields are now more than two percentage points above British gilts, and this gap is likely to widen, later this year, the brokers predict.

Williams de Broe, another broker reaching a similar conclusion, expects British inflation next year to be almost 3 per cent below that in the US - for the first. time in many years.

The snag, however, is the exchange rate. Some City voices are already expressing concern over sterling weakness - it has lost nearly 5 per cent in value over-the past six months - and its likely impact on inflation. The recent behaviour of the dollar does not suggest that the lure of higher interest rates has wholly faded. Letting the exchange rate take the strain becomes an increasingly risky strategy for a Chancellor determined to deliver on lower inflation.

It is possible, however, that the dollar's latest comeback will be a brief affair. The next set of US trade figures out tomorrow are likely to trigger fresh anxieties on problems of financing the yawning current account deficit, now widely expected to reach \$75 billion.

Unit trusts on a high

Unit trust sales hit a record last month: at £328m, they just surpassed January's peak figure of £327m. Net new investment for the month was £190m - a big improvement on the February figure of £144.6m.

But other events should preoccupy the hierarchy of the Unit Trust Association,

which seems dangerously ready to bury its head in the sand. "No one at all has indicated that they might resign from the Unit Trust Association commission agreement", affirmed Miss Audrey Head, the chairman of the UTA, yesterday. But on her own admission, neither she nor any other executives in the UTA hierearchy apparenly had any notion that Arbuthbnot, which opted out of the UTA last month was about to resign.

The whole industry is waiting with bated breath to see whether the Inland Revenue will allow the controversial Arbuthnot scheme clearance, Arbuthnot has lumped its unit trusts under an umbrella scheme giving the unit trust investor the ability to switch between any one of its funds, while remaining within the same unit trust and most important, without incurring any capital gains tax liability. At least, that is the theory. It has not yet been tested in the courts.

In order to market the fund, Arbuthnot has been obliged to offer intermediaries annual renewal commission - a move specifically outlawed by the UTA, and the cause of Arbuthnot's precipitate departure from the association. Deprived of the initial commission normally carned on moving clients out of one unit trust into another, intermediaries had to be offered some palliative.

Miss Head keeps a brave face on things. We have had no requests yet to look at our commission scales." And on the Arbuthnot scheme: "I will be most surprised if other groups attempt to copy

That sounds like wishful thinking. "We are not looking to copy this scheme but you can get these things going pretty quickly" was the equivocal response from Mr Jeremy Edwards, of Henderson, one of the more alert investment groups. Competitors cannot afford to ignore the

Arbuthnot example - if it works.

The UTA will then be faced with two options - mass defections from the association, or a massive overhaul of its commission rules. It is not just the Arbuthnot scheme which is shaking the structure. Even Miss Head volunteered cautiously that she is expecting one or more members to put forward proposals for new commission on regular savings

#### Coming to terms with two nations

The trouble with regional policy, Mr Walter Goldsmith of the Institute of Directors said yesterday, is that it has not taken any account of the individual strengths and weaknesses of the regions. Industry and jobs have been diverted from one region to another, often going reluctantly, without any thought as to whether this was a sensible strategy for the area, or whether there were other things besides subsidies and tax breaks - that could be done to make it more attractive for companies to move there of their own

Mr Goldsmith's point is given added force by some figures from the Employment Department on the likely expansion of the labour force in each region. While the number of people wanting work in Britain as a whole is expected to grow by 3 per cent in the decade to 1991, the labour force is expected to shrink in the North West and grow even more rapidly in East Anglia, the South West and the East Midlands.

This is mostly a result of demographic changes, reflecting the continuing division between the expanding, younger South and the declining, ageing North. Better surely to acknowledge and build on what is, than fight the trend in vain.

#### Midland's chairman under fire

By Jeremy Warner

Sir Donald Barron, chairman of Midland Bank, was severely criticized by the bank's share-holders yesterday for the disastrous performance of the American subsidiary, Crocker National Corp. Crocker has already reported

multi-million dollar losses and has undergone a managerial restructuring which continued on Tuesday with the resignation of the president of the banking subsidiary, Crocker National Bank.

Shareholders described Crocker as "a total disaster". A representative of the Banking, Insurance and Finance Union demanded an assurance that the remuneration of staff and pensioners in Britain would not be undermined by the situation at Crocker.

Sir Donald said that the transfer from reserves to deal with deferred tax and the effect on profits of Crocker would reduce the bank's capital ratios, but that the ratios should remain at a level satisfactory to the Bank of England with the important free capital ratio above 4 per cent at the end of the vear.

Shareholders were also given a strong hint that dividends would be maintained, despite the bank's problems. Sir Donald said: "We do not see any reason why current levels should not be maintained.

"Following the poor results for 1983, we gave our strong support and encouragement to the Crocker board to take steps to improve the management organization of the bank's not had any time to have any effect in the first quarter of 1984 but we believe they will have an increasingly beneficial effect in the remainder of the year.

#### The Times **Budget** briefing

The Times is organizing on May 22 a one-day briefing on the consequences for industry and for the personal investor of the far-reaching tax changes announced in the 1984 Budget.

The keynote speaker will be Mr John Moore, Financial

Secretary to the Treasury, who has been closely involved with the Chancellor in the planning of his corporate and personal

Authoritative City specialists
will analyse the implications of
the Budget for the decisions that individuals and companies make on the raising and use of funds.

A series of sessions has been designed to explain what the tax changes really mean and how businessmen, corporate treasurers, institutional and private investors should respond to get the best out of the new

opportunities created.

Detailed topics will include fund-raising by companies, new ways of paying employees and

the options for private investors.

The conference as a whole is planned to concentrate on the practical issues involved in a wide range of post-Budget decisions that both companies and individuals will need to take in the new tax climate.

Details of the conference appear at the bottom of this page, with a coupon for those wishing to attend.

# The Times 1984 Budget Briefing

The Tax Strategy of the Budget Keynote address by John Moore MP Financial Secretary to the Treasury

The Government has produced a Budget which is forward looking and optimistic, designed to encourage business risk, investment and success. The Chancellor's corporate finance package, phasing out of first year capital allowances, tax concessions on executive share option schemes and other radical changes have far-reaching implications for firms and individuals. To help in making the right practical decisions in the new tax environment The Times has arranged a special conference where leading authorities will give detailed answers to three fundamental questions:

- How should funds be raised?
- Where should money be invested? How should income be received?

Chairman Kenneth Fleet, Executive Editor. The Times

Tim Congdon Partner, L. Messel and Co. Trevor J. Swete Director, Hill Samuel & Co. John Carrell Tax Partner, Stephenson Harwood Ian E. Hayes National Tax Partner, Armitage & Norton Mark Powell Director, Laing & Cruickshank

The briefing will be held at the Dorchester Hotel, Park Lane, London, on Tuesday 22nd May 1984, the cost being £250 plus VAT. Lunch and refreshments will be provided.

Those wishing to attend are invited to complete the application form below and send it. together with the fee, payable to: The Times 1984 Budget Briefing Limited, Hazlitt House, 28

# **De Beers**

he year 1983 was considerably better than 1982. However, the early promise of a return to normal conditions which I reported in my last statement was not fully realised and the market for the larger, better quality stones remained weak throughout the year.

The book value of our diamond stocks increased by R421.6 million (of which R223.4 million was due to the change in the Rand/Dollar exchange rate) to a total of R2,253.9 million. Measured in United States Dollars, the currency of sale, the increase was \$163 million to a total of \$1,852.3 million.

De Beers' profits, including its share of the retained profits of associated companies - but before our R5.7 million share in the extraordinary profits of associates — were R530.2 million or 147.4 cents per share, that is 20 per cent more than the R442.5 million

C m L uin C ac T w coll o

142.7

Regis 1 70.5 101.3 125.4 52.5 42.5 53.6

earned the previous year. Excluding its share of the retained profits of associates, profits were R303.4 million or 84.3 cents per share compared with R202.5 million or 56.3 cents per share, an increase of 50 per cent. While the high level of stocks calls for a conservative distribution policy, in view of the substantially improved profits the Board decided that a small increase of 2.5 cents in the final dividend was justified, resulting in a total distribution of 40 cents per share against 37.5 cents in 1982.

#### Further signs of improving markets

Sales by the Central Selling Organisation (CSO) for the year at \$1,599 million were \$342 million or 27 per cent more than in 1982. Retail sales were also better than in either 1981 or 1982 and the Christmas trade in the United States was particularly good. The year 1984 has started well and there are now some signs of a shift in demand upwards from the small less expensive goods to medium quality diamonds. But while markets are generally better the demand for the large stones of good quality is nevertheless still restricted. Many of our customers suffered severe losses during the depression years and are naturally cautious about holding stocks of high quality goods, particularly at a time when real interest rates remain exceptionally high. Moreover the banks who were perhaps unduly ready to provide credit during the boom years are now being extremely careful in making advances. Stocks of diamonds in the cutting centres and bank indebtedness have been sharply reduced so that the trade is in a much better position from which it should be possible to expand the current level of business with safety.

#### The 50th anniversary for DTC

This year we celebrate the fiftieth anniversary of the formation of The Diamond Producers Association and of The Diamond Trading Company. The organisation which was then created for the marketing of diamonds in a manner which would protect

#### Mr H. F. Oppenheimer's Statement for 1983

the interests of the whole industry has proved itself both in good times and bad. After the very severe test of the last few years the CSO finds itself in a strong position. There has never been a time during the period of more than fifty years that I have been in the diamond industry when the proportion of the total world rough diamond production marketed through the CSO was as high as it is today.

Our relations with the major producers outside the De Beers Group continue to be very good and it is generally appreciated that the willingness and ability of our organisation to hold large stocks through very difficult times has been and remains essential for the wellbeing of the whole industry. We are therefore in a good position to maintain a firm base for the rough diamond market while at the same time showing, to the extent compatible with our basic objective, flexibility in meeting the individual needs of our customers in order to help them to regain what has been lost and to move forward on a sound basis to a new level of prosperity.

#### Large stones - can only become rarer

The demand for the small, lower quality goods, is now at a high level and the trade as a whole can only be expanded through an increase in demand for larger sizes and better

therefore, can only become rarer and should increase in value. While the restricted demand for these qualities is an immediate and serious problem, it is one which,

Brilliant cut

provided the CSO keeps a firm grip on the through, is bound to solve itself. I am not, therefore, unduly concerned that De Beers should hold substantial stocks of these qualities and am indeed confident that, as

market in times such as we have been going

Some of the ways we have shaped and strengthened the diamond industry.

qualities. This process has already begun but it will have to go much further before full prosperity can return to the industry. Our sales promotion this year will therefore give special emphasis to the upper end of the market. It is natural that this part of the trade should suffer more from the effects of general business recession and high interest rates than business in small sizes and lower

qualities, of which the greater part are used in the manufacture of comparatively inexpensive jewellery for which the market is naturally wider.

In the long run, however, there is good reason to have confidence in the attraction and value of the larger stones of high quality. While there have, in recent years, been a number of important new diamond discoveries, the great bulk of these new productions consists of below average quality stones. The production of the larger and more valuable diamonds comes mainly from the old established mines whose output is less than it was in the past and is continuing to decline. The large good quality diamonds.

has happened more than once in my experience, our present difficulties will eventually turn into important profit-making opportunities.

#### Industrial profits rise - in the face of strong competition

Conditions on the industrial side of the business improved considerably during 1983. This improvement was, however, concentrated in synthetics, though the volume of sales of natural industrial diamonds also increased. For the first time sales of synthetics exceeded \$100 million and the profitability of the Group's three diamond synthesis factories in South Africa, Ireland and Sweden, improved substantially. This was a considerable achievement since. in the face of strong competition, sales prices tended to decline over the years and the increased profits were attributable to the use of more economic synthesis processes and improved manpower utilisation.

The tendency for industrial demand to move increasingly to synthetics may become a problem when the large Argyle mine in Australia comes into full production, since this mine will be a particularly large producer of industrial qualities. It is an important task to work out plans to meet this marketing situation and the CSO is well placed to tackle it.

Diamond production from the mines of the Group, including Debswana which is owned in equal partnership with the Government of Botswana, totalled 21,349,522 carats, compared with 17,399,815 carats in 1982. The main reason for the increase was that the first full year's production, amounting to 5,852,998 carats from the Jwaneng mine exceeded the 1982 production from this source by 3,231,355 carats. Operations at this highly important new mine are going exceptionally well, both in respect of grade and recovery, and a further increase in production is expected in 1984. Production from the Kimberley Division mines rose by 964,766 carats to 6,127,947 carats, owing to a substantial increase from the Finsch mine, offset, to some extent, by a small decrease

from the old Kimberley mines. At the other mines of the Group there was a small increase at the Premier mine and small decreases in Namaqualand, CDM and Orapa.

Prospecting continues

Expenditure by the Group on prospecting during the year was R41.4 million, a reduction of R1.8 million from last year. Work was continued in South and Central Africa, Australia and South America. It has unfortunately been found that the kimberlites on the farm Venetia in the Northern Transvaal, to which I referred in my last statement, are not viable in present economic circumstances. However, more work on these deposits is to be carried out.

Two prospecting concessions off the Namaqualand coast were granted to the Company during the year and preliminary investigation of these concessions is in progress. In South West Africa/Namibia intensive prospecting was continued with encouraging results along the north bank of the Orange River and in the old German mining areas south of Luderitz. Systematic sampling of the ocean floor off this coast was also continued. A special effort is being made in this whole area in the hope of being able to extend the life of the CDM deposits.

The Company, by contributions made to the Chairman's Fund for improved facilities for technical education and to the Urban Foundation, as well as through its own important training and development programmes for employees at all levels, is playing a significant part in improving the environment in which it works and in

providing employment and advancement opportunities to men and women of all races on equal terms. All this is being done in accordance with a continuing long-term policy and I can report that highly satisfactory progress was made during the year.

The value of our investments outside the diamond trade at 31st December 1983 amounted to R3,278 million. Income from these investments in 1983 amounted to R161.7 million, an increase of R12.7 million over the previous year. It is interesting to note that this income was well in excess of the cost of our ordinary dividends for the year.

This vided into five shares, each with a par value of 10fl each.

#### **TEMPUS**

#### How companies should allow for deferred tax

After a month of deliberation, the Accounting Standards Committee has pronounced once more on the treatment of deferred taxation. The overall verdict is that last month's Budget changes nothing, and a deferred tax liability which is likely to cystallize should be provided for at the appropriate rates.

It is a far cry from the near

panic which appeared to have engulfed the committee's last meeting a few days after the Chancellor's announcement of a phasing out of capital allowances. The immediate response then was to state that existing accounting standards remain in force but that in some cases compliance would not enable the accounts to show a true and fair view, The wording was sufficiently

vague to give the impression that almost anything was permissible as long as companies explained the approach they had taken. It is clear now that this impression was misplaced, and that there is little room for flexibility. The statement of intent the committee issued yesterday is quite clear. It will lead to the publication of a new accounting standard on the treatment of deferred taxation to come into force on January 1 1985. A company which forsees a deferred tax liability cystallizing must provide for it immediately. Where the changes contained in the 1984 Finance Bill result in a significant adjustment to the deferred tax account this should be treated as an extraordinary item on the profit and loss account.

Already, many of the clearing banks have gone along with this approach, although the committee has frowned on the direct write-off to reserves without any reference to profit after extraodinary items. Many industrial companies have also toed the line and dutifully made additional provisions for deferred taxation as extraordinary items. There is still a large number of busineses which have ignored the impact of the Budget or merely ignored the problem.

Auditors will now be obliged to press boards of directors much more closely on their estimates of the impact of deferred taxation. It will be difficult to stave off the requirement to make additional provisions, particularly where a company has not been over prudent in the past.

However, there are still some firms of accountants which are not convinced by the committee's stance. The argument is that, by adopting too rigid a line and making an once-and-for-all excessive

ness of a set of accounts is

A company could be an overall beneficiary of the Budget changes, paying less corporation tax but, because of the nature of its business, still be obliged to make a massive

write-back of deferred taxation.

The amount of additional provisions which must now be written back by British companies has not been estimated with any degree of accuracy. The calculations which must be carried out are very complicated, and even with the greatest care the amounts can never be anything other than rough approximations, Whether these provisions genuinely assist the understanding of a company's affairs must be debatable.

#### Gilts

Gilts have started to fall asleep in the sun, although the longs attracted some buying interest yesterday. Late April is not a time to be brave looks to be the consensus fund management approach to the market.

Last week's string of official statistics, including insti-tutional flows of funds (1983:Q4) and detailed March money supply figures appeared to demonstrate that the institutions are turning their backs on gilts. The main concern now is not whether the Government Broker will appear, but when and with wild category of new concept stocks to titillate the

A convertible could be a tricky kind of stock to sell, because existing convertibles have virtually given up their dual role. The sharp fall in Treasury 10 per cent Convertible 1986 last week completed the change in convertibles status relative to shorts, so that virtually all the premium virtually all the premium rating conferred by the conversion option, has now been The long option for most

stocks is now so expensive that holders could miss perhaps the first four points of any rally at the long end. Imminent matur-ing of the first conversion option on Treasury 10% per cent. But the yield after exercising the option libto. Treasury 10 % per cent 1999, as nearly a full point lower at 9.986 per cent than the long's

#### Spear and Jackson

Spear and Jackson, now completing a stunning comeback, is suddenly talking about making the commercial big time with enthusiasm as bright as one of its own garden shovels.

into the black, and after adding back last year's £0.3m of pack last year's £0.3m of redundancy costs — charged above the line — the present level of profits must be approaching the £2m level, assuming buoyuant first quarter returns hold up for the rest of the year. of the year.

On dividends, the final proposed payment of 3.5p is an earnest of the group's intentions to liberalize the payout policy. Debt? Net borrowings, including leasing commitments, fell last year by some £2.5m. to £0.5m, and, at 9 per cent, financial gearing is at its lowest level for years. Most of the group's operating ratios, like payroll; sales, are improving rapidly, and S&I's move to squeeze as much cash flow as possible from the pusiness is also apparently paring off.

All very gung-ho. It is clear that the group's extensive rationalization programme, which contributed to losses in 1982 of £1m, has breathed new life into the group. Equally, it is evident that after surviving the invetiable takeover rumours the group is now moving on to the offensive, and looking to make some sizeable acquisitions. S&J admits that it has identified a number of potential quarries, with shape, not size, the vital criterion. That comment suggest that bid terms would include a mixture of cash and paper - hence the improved payout terms.

A takeover programme would make good commercial sense. The effect of the retreachment programme is to leave the group with roughly an per cent of profits coming from overseas, from a 50.50 sales breakdown between nome and abroad. Tools for the lumber industry contribute perhaps one third of group profits, while hand and garden tools chip in perhaps a quarter of group profits.

Yesterday, the shares rose 8p to 1580, a new high for 1984, as dealers sensed perhaps that the shares also offer a cheap way into the United States econonly. Contrary to gloomier forecasts about a slowdown in United States gdp - witness a 26 per cent drop in March housing starts - Spear and Jackson appears convinced that the general level of United States housing starts will plateau at 1.7m-2m, largely because of more flexible mortgage financing arrange-ments now on offer in the United States. Thus, as a twoway option on both recovery and United States economic prospects, the shares could ive following.

# Losses that may signal all change on InterCity

Publication last week of British managers more accountable by Rail's annual report and giving them a bottom line to accounts for 1983 presented a work to. There are two other happy picture: a £175m loss in passenger sectors. London & 1982 was turned into an £8m South East (responsible for surplus, and the railway operat- commuter lines) and Provincial ing surplus of £62m was the best Services (responsible for branch in the 21 years of the British lines in rural areas and the in the 21 years of the British Railways Board's existence.

was a less auspicious result: the board's InterCity sector, the high-profile business responsible for running express trains between our main urban centres, is still losing £159m a year on a gross income of

Yet only last August, in its new five-year plan, British Rail said that indications from its InterCity strategy study were that the business would reach break-even by 1986.

set to make steady progress towards its target of a 5 per cent return on assets after charging depreciation at current cost, the objective set by government by 1988."

InterCity is one of the five business sectors set up when BR grant reorganized its management structure in 1982. The move was widely acclaimed as it broke up the previous mono-lithic structure and made and Sheffield; and one cross-position, with the introduction

Railways Board's existence. provincial cities), and also However, buried in the report Freight and Parcels sectors.

While the Government accepts that the London & South East and Provincial sectors provide a social service, and awards them a subsidy known as the Public Service Obligation (PSO) grant in recognition of that, it expects the other three sectors to operate commercially.

The small Parcels sector already does well, and the Freight sector now earns a trading profit. It was hopeful of achieving the government target According to the corporate achieving the government target plan: "The InterCity sector is of a 5 per cent return on capital by 1988 before it was hit by reduced coal carryings as a result of the miners strike, which it is thought has put back The plan indicates that the achievement of the target by a sector will be close to achieving year. But BR's supposedly-the objective set by government viable passenger business, Inter-City, is in deep trouble and now accounts for some of the PSO

> InterCity is responsible for reckons it has lost at running trains on four routes year to the coaches. radiating from London, to

The InterCity 125: BR's costly flagship locomotive

Bristol.
While it has been suspected or some time that the crossfinancial state, what is more worrying is that BR now acknowledges only the west and east coast main lines, which link England and Scotland, as being of InterCity's problems: BR reckons it has lost about £15m a

InterCity has been making

country route from York to last autumn of a better service executive trains, the promotion of a fresh image with a very new country line is in a parlous livery, and continued assaults financial state, what is more on the "optional" second-class market with a range of bargainbasement fares.
In 1983, passenger miles were

London with the north of up 3 per cent on 1981 (1982 is omitted as strikes distort the truly profitable. Although the deregulation of long-distance coaches in 1980 did not help BR, it is not the principal cause fare business. This larger volume was handled using fewer resources (the InterCity coach fleet was down 25 per cent on 1981, and train miles were cut by 7 per cent and a determined

10 per cent in real terms.

It appears that what scuppered InterCity was that infrastructure and administration costs imposed a higher burden on the sector than was expected.

Making InterCity financially

viable was always going to be the most difficult part of the new five-year plan. The 1983 losses were not unexpected.
Moreover, even the details of
the plan itself only showed InterCity improving progressively to a £66m loss in 1988, at 1983 prices, instead of the £30m profit needed to meet the plan's nominal objectives. Clearly, even then, new initiatives were vital. InterCity's loss still exceeds a third of turnover - an apparently hopeless position.

The BR Board will present its

Strategy for InterCity to the Department of Transport within the next couple of months, and it is thought that the study will propose heavy cuts in the frequency of trains on InterCity routes.

There is now a danger that frantic efforts to attain a viable InterCity sector will result in main-line trains, carrying perhaps 300 people, being taken out of the timetable, while branch line trains connecting with them and carrying say 30 people each, but accounted a social service, will be retained.

On receipt of the strategy study, the Government will probably be forced into a rethink of the role and aim of InterCity. One option would be to revise the bundle of services which make up the InterCity

sector, so that only the profit-

able ones are included. There would seem to be little logic in the present split: for instance, InterCity's financial millstone, the York to Bristol route, has similar characteristics to the trans-Pennine route from Liverpool to Scarborough, which is classified as InterCity for marketing purposes but is not in the InterCity sector. A danger here is that a circular definition could ensure (those hoping to salvage one prize, routes which are profitable are in InterCity, and InterCity is those routes which are profitable) and there would be no

obligation on management to perform on those routes which ought to be profitable, such as the London-South Wales line. Another option for the Government would be to move the goal posts: to accept that viability is an unrealistic target for InterCity and to set some

more attainable aim. This would mean accepting that InterCity would have to be grant-aided (as it is de facto at present), an unpalatable solu-tion for this Government as both it and its predecessors

direct subsidies for longdistance travel.

Accepting that InterCity has to be grant-aided would have important implications for investment. In the social service parts of BR, investments are justified by showing they are the least-cost way of continuing to provide the service. The magships of BR's passenger fleri, the InterCity 125 air-conditioned trains, have heavy depreciation costs and are expensive to run - in short, they are not the cheapest way of providing a service.

"Professor Gower's report 'Review of Investor Protection' was published in January 1984. We support his general aim of protecting members of the public. In relation to Professor Gower's proposal for the introduction of a licensing system for intermediaries, it should be realised that most of the complaints about bad selling arise from the sale of relatively sophisticated life assurance arrangements by independent intermediaries and

#### 14 MILLION POLICIES -THE MEASURE OF CIS SUCCESS

The CIS is one of the country's leading insurance companies. Helping to protect some 31/2 million families in the UK (one family in six ) the Society has one of the highest penetrations of households in the personal insurance market. There are 14 million life, home and motor insurances currently in force.

An important factor in achieving competitive premium levels is the CIS's low level of operational expenses, which, per policy, are amongst the very lowest in the insurance industry.

\* The CIS is firmly committed to the personal 'home service' method of transacting insurance, which it believes to be the best, most efficient, and most economical way of providing for the day-to-day insurance needs of the nation's families. CIS full-time agents provide a much appreciated personal service in the homes of policyholders, collecting premiums, advising on insurance requirements and helping with claims when they arise.

\* The CIS is one of the country's most successful consumer co-operative societies, marketing its popular and very competitive range of insurances on a truly co-operative basis – and giving good value for money. All profits are devoted to policyholders after making the necessary reserves to carry on the business.

# New annual life premiums. Ordinary section, 1963-1983

not from the sale of standard life assurance products by the home-service agents. Furthermore, the Society has always accepted responsibility for the actions of its sales staff, and the regular contact maintained with policyholders means that misunderstandings are much less likely to occur and, to the extent that they do, can be more readily resolved. These features provide the real protection required by our policyholders, and very little further is needed in the case of a home-service agent.

#### Service to Policyholders

"We take great pride in the claims service we provide for our policyholders. We are continually making changes in an endeavour to improve the service still further, and a number of such changes have been made in 1983. It is perhaps a measure of our success in this area that the complaints we receive represent a minute proportion of the 1.4 million or so claims

that we receive each year. If a complaint cannot be resolved to the policyholder's satisfaction we offer him the facility of having the matter referred to independent arbitration, using the Personal Insurance Arbitration Service, with the cost home by the Society. Since this facility was introduced in 1981, only a handful of complaints have had to be referred to arbitration.

#### Life Assurance Bonuses

"I am pleased to announce further substantial improvements in our life assurance honuses. Rates of reversionary bonuses on assurances have been maintained both in the Ordinary section and for the main tables in the Industrial section. In addition, special reversionary bonuses have been added to

policies which have been in force more than ten years. In the Ordinary section these special reversionary bonuses range up to 50 per cent of the sum assured for assurances in force for 35 years or more, whilst in the Industrial section the maximum rate is 40 per cent. Although these special reversionary bonuses in effect capitalise bonus which would otherwise have been declared as terminal bonus, it has still been possible to increase the rates of terminal bonus on assurances in both sections.

"The combined effect of these bonuses is to increase substantially the amounts payable on policies becoming claims, so that, for example, the total amounts payable on the maturity of Ordinary section endowment assurances by monthly premiums for £1,000 original sum assured are increased to £1,890 after 10 years, £2,441 after 15 years and £3,529 after 25 years, which are all excellent value for the

#### Motor Insurance "Although the 1983 account shows an underwriting profit of

£4.5 million, compared with a loss of £1.3 million in 1982, the underlying experience shows a worsening trend, with a substantial underwriting loss in respect of the year 1983 on its own, when the adjustments in respect of earlier years are excluded. The investment income attributable to motor business increased from £15.9 million

#### Property Insurance

The year 1983 showed a relative absence of severe weather compared with the previous year. In other respects, however, the experience showed a considerable worsening over that of 1982. Yet again there was a marked increase in the cost of theft claims, where the experience in the major conurbations is a cause of particular concern. The cost of claims due to subsidence and to fire also rose quite sharply."

#### Comet forecasts fall in first half profits

Comet Group, the electrical as before Comet announced it discount chain for which Wool- was talking to a possible bidder. worth Holdings has made an agreed bid, will see profits in the first half fall from £12.76m to £12m, according to the direc-

tors' forecast.
In the formal offer document, sent to shareholders yesterday. Comet's chairman and biggest shareholder, Mr Michael Hillingbery, also sounded a warning note about the full year

"It is too early to forecast the outturn for the full financial year. However, as far as current trading is concern, national industrial unrest always has a negative effect on consumer confidence resulting in a reduction in the level of retail sales. This is affecting Comet." Turnover for the 27-week first half to March 3 was £213m

interim period last year. Mr Hollingbery says that although sales were up by 9 per cent, trading margins were under pressure and the company suffered from increased overhead costs.

against £194m for the 26-week

Shareholders will be paid an interion dividend of 1p (1p adjusted) before the bid goes

Comet's less than buoyant trading prospects is the main reason why Mr Phil Harris's Harris Queensway cut-price carpet and furniture group decided against topping Wool-

There is also a loan note alternative. Shareholders who accept the

offer will get an increase in income of 251 per cent — a figure which includes interest on the £15 cash.

Woolworth bought about 15 per cent of Comet's shares just before Easter. Mr Holllingbery and his family have already pledged the 32 per cent of the equity which they hold.

Mr John Beckett Woolworth's chairman, apologises in his statement to shareholders for the complexity of the 31page offer document. He says that Woolworth is committed to the development of Comet as an independent division of Woolworth, with its head office remaining at Hull.

#### Routledge expands

Mr Peter Hopkins, who resigned as editorial director of Routledge and Kegan Paul, the publishing group, last week is taking control of a joint venture with routledge. Called KPI, it will enable Mr Hopkins to use his experience of publishing books on the Middle East, Asia and Africa. Steady expansion of

carpet and furniture group decided against topping Woolworth's £186m offer.

The Woolworth offer of two of its shares plus £15 cash for every 11 in Comet values Comet's shares at just under 230p, about half as much again

**WALL STREET** 

#### Texaco speculation grows

shi Oil Company it will acquire through its purchase of Getty Oil.

The US company has not told the Japanese of any plans to transfer the shares to another party, a Mitsubishi Oil official said yesterday.

But a rumour has surfaced

(AP - Dow Jones) Specu-lation has heated up again on intention to purchase the what Texaco may do with the Mitsubishi Oil shares from 50 per cent holding in Mitsubi-Texaco. Although there has been speculation that Kuwait Petroleum could be the recipient of the shares before, it was quickly suppressed on a belief that MITI objected to the idea.

According to an article in a local business newspaper, Kuwait Petroleum has submit-ted a notification through an that Kuwait Petroleum Corpor-ation has notified Japan's company of its inte Ministry of International Trade purchase the shares unnamed Japanese trading company of its intention to

World leaders prepare to meet in the face of rising protectionism

# Trade barriers will remain intact despite the London summit

Europe and the United States are once again embroiled in a series of nasty skirmishes over trade in wine, corn gluten, steel and the continued use of export subsidies. The "Japanese probhas intensified on both sides of the Atlantic.

In the Third World among debt-pressed nations seeking to export their way to recovery, there is growing resentment over the wave of trade barriers crected or proposed by industrialized nations.

It is a list which demonstrates clearly the dilemma facing Western heads of state and their official "sherpas" now preparing for the annual economic summit. They must find a way to restore the international momentum against protectionism without promising too

Specifically they must decide whether to use the London summit to launch a new round of multilateral negotiations on the scale of the Kennedy and Tokyo rounds, to address the trade problems of the 1980s, or whether to settle for something

The spectre of the 1930s protectionist scramble which caused world trade to contract by an estimated 60 per cent remains in the minds of western officials, who have found it difficult to live up to their international commitments over the past year.

that something concrete must be done to recapture the postwar spirit of cooperation, if the global trading system is to operate effectively during the next few crucial years of expanding economic recovery.

in its newly-released world economic outlook. the International Monetary Fund predicted that the volume of world trade would rise by 5.5 per cent this year and again in 1985 after a sluggish rise of only 2 per cent in 1983 and an actual decline of 2.5 per cent in 1982.

But this will occur only if markets stay open, the IMF warned in a sharply-worded statement issued during the recent meeting of its policymaking interim committee in

#### Terry at his festive best

UFFEUR DRIVE AR RENTAL

15 Sec. 15 Sec. 16

By Marcus Williams

FENNER'S: Cambridge University, with nine first innings wickets in hand, are 412 runs behind Hamp-

"Cricket Festival" the road signs into Cambridge said yesterday and although they pointed to a match for lan Botham's benefit year on another ground, Hampshire batsmen clearly took them to refer to Fenner's. Fenner's.
On another perfect day - for all

on another perfect day – for all except the University bowlers, that is – and on a typically gentle pitch Hampshire rattled up 448 runs shortly before half past five. In the last 55 minutes Cambridge lost the wicket of Lea but Andrew, who had carlier shone in the field, gave hope for today.

Jesty, who made the season's first double century, and Terry both achieved the highest innings of their careers. Together they put on 302 in just over three hours for the second wicket after Turner had been bowled in the fifth over, and missed

Terry scored three centuries last season at an average of more than 45 and he looked a fine prospect again yesterday, timing the ball superbly on both sides of the wicket in his 199-minute stay. He hit 23 fours and two sixes, and perished at wide mid-on attempting a third.

HAMPSHIRE: First innings
V P Tenty c Cotterell b Gertick
D R Turner b Gertick
T E Jesty run out
'N E J Pocock not out
Extres (b 6, 1-5 7, n-5 7)

FALL OF WICKETS: 1-18, 2-320, 3-448.

BOWLING: Gartick 18.3-3-77-2; Grimes 12-1-77-0; Andrew 9-1-56-0; Cottorel 26-2-98-0; Golding 25-5-120-0. **CAMBRIDGE UNIVERSITY First Innings** 

Total (1 wkl.) FALL OF WICKETS: 1-35. Umpires: B Dudieston and R Julien

#### IN BRIEF

MOTOR RALLYING: Raily drivers who participate in events in South Africa will be barred from competing in Kenya's safari rally.

Kenneth Matiba, the Kenyan Minister for Culture and Social Services, told the 1984 safari rally drivers, told the 1984 safari rally drivers at the prizegiving ceremony in Nairobi on Tuesday that Kenya valued the safari rally and would continue to support it, but was not ready to compromise on sporting links with South Africa.

BOXING: Rene Weller, West
Germany's European lightweight

boxing champion, agreed yesterday to meet Juergen Himmler of Austria tomorrow in a non-title bout. It will

Into his stride: Chris Smith opens the season and MCC batting at Lord's. (Photograph; Ian Stewart).

# Bright first, cloudy later

By John Woodcock Cricket Correspondent

LORD'S: MCC have scored 235 for six against Essex.
Oh, dear! The weather for the start of the Lord's season was more start of the Lord's season was more beautiful than any words. The ground was a picture, the crowd larger than for many years on the opening day. Two interesting sides were assembled, and yet between them they managed little to quicken the pulse, By close of play, MCC had scored 235 for six at 2.5 runs an over

over.

The players were only partly to blame. The modern game, and the pitch, had at least as much to do with it. Off a thickish mat of grass. the ball, at any rate to start with, moved all over the place, sometimes pitching on the leg stump, and veering sharply towards first slip's right hand. For much of the day, the batsmen were too concerned with

batsmen were too concentra with survival to turn to attack. Not since the day My Fair Lady opened in London, in the late fifties, could anyone remember a season being given quite such a welcome by the sun. Yet had the faster Essex bowiers brought the batsmen forward early in the day, which unaccountably they failed to do, MCC must have been in all kinds of trouble. When, for an hour in the afternoon, Lever came back and pitched the ball up, an opening partnership of 103 between Smith and Lloyd was put into perspective.

Lloyd of Warwickshire, is a lefthanded accumulator. There is not much of him, but he grafts away,

nudging and deflecting and getting into line, His 60 was full of merit. Smith spent three hours 25 minutes making 43. He was determined and boring. The selectors will be looking for a sheet anchor, as he knows well enough. And it is a role that suites

The most agreeable innings came from Mark Nicholas. Having seen, in quick succession, Smith caught at second slip, and Gower in the covers, and Gatting at the wicket; Nicholas played patiently and pretty straight, going not halfway forward, but all the way when the ball was up to him. He alone of all the batsmen ever looked as though he was "in". Cowdrey and Williams both battled along for a while, Cowdrey nutil he was caught at slip off a ball which lifted more than he may have expected, and Williams until he allowed himself to be bowled without playing a stroke. without playing a stroke.

When Williams was out with half an hour left, I rather hoped Gower might declare. We had seen enough by then of MCC's batting; the game was far enough behind the clock. A change of scene would have helped. But the day ended as it was mostly played, with medium pace at both ends, and the ball coming through at uneven helghta, and still not a cloud in the change.

in the sky.

Had it been a championship
match we would have had to have another 25 overs. Yesterday, in six hours, 92 were bowled. In the championship this season, there will need to be a minimum of 117 in the day. One way and another, I am not sure those who made the annual

pilgimage got their money's worth though they would have minded more if it had been shiveringly cold.

#### **Britannic** reward the counties

Outstanding performances in the county championship are to be rewarded in a £6.000 scheme rewarded in a £6.000 scheme announced yesterday by Britannic Assurance. The company, who have taken over sponsorship of the championship from Schweppes, are to give a monthly award of £250 to the outstanding performance by an individual. Five judges will nominate a Player of the Season, who receives £500. In addition there will be £750 available to the county of be £750 available to the county of the month. Britannic will also donate £100 towards equipment for a local school or junior cricket side nominated by each county of the month.

Derbyshire have signed Devar Malcolm, a 21-year-old fast bowler Malcolm, Jamaican-born but resident in England for four years, will be registered as an overseas player. In a recent representative match for the Yorkshire League against the county club, Malcolm bowled Martyn Mason and Geoff Boycott.
Earlier this week Derbyshire decided on fitness grounds not to sign the Guyanan fast bowler Leslayne Lambert.

Sussex are to give a trial to 19year-old fast bowler Michael Bruce, from Londonderry. Bruce will play in a 50-over practice match at Hove, alongside Clive Batchelor, another fast-bowling trialist, from Bourne-

#### Younis quickly into his stride

THE PARKS: Oxford University with 9 first innings wickets in hand, are 288 runs behind Glamorgan.

Forceful batting by Younis Ahmed, on his first appearance for Glamorgan, yesterday bolstered an otherwise uneven performance by the county. He made a chanceless 158 out of 223, added in a shade under four heart.

There can be few better places in the present sunshine to have a working day prolonged unexpected-ly: the play was put back half an hour, as Glamorgan travelled after breakfast. Oxford were without Carr (knee injury), and Hayes, the captain, retired in the afternoon with a pulled hamstring.

The depleted university bowlers, The depleted university powiers, though, had every reason to be pleased. On a perfect pitch and fast outfield, only Younis dominated them. Younis launched his latest career in the best possible way. He drove crisply on both sides of the wicket, and well-timed pulls brought

Otherwise, only Jones and more dourly, Steele, stayed for any length of time (Jones, for the first time in 11 years as a county player, no longer needs the prefix Alan Lewis, now that Alan Jones has finally retired). Jones looked in good working order, before a mistimed drive went straight to mid-off.

Hopkins was b4eaten by breakback, and Ontong was caught one-handed down the leg side by Cullinan, from a glance. Glamorgan's troubles continued, when Henderson was beatenn through the air by Lawrence, a slow leftarm bowler, and Francis tuurned a catch to backward square leg.

#### **ATHLETICS**

#### Miss Budd offered olive branch by laurelled Olympians

Zola Budd may be a long way from an Olympic laurel leaf but she got her first olive branch yesterday; from Derek Johnson, a former British Olympic medal winner, who has appealed to British athletes "to extend the hand of friendship and the dignity of non-discrimination" to Miss Budd.

to Miss Budd.
Johnson, who won the 800 metres silver medal at the Melbourne Olympics in 1956, has the backing of David Hemery and David-Bedford, two of Britain's most famous Olympians and world record holders.

All three are former chairmen of the International Athletes' Club, the organization of current and past British internationals, who have a strong influence on British athletics

strong influence on British athletics policy. However, their views run counter to the official IAC statement, made last week by Mike Winch, the treasurer, who sup-ported the British female middledistance runners against the incur-sion of Miss Budd as potential Olympic selection.

Johnson admits that it is a personal view, "which has taken me some time to reach", but he hopes that with the backing of Hemery.

Bedford and Paul Dickenson, the IAC chairman, most British ath-letes, "specally black", will react favourably.

Johnson has extended a public invitation to Miss Budd, her family and coach "to meet us shortly to explore ways in which we personally can assist her."

"She had an unchallengeable right "She had an unchallengeable right to British citizenship and it is our good fortune and privilege that she chose to take it up. Had she stayed in South Africa and broken world record after world record she would surely have been a potent weapon of public sympathy and exploitation in the hands of that country's rulers. This has now been denied them and every appreciance she makes on a

constant rebuke to their society. This is an astute move by credentials on anti-apartheid. Sam Ramsamy, the head of SANROC who are opposed to Miss Budd's convenient change of nationality from South African to British -

readily admitted this yesterday.
"But 1 think the statement is premature," Mr Ramsamy said,

#### **OLYMPIC GAMES**

#### Soviet pleas heeded

Moscow (AP) - The Soviet news matter should be handled at agency Tass said yesterday that Government level.

"several fundamental issues were The Tass report did not provide agency lass said yesterday that "several fundamental issues were resolved" at a meeting of United any assurance that the Soviet Union States and Soviet Olympic Committee officials about the 1984 Los Angeles Olympic Games.

In a report from Lausanne, Tass Soviet atletes, most of the Recurity of Soviet atletes, most of the Recurity of Soviet atletes, most of the Soviet that the Soviet Union would participate in the Games, But the Soviet that the Soviet Union would participate in the Games, But the Soviet that the Soviet Union would participate in the Games, But the Soviet Union would participate in the Games would participate

Angeles Olympic Games.

In a report from Lausanne, Tass said that Peter Ueberroth, president of the Los Angeles Olympics Organizing Committee, and the Soviet Olympics Committee chairman, Marat Gramov, had discussed Spaties allocations of III Olympics Soviet allegations of US Olympic Charter violations.

The issues resolved related to the visa-free entry to the United States by Games participants and accredited journalists to all competition and training sites' accommo-dation and other facilities during the

Tass also reported that Soviet representatives at the meeting had Los Angeles Games".

demanded that the Los Angeles Tass added that a communique

Olympics had been resolved.

Gramov told reportersafter the meeting that his country would participate in the Games as long as the United States obeyed Olympic

objections to the US handling of the

The statement was a reversal of past Soviet complaints that US Government officials were too involved in Olympics preparations.

Tass said Gramov had called the meeting "a great step forward in removing the indesirable overlaps that emerged recently around the

Olympic Organizing Committee acknowledged that Soviet demands take steps to ensure the safety of for going to the Los Angeles Games Olympic athletes and that this were legitimate.

#### IN BRIEF

ATHLETICS: Joan Benoit, the world's fastest woman marathon runner, is to have arthroscopic surgery on her right knee which may force her to miss the United States Olympic trial on May 12. The first three finishers will be selected for Los Angeles and Miss Benoit's only alternative would be to try for a place in the 3,000 metres.

GYMNASTICS: Soviet Gymnasts, visiting China for the first time in 25 years, shared the honours with their hosts at the conclusion of the three-day Peking international tourna-ment on Tuesday night. The outstanding Soviet team member was Yuri Balabanov, who took gold medals in the men's rings, parallel

place

Juventus ..

Manchester United... (Juventus won 3-2 on aggregate) A goal one minute from the end

scored by Rossi, the Italian World Cup hero, saw Juventus through to a European Cup Winners' Cup Final meeting with Porto, conquerors of Aberdeen, in Basic next month. When clubs of such dazzling magnitude and popularity are brought together the occasion is sure

to be speciacular, perhaps explosive.
The crowd paid record receipts of an estimated £500,000 to see it; although many missed the initial 10

Hughes, preferred to Whiteside and shadowed by the uncompromising Gentile, opened with a promising flourish. First the side promising flourish. First the side netting and then the outstretched hand of Tacconi denied him from giving United a precious lead.

But as the white fog lifted United's sight of a place in the final was instantly clouded. Plantini, the majestic Frenchman, released Boniek, the fleet-footed Pole, and although Albiston tried desperately to match him for speed Boniek ran on, kept control and composure to lift the ball gently wide of Bailey's challenge.

tus also began to destroy the hopes of Aston Villa in last season's European Cup here in the thirteenth minute. Nor was that the only moment when United's goalkeeper was forced to emerge from his area to smother danger. Before the interval he thwarted first Boniol and then Rossi.

Given the encouragement of a goal the Italians in general and Platini in particular can be mercurial. With flicks of pure arrogance and back-heels of sheer impudence, Juventus flowed with all of their delightful artistry and atened to increase their advan tage. Platini, in one way or another

was usually responsible.

Moses, his marker, was booked for one illepitunate attempt to stop him but he refused to be intimidated. Later held back by Duxbury, he was still able to free Rossi and then, exchanging nonchantly with Tardelli on the edge of the area, he brought Bailey to his

Yet, after Rossi bad almost accepted another of Platin's invitations to score, United drew level in the seventieth minute. Albiston caused the initial problem with a low cross and McGrath's shot ebounded off Tardelli into the path of Whiteside, who had come on for Stapleton. His drive was emphatic.

Juventus e Taccont C Gentle, A Cabrini, M Borini, B Brio, G Schea, B Vignola, M Tardell, P Rossi, M Platini, Z Boniek, BANCHESTIER INVECTO, E. Baley; M Dudury, A Ablaton, R Wildins, K Moran, G Hogg, P McGrath, R Moses, F Stapleton, M Hughes, A Graham, Referet: A Ponnat (Belgium).

#### Forest fall Anderlecht 3, Nottingham F 0

Nottingham Forest were knocked

Nottingham Forest were knocked out of the UEFA Cup last night, beaten by a goal two minutes from time in Belgium.

Brian Clough's side lost 3-0 on the night, through goals by Scifo in the eighteenth minute, Brylle with a fifty-ninth-minute penalty and Vandenburgh with the winner on eighty-eight minutes.

#### Aberdeen out

Aberdeen, 0 Porto, 1

(Porto win 2-0 on aggregate)

Hewitt's header was cleared off the line by Pereira. As frustration crept

into Aberdeen's play, Porto came close to snatching a crucial away goal. Rougvie, the Aberdeen full back, lost the ball to Magalhaes, whose cross found Gomes a yard out. However, the Porto striker could only flick the ball with his head. But Aberdeen's luck run out when Silva scored for Porto.

#### Three banned after brawl in Singapore

Singapore (Agencies) - Two players and an official were banned yesterday from the Asia-Oceania pre-Olympic football tournament after a brawl during Monday night's match between Iraq and Qatar at the Singapore national stadium. Iraq's midfield player Haris Mohammed Hussan and Qatar's

reserve, Manaa Soud, 18, were expelled by an international football association (FIFA) disciplinary committee. Hussan was found guilty of having kicked Zhang Daqiao of China who refereed the match, which ended in a 2-0 win for

guilty of "running into the field of play from the bench and involving himself in fracas which led to a

general free-for-all". Riot police were called on to the pitch to control the fray among players from both Hussan's expulsion meant that he

reprimend and warn Qatar and Iraq not to repeat or encourage similar incidents," the chairman said.

ambitions of becoming only the Souness, some 20 yards form second Eastern European Cup

from Liverpool, for their lines and one of his most importent were threatened every other yet. The kicking continued, but moment. The mood was established under weeping grey skies when their squad appeared citysuited half-an-hour before the kick-off to inspect the pitch; and the booing whistling and hooting was intense.

In the subsequent warm-up, Souness, the alleged villain out here for an injury which kept Movila out of the match, was booed every time he touched the ball. Yet once the battle was joined, he, together with Lee, Hansen, Whelan and Neal in paticular, gave a performance of unbroken authority, and, moreover, helped create the first goal, which was critical in deflating Dinamo's balloon of

optimism and acrimony.
The pressure could have mounted when Orac, their outside left, scored with a cleverly bent free kick five minutes before half-time, after Lawrenson, close to the penalty area, had rashly pushed an opponent. The opening goal came after

Partizan of Belgrade in 1966.

It was a match which for the fortieth goal of the required skill and a calm nerve, season, his 100th for the club yet. The kicking continued, but Liverpool drew on the morale of that invaluable away goal. Rush was getting little support from Dalglish, who ought to have scored just after Dinamo's equilizer. A quarter of an hour from the

goal, volleyed left to Rush, who

end. Rush was pulled off the ball by his shirt in the penalty area, apparently unseen by the referee; but he was to have his revenge. Lee made a glorious opening with a crossfield ball to Whelan, who turned the ball into the penalty area. Nicolae dived to try and head clear, but Rush darted round him to put the ball away. Roma must know that Liverpool will play them on their own pitch on May 30 without a shred of inferiority.

**RUGBY UNION** 

#### Midland outsiders decide to make the best of it

Saturday, two former winners of the knockout competition will meet at Goldington Road, where Bedford entertain Coven-iry in their final match of the season. Bedford were due to play Bath and Coventry to play play Bain and Coveniry to play Bristol: with the two West Country clubs reaching the cup final, the Midland pair came to the logical conclusion that they should meet each other, albeit for the third time this season, Coventry having won both games by a narrow margin.

Both clubs are in the throes of clecting a new captain: the Bedford players met last night and it is expected that Peck, the present captain and scrum half, will be confirmed for another year. Covenury's players meet tonight to consider three nominees as successor to Thomas, who stands down after two years.

Thomas, scrum half and goalkicker, has not been lucky with injuries this year and missed a vital two months over the New Year period. In his absence, Malik, the former Cambridge University flanker, has done an excellent job of leading the side and his name will be considered tonight, along with those of Brain, the hooker who goes to South Africa with England next month, and Johnson, the prop forward.

Another Midland club who have held the John Player Cup. if only on a shared basis with Gloucester in 1982, are Moseley, who restore Perry to the side which plays Wakefield atthe Reddings on Saturday. Perry, who has been absent for a month with an injured shoulder, resumes not at stand-off or centre, his more accustomed positions, but on the wing,

While Bristol and Bath instead of the unavailable contest the final of the John Player Cup at Twickenham on Wakefield who play Head. #### Sundstrom brought back down to earth

Dallas (Reuter) - Henrik Sundistrom, of Sweden, winner of the Monte Carlo Open on Sunday, came down to earth on Tuesday evening when he was knocked out of the World Championship Tennis finals in the first round. He was beaten by Eliot Teltscher, of the United States, 6-2, 6-1, 4-6, 6-2,

Sundstrom, aged 20, only qualified for this event after winning in Monaco, but he could not make the adjustment from slow clay to the fast indoor surface here, and. Teltscher wore him down with the accuracy of his game. Teltscher will meet Jimmy Arlas, the third seed, in the quarter-finals.

The other late entry into this event, Tim Moyotte, of the United States, fared better in the first match of the evening, beating Tomas Smid, of Czechoslovakia, 6-2, 4-6,

--n. 7-3. RESULT3: First Round: E Taitscher (US) bt H Sundstrom (Swe), 6-2, 6-1, 4-5, 6-2; T Mayotte (US) bt T Smid (Czech), 6-2, 4-6, 7-6, 6-3.

#### Noah defends against top nine

10 players, with the exception of Kevin Curren, of South Africa, will take part in the French Open championships, the first of this year's grand slam tournament, from May 28 to June 10. Yamick Noah, who last year became the first French man to win the title since 1946, will defend it.

Paris (Reuter) - The world's top Kriek, of the US, who is ranked No 13, were leading names absent from a list containing 104 of the top male

Americans, Bill Scanlon, ranked seventeenth, and the brothers Sandy May 28 to June 10. Yannick Noah, who last year became the first French man to win the titls since 1946, will defend it.

Curren, No 10 in the Association of Tennis Professionals standing, and the South African-born Johan

IN BRIEF

#### Blue Dragons to get a welcome in the Vale

Cardiff Blue Dragons will make a brief missionary journey next sabbath (Keith Macklin writes). They will travel into the valleys to play their League game against Huyton at the Eugene Cross Park ground. Ebbw Vale, at the invitation of the mayor of Blaenau Gwent.

6 The short lists for the Man of Steel awards, the highest in the game, have been announced. The ceremony takes place at Salford on May 9th. Awards of £1,500 go to the individual from five categories deemed o have done most for the game in 1983-84. Two players -Lydon (Widnes) and Schofield (Hull) - appear in two categories, erst division player and young player. Among the nominees for referee of the year is Billy Thompson, who retires after the Wembley Cup final, his last game.

FOOTBALL: The troubled North FOOTBALL: The troubled North American Soccer League (NASL) will continue this season, despite fears that the competition might end. League officials have agreed with the players' union to a reduction in players' salaries in the nine surviving clubs of 10 per cent each year until 1986.

RACE WALKING: Olga Krishtop of the Soviet Union has cut five seconds off the women's world record for the five-kilometre road walk. She won a race in Armavir in 22min 8.8sec.

YACHTING: Yale University
Yacht Club is to mount a challenge yacht Club is to mount a challenge for the America's Cup. The challenge will come from the Yale Corinthian Yacht Club, an undergraduate sports organization, which has cabled the Royal Perth Yacht Club in Australia on behalf of its 12metre, Courageous II.

#### RACING: HARWOOD-TRAINED KANZ STAMPS HERSELF AS OAKS CANDIDATE

# Carson bounces back with double

The four-day suspension slapped on Willie Carson by the Epsom stewards on Tuesday seemed to sting him into almost superhuman form there yesterday. In winning the two main races, the Princess Elizabeth Stakes and Warren Stakes, on Kanz and Great Western, Carson showed that even if a small minority of jockeys have temporarily besmirched the good name of his profession, here is one member who give his backers 110 per cent every

Even the most miserly of bookmakers would surely have

offered you a fancy price about Kanz as she turned into the straight in eighth place with Carson's arms pumping away furiously, as they had been from fully a mile out. With two furlongs to go Lallax, the early pacemaker, had surrendered the lead to

Ophrys. Henry Cecil's filly was in turn swiftly swallowed up by Katies, who stormed into a clear lead and looked a certain At this point Kanz was about seventh on the outside and Carson's continued cajoling looked futile. Suddenly how-

ever, Kanz moved up a gear,

roared up to join Katies and

moved into overdrive to race away from her and Triagonal, who edged into second place. Guy Harwood, Kanz's trainr, was not at all surprised by this win, or the manner of it. "I've always thought she's a very good filly," he said, "but she needs a trip."

The Pulborough trainer added that that was precisely the reason why Kanz had appeared to run so disappoiningly behind Mahogany when favourite at Newmaet last October. They simply went too

fast for her over too short a trip.

A return to Epsom in June

for the Oaks, for which she is quoted at between 16-1 and 20-, is now definitely on for Kanz. she will have one more run beforehand, but whether this daughter of The Minstrel, who is also related to the Oaks winner Time Charter, on her dam's side, good enough to win the classic herself is impossible to gauge with so many other good fillies yet to show them-selves. One thing is certain though and that is that even if the big one cludes her. Kanz's

remarkable powers of acceler-

yesterday. (Photograph: Chris Cole).

more good prizes.

were covered in perspiration again as he returned trium-phantly on Great Western after the Warren Stakes. This time, however, it was not mere power and perserverence that left the champion exhausted in the brilliant sunshine. Carson exhi-bited great sensitivity and poise as well on John Dunlop's

Great Westerm had to be driven up to challenge At Talaq who had taken over from Van Dyke Brown three furlongs from home. However, just when he was about to assert his superiority. Great Western began to hand in towards his rival, as so may horses do on the Ensom camber. Carson then put down his

ation seem sure to carry her to whip, straightened his mount of the William Hill Futurity in up and pushed Great Western Carson's suntanned features gently ahead with hands and ere covered in perspiration heels in the last 100 yards. It was an object lesson for any young rider about to takele the notorious Surrey switchback.

paid a compliment to the form

which he was sixth to Alphabatim, is not entered in the Derby, but could be chasing lire in the Italial equivalent. Before that the Chester Vase is the target for Great Western, who Great Western, whose victory remarkably for a son of Hittite aid a compliment to the form Glory.

#### Saint-Martin tops 3,000

From Desmond Stoneham, Paris

Yves Saint-Martin won his 3,000th race when be partnered Bruce McNall's Somjam Gold to victory in the Prix Flying Fox at Saint-Cloud yesterday. The 15-times French champlon jockey said of his historic victory: "I am feeling great and intend to be in the saddle for many more were."

Saint-Martin has come a long way since April 20, 1958 when he fell on his first public ride at Soissons.

he rode Sassafras to beat Nijipsky

Andre Sabre said that his Poule d'Essai des Poulains winner,

#### Dickinson bids an early farewell to National Hunt

Michael Dickinson, champion trainer for the past two seasons and leading trainer this term, is retiring from National Hunt racing at the end of the season to prepare for his new job as private Flat trainer for Robert Sangster.

When news broke last November of his decision to team up with Mr Sangster, Dickinson announced that he would be carrying on training jumpers at Harewood until the end of the 1984-85 season. But he has now decided to leave National Hunt racing a year earlier than scheduled. He moves south this summer to give himself more thuse and opportunity to plan for his challenging new role.

The former jockey and past Champion amateur, aged 34, said: "I have come to realize that with all the responsibilities of my new job it will become increasingly difficult for me to train National Hunt Horses, and at the same time try to prepare for my new carear."

and at the same time try to prepare for my new career."

He added: "I would like to familiarize myself with the Flat industry and the people involved in it, to assist with the transformation the assist with the transformation from the course, I have regress leaving behind my jumpers, but I'm looking forward to my new job. British Flat racing is probably the most competitive in the world, and it will be a hig test for

Although Dickinson's move has been brought forward a year, he will still wait until 1986 before he

Cup, in which he saddled the first five home.

Three winners on Easter Monday took his tally in four seasons to a remarkable 368, and prize money of remarkable 368, and prize money of well over £1m. Those victories have included three king George VI Chases to Cheltruham Cold Caps, and three Queen Mother Champion Chase triumphs, in addition to 12 winners in a single afternoon on Boxing Day, 1982.

Dickinson said "My parents are

Dickinson said "My parents are going to carry on at Harewood with a reduced string, although it has not yet been decided whether mum or dad will hold the licence."

#### **Ashley Rocket for** a perfect landing

Ashley Rocket is napped to win this afternoon's Buttercross Handi-cap at Pontefract. Last season the astute Wille Musson placed the Roan Rocket colt to land gambles in sellers at Goodwood and Doncaster. Connections had to bid up to 9,600 guineas to retain the two-year-old on the second of the occasions.

At Newmarket last week Ashley Rocket gave conclusive evidence that he is still on the upgrade when that he is still on the upgrade when coming home strongly to finish second to Native Charmer. Reg Hollinshead considers the winner to be one of the best handicapped horses in training. That was Ashley Rocket's first appearance in public since last May and he can be expected to show improvement on that form

Sully's Choice, Vanishing Trick and Go Bananas are others to be considered. Sully's Choice ran with credit when second to Meeson King in a similar race at Thirsk when

Vanishing Trick was noted finishing well to take fifth place. The first qualifying round of the Pontefract Mile Championship looks an open affair, Bounty Hawk chased home Creag-An-Sgor at York last July, however Bill Elsey's High Top colt was a disappointing favourite when only fourth behind Bernini at Nottingham, Well Rigged and Aesculapius both have to be considered, but the choice is Incisive, who was only beaten a head by Tappint Wood on his

reappearance at Beverley.

Matt McCormack appears to be in with a sound chance of landing a double on the South Yorkshire track with Taffy Jones and Al-Astakaa. Taffy Jones incurred a 4lb penalty for beating The Friend by two lengths at Brighton and should have most to fear from Wild Rush and Frasas in the Barbican Handicap Stakes. The lightly raced Al-Astakaa performed with credit when fourth to Trwyn Clan at Folkesione

Severiano Ballesteros's homecoming was complete when he was greeted on the

practice putting green of the Puerta de Hierro course here yesterday by his World Cupwinning compatriots, Manuel Pinero and Antonio Garrido. In the Spanish sunshine he

finally looked at peace with himself, following his unhappy defence of the US Masters, and with every back slap and handshake he became more

After the loneliness of his life ;;; on the US tour the Madrid Open, which starts today will come as a relief. Some officials here believe that the former Open champion now has a psychological barrier to over-come and that he now regards this tournament as an opportunity to bury the disapointments of this year.

Ballesteros said: "I need to play. I have completed only three tournaments this year. It is better for me to be here than to have stayed for another week at home before returning to

A small matter of his apparance money, which, it is compared with making the one understood, totals more than or two tournaments raids which the £13,333 first prize, might has been his style in recent also have been responsible for convincing Ballesteros to leave his farmhouse home in northconvincing Ballesteros to leave the Tournament of Champions his farmhouse home in north-crn Spain. Yet he is well aware his cousin Severiano as a that he needs a win rather than

Ballesteros: psychological barrier

years. So when he flies out for travelling companion for the two months in America.

What Ballesteros now seems to have learned is the difference support in the Spanish capital.

between playing for an extended Sam Torrance, who won the period on the US circuit Tunisian Open two weeks ago, Tunisian Open two weeks ago. might prove to be his strongest rival since Sandy Lyle has refused to defend the title. Lyle faces the possibility of a fine and the PGA European tour will also consider introducing a new rule stipulating that a player must defend a title unless there are extenuating circum-

ship matches Warwickshire's record could have been better. Small has fully recovered and if Willis, too, can summon form and fitness, Warwickshire's attack will be potent

indeed. Ferreira's late outswing and

Paul Smith's whippy medium pace are further assets.

Andy Lloyd, who came so close to an England cap last year. Amiss, who has taken on a new lease of his since returning to No 4, and Kallicharran should again provide plenty of runs. Humpage and David Smith complete the front rank batting, which looks capable of varying its approach as necessary.

## Warwickshire add to bowling strength

County prospects by Richard Streeton

By moving up to fifth place in the championship table last year, after finishing bottom in the two previous seasons, Warwickshire set themselves new standards to maintain in 1984. The arrival of Gifford and Old, who shared 77 years and 160 wickets between themselves avalained the improvement. themselves new standards to maintain in 1984. The arrival of Gifford and Old, who shared 77 years and 160 wickets between them, explained the improvement. Reinforced this year by Gladstone Small's bowling, Warwickshire look equipped to excel in any of the

It will be necessary for Gifford, who finished with 104 wickets in all first-class games, and who is now aged 44, to defy the years again, but with his economical action, there should not be any drastic falling

Gifford: must defy years

English Estates will put £15,000

into the Minor Counties knockout competition, of which Cheshire are

the holders, and the final will be at

Fenner's on July 15. United Friendly Insurance have put up £20,000 for the championship which was won last year by Hertfordshire. Split into two divisions, the winner

of each will meet in the final at Worcester on September 8.

The Engiand women's team had volunteered to pay their own expenses but have now been spared

YACHTING

Gale ends day

with hardly

a blow struck

From John Nicholls

Racing for all but the Windglide

class was abandoned in the pre

Olympic regatia here yesterday

when gale force winds kept the

crews of 375 boats confined to the

shore. It was not the dreaded mistral which swept across the bay, but a wind in the opposite direction, predicted to last for 20 hours.

The organizers hope to complete

the programme of six races by holding two during one day before the event ends on Saturday.

The day off meant Rod Carr

Olympic squad, was busier than most, outlining for his 470 sailors

the RYA.s policy on the tricky

subject of measurement, and

dispensing solace, encouragement of

criticism to the others, as required.

The British Solings are now nearly halfway through their series

of three trials to select the crew for

Long Beach. Of the three boats in

the squad, that of Colin Simonds is ahead by virtue of his performance

in San Remo, where he got the better of a lacklustre Chris Law,

Law placed second overall on points after gaining second and sixth places

in the two completed races, with Simonds fourteenth and eighteenth.

If Law continues in this vein, the

stage will be set for a showdown in the final trial at Weymouth at the

end of May. The fleet there will be far smaller than the 33 epities here.

so a straightforward match-racing scries between Simonds and Law

will probable estule the issue.

Here the roles are reversed, with

**Help for Minor Counties** 

#### Change of scene for Collingham

Collingham, runners-up in the Whitbread Village Trophy in both 1974 and 1982, have switched their allegiance to the more daunting domain of the William Younger club championship for 1984. The reason behind the move are reason beaind the move are doubled-edged. Perhaps of greater significance is that it will accommodate their three players with first-class experience, including Dusty Hare, the England rugby union full back Todd. Weighman and Hare. Hare, the England rugby union full back. Todd, Weighman and Hare, who have all played for Nottinghamshire would have had to sit out the Village Trophy under the elegibility ruling. Hare's availability will in any case be limited because of his inclusion in the rugby party to tour South Africa. It is relatively unknown opposition of Rayton who are further assets.

The only worry as the season starts concerns Hogg, whose winter operation on a knee has not yet proved completely successful. Three young players, Wooton, Sutcliffe and D. M. Smith have left, but Willie Morton, a slow left-arm bowler, aged 22, has joined Andy Lloyd, who came so close to an England cap last year. Amiss. unknown opposition of Baxton who provide Collingham with their opening game on May 6.

Shrewsbury, the club champions, combine the start of their defence of the trophy against Kidderminster on

last year's runners-up have already come through their opening to against Sevenoaks Vine on Monday In pursuit of a Hastings total of 225 for six, Sevenoaks dwindled from

VERYING Its approach as necessary.

# La crème de la crème

# Secretaries Work abroad with the Diplomatic Service

Well trained shorthand typists are required in the Department of State responsible for British interests abroad.

On joining, you will work in the Foreign and Commonwealth Office in London, engaged in normal shorthand and typing duties. Then, after about a year (or longer depending on your age), you will be posted overseas. This could take you to Embassies or High Commissions anywhere in the world - from Paris to Moscow, Caracas or the Cayman Islands - with

opportunities for more varied and interesting work.

To apply, you must be a British citizen, at least 18 years of age, with a minimum of 100wpm in shorthand and 30wpm in typing. Knowledge of foreign languages is not essential but is an asset. Starting salary in London will be from £5220 to £5581 – rising to £6136, or if you have three years relevant secretarial experience and 3 'O' levels (including English Language), from £6136 - rising to £7242. Extra proficiency allowances of up to £1074 may be earned for higher shorthand and typing speeds. There are also apportunities for promotion to higher positions.

Overseas postings carry extra allowances, including an allowance to meet higher cost of living where applicable, with fully furnished accommodation provided and extra 'local leave'.

For further details and an application form, contact Secretarial Recruitment, Personnel Policy Department, Foreign and Commonwealth Office, 3 Central Buildings, Matthew Parker Street, London SW1. Telephone: 01-233 4388/3512.

£negotiable

The development and training of Britain's future managers is an important part of our management consultancy practice.

The demand for this service is increasing and we now need an experienced person to help the senior training manager to design and present a variety of constantly changing management development and training programmes, for both our own professional staff and client

This is a challenging, fast moving, environment offering excellent career

We should welcome applications from interested candidates who:

are aged between 30 and 40 possess a business degree or professional qualification

are familiar with latest training techniques

have sound experience of analysing development and training needs and designing and presenting courses

have had line management experience and/or have worked in a professional organisation.

We offer a stimulating environment, excellent facilities and an attractive remuneration package, including a car and other benefits.

Please reply in confidence to: M.H.V. Jeans, Training Partner, Peat, Marwick, Mitchell & Co., Management Consultants, I Puddle Dock, Blackfriars, London EC4V 3PD.

PEAT MARWICK

#### **Business Development** Manager (Sales)

A soundly based and rapidly expanding Group, involved in a range of Injection and Blow Moulding activities, has just committed well in excess of a million pound investment into an exciting new manufacturing venture with some unique characteristics and excellent export potential. A new company is being set-up and needs a go-getter with strong commercial/selling/business development tendencies to see that the project expands as rapidly as possible throughout continental Europe.

The successful candidate will spend a good deat of time travelling abroad and will have a track record to demonstrate that he/she has the ability to produce exceptional results. A sound educational background preferably to degree level, command of German and/or Italian, and the ability to understand and convey the detailed implications of new technologies, systems or concepts will be important attributes. The successful candidate is likely to be working as an Export Sales Director or Manager who is marketing orientated and aged between 25 and 40.

The remuneration level will be between £15,000 £20,000 depending upon experience and potential. With direct responsibility to and support from the Group Managing Director, this is a first class opportunity for a skilful communicator with integrity and ability to join a promising new enterprise on 'day one'.

Detailed applications should be sent in complete confidence to:-

The Managing Director, MPC & Associates Limited, Marketing and Planning Consultants Pavilion House. Cradley, Nr. Malvern, Worcestershire WR13 5NP

# TYMSHARE UK

#### **DIVISION MANAGER** £30,000 on target earnings

Tymshare UK is a highly successful computer services and software group based in London and is jointly owned by Tymshare Inc., and Unilever Pic. The Computer Services division has grown rapidly out of the general business area and is now being developed into a number of sub-division profit centres specialising in software and service sales.

In order to ensure its continued success, Tytoshare now wish to recruit a senior business manager who will assume full responsibility for the realisation of future objectives. Reporting to the group managing director, you will be expected to devise and implement a short/medium range business strategy, covering all aspects of sales and marketing policy, staff recruitment and training.

Candidates (aged 30-40) will have spent a minimum of five years in a similar role, be experienced in selling mainframes, software packages or computer services facilities to medium/large public and private companies. You must also be aggressive, self-motivated and confident, with well developed inter-personal and management skills. The ability to conmunicate effectively, work under pressure and to strict deadlines is essential. This is a cureer position that requires drive, energy and enthusiasm to meet the challenges that the role presents.

In the first instance please write or telephone Mortin Krajewski in complete confidence as advisor to the company.

The Times guide to career development

# Join the revolution now

After years of somnolence, training world is in a state of virtual revolution. As Tom King, the Employment Secretary, said. We must step up the whole momentum of training. Today people must be ready to adapt faster than ever, developing new skills and then improving them

to stay ahead". In forcing through this revolution, the Government has stirred up great, controversy, not least through its recent White Paper, Training for Jobs. Amid all the debate, now ever, the development of one programme, the Open Tech, has been free of

There are now more than 60 Open Tech projects being funded through the Open Tech Unit at the Manpower Services Commission and some already have students enrolled. The remainder are still being developed. It's a long process since the innovatory nature of the scheme has meant that a massive amount of work needs to be done to produce the kind of material appropriate for this new approach to industrial training.

#### Improving the quality of instruction

In many cases new technology is providing the vehicle for delivering the training packages. One of the most sophisticated projects is being undertaken by Michael Lansman at the Buckinghamshire Institute of Higher Education. Mr Lansman and his team are in the final stages of producing an export marketing management course which makes use of the whole gamut of modern information technology including Prestel, a BBC Micro, and videotapes.

Students are now being enrolled for the course launch in May. From then on, they will be able to dial Prestel for access to materials as well as making use of printed texts and video.

Apart from exploiting a variety of media, the export marketing management package is also interesting because it is clearly aimed at the professional and managerial level. In the early days of Open Tech, the potential audience for the materials was defined in terms of technicians and supervisors.

As Michael Lansman says: "We're meeting three demands. The first is from major companies involved in work overseas. The second is from young graduates who are just getting into export marketing and need some training. And the third group consists of marketing professionals who want to update their skills and maybe gain' membership of the Institute of Exporting or the Institute of Marketing, both of which recognize the

The Open Tech methods mean that even the busiest manager should be able to fit in time somewhere to brush up his or her skills or acquire new expertise. Almost total flexibility is giving students not only the freedom to stuny at a time and place which is

netra consulting

MANAGEMENT

**CONSULTANT** 

We can help your career - can you help

us? Business is booming but really top flight consultants are hard to come by.

Metra is one of Europe's foremost inter-

national groups of management consult-

ants. In 1983, the group had a turnover of

£85m with a professional staff of 2,000.

In the UK, Metra is looking for an additional consultant for its Strategic Projects

Division, with an outgoing personality, a

persuasive manner, innovative mind, first-class educational qualifications and considerable professional experience.

They must also be able to sell effectively.

The preferred age range is 28-32 with at least 6 years in industry or commerce. Some travel will be involved and preference will be given to those who are pro-

ficient in a European language in addition to English, which should be their

This is an equal opportunities position.

Write to: Deborah Russell, Metra

SPACE SELLING

Wanted, young graduates 22 to 26 lively

outward looking enthusiasts with language

ability - near fluent Italian and/or French,

German. Other languages may be useful.

You will be trained to sell advertisement

space to management level in the UK,

Europe and around the world. We are publishers of several international busines

and industry magazines.

mother tongue.

Edward Fennell looks at the big chances in training, particularly at the Open Tech

convinient, it is actually providing access to courses for those who could never make it otherwise for reasons of geography or the nature of their work. For example the Scottish Busine Education Council (SCOTBEC) is developing a "Tourism for Small Businesses" package which is aimed at the self-employed and those in small firms to help them improve their general efficiency and sharpen up their response to the prospects offered by tourism.

Many people involved profession-ally with Open Tech are excited by the tremendous potential opened up by this new approach based on the computer and video. But if the Open Tech is to succeed, it needs to inculcate a new attitude to training.

In that context the arrival recently of the "materials and resources information service" (MARIS) is of key importance. MARIS is administered by the National Extension College and operates a computerized databank on which is stored details of all the open learning materials currently available. Though it is funded by the Open Tech, its intention is to be comprehensive, incorporating references to all materials, whatever their source. Already it holds 3,000 items and a couple of dozen requests for information are received each week from training officers who want to identify packages

which meet their needs.

MARIS is, though, exclusively a service for the "gatekeepers" – people like training managers and not for the managers or supervisors who them-selves want to be trained. This seems to be the major shortcoming at the moment. An information system for

nts and learners is planned but it is not yet available. The Open Tech is about open learning but currently it is hard for the man or woman in the street to get access to advice and guidance about what is actually on

At the moment it is probably those in engineering who are feeling most acutely the need to keep up with latest developments. It is encouraging therefore to see that a major agreement has been signed between the Centre for Engineering Design at Cranfield Institute of Technology, the Engineering packages aimed at the engineering designer. Initially about 50 companies and 500 learners will be involved on courses concerned with Design for Economic Manufacture and Computer-aided Design Engineering Later on there will be packages in Creative Design; Information Technology for Engineering Designers and Design and Management. If the country's engineering industry is going to succeed in competing more effectively for a bigger share of the world market, then these are the skills

Amid all the razzamatazz about the hi-tech of the Open Tech, it is worth sparing a thought for the intended customers. How are they likely to respond? According to Jack Cairns, the marketing and develop-ment manager for the Southtek Open Tech Unit based at Brighton Poly, there has been a massive amount of interest and enthusism from both training staff and line managers who see the scheme as being the answer to many of their skill problems. The MSC reckon that there will be 50,000 people signed up for Open Tech in 1986.

 For more information about Open Learning schemes contact MARIS at 1 St Mary Street, Ely, Cambridgeshire CB7 4ER (0353-61284). The Open Tech Unit is based at the Manpower Services Commission, Moorfoot, Sheffield S1 4PQ.

#### **MARKETPLACE**

The number of job vacancies, although still higher than last year, is falling. Even so, recruitment advertising in the national press is booming, writes

Philip Schofield About a third of all vacancies are otified to Jobcentres and the monthly figures are usually a reliable indicator of trends. In March the flow of vacancies into Jobcentres was just above 7 per cent up on last year. However, the numbers, calculated on a seasonally adjusted basis, have been falling steadily since October.

The volume of recruitment advertising in the seven quality national newspapers in March was up by almost 40 per cent on last year. This suggests buoyancy in the professional and executive market. Five of the top popular national daily newspapers showed a collective growth of more than 27 per cent

The apparent fall in vacancies is hard to reconcile with the level of advertising unless employers are using Jobcentres far less than usual. Employers certainly remain optimistic about job prospects. The latest survey of employment prospects among 1,057 leading employers conducted by Manpower Limited shows that 28 per ceut of employers think the size of their workforce will be increased and

only 11 per cent expect cuts.

The most optimistic employers are in Scotland, followed by those in south Wales and the West. Only employers in north west England believe their numbers will remain static. The most buoyant sectors of employment, according to the Manpower survey, are electrical engineering, road transport and light engineering. The only sectors expecting net losses are public stilities and local government.

#### AREA REPRESENTATIVES

# Recognise the blunt end of your expertise?

Recognising the hardware should be easy. The stern of the fastest attack craft in the world and the imposing outer casings of MM40 Exocet missiles. Very much the blunt end, compared with the precision technology that goes into the systems that operate a ship and her weapons. A precision and infallibility in the men who maintain them. The Weapons and Marine Engineer Officers.

Oman's strategic territorial waters on the Stratis of Hormuz in the

Arabian Sea are patrolled round the clock by its small, fast and highly advanced Navy. Just one of its vital functions. The Sultan of Oman's Navy operates the same on board and land based systems as the Royal Navy, but in some cases these systems are further advanced, especially in Weapons and Main Propulsion.

Equipped with the latest digital weapon systems and high speed diesels, Oman's Navy represents exciting professional and training challenges to Technical Officers especially with ME or WE expertise.

The organisation and structure of Naval operations in Oman have

LT: COMMANDERS

been influenced dramatically by former Officers from the Royal Navy and over the past ten years they have implemented the same effective management traditionally associated with the RN. But with one important difference. Every Officer Johning the Sultan of Oman's Navy will not only be challenged but will, by his experience, affect the future development of the Navy. A challenge that a larger service

It is surprising for most to discover that Oman has a geography of rugged mountains, green valleys, cases and hundreds of miles of fertile coastal plains. Its people are proud, liberal, and very hospitable their culture embraces Islam, and their strong maritime traditions

provide an important link etween the British and Omani People, and mutual respect is widely evident.

they did it (r).

Lawrence Gowing's qualifications for his role of writer/presenter of SBC 2's THREE PAINTERS, beginning tonight at 7.50, are impressive. He is a painter himself, and thus understands both the practicalities of his art and the the practicalities of his art and the theories. He is a critic, and therefore understands the importance of objectivity. And, third, he is Slade Professor of Art at University Professor of Art at University College, London, which means that, as he is in the communications as he is in the communications business, he ought to know how best to get his message across to those andous to learn. All three hats fit him comfortably, even becomingly, in tonight's film, which is about Masaccio. A fourth hat — that of the television presenter, in the tradition of Kenneth Clark and Bohert Humber. Robert Hughes - is still proving a bit of a tight squeeze, but practice might make perfect by the time we get to Cezanne in three weeks' time. Tonight's film carries the sub-title

CHOICE A View of Mankind, and this gives

us a clue to Sir Lawrence's approach to his subject. He sees the approach to his subject. He sees the grandeur of art as a quality of the real world. And it is very much the real world (visual, social and moral, all at once), and not the idealized one, that is reflected both in Sir Lawrence's essay, and in the still pictures from the 1400s and the moving pictures of the 1880s with pictures from the 1400s and the moving pictures of the 1980s with which Christopher Bustall, director of Truee Painters, illustrates the Florentine dawn of a new age in art—the realization of how simple, yet how grand, one man's perception of manking can be.

O ALIEN (BBC 2, 9.30pm) is a film about a Close Encounter of the Fourth Kind. It is E.T.'s view of the world when, instead of falling among the nice children of the United States, he drops in on an

England that is helf-bent for self-destruction; a place where animals (dead and alive) and adults (living, yet doorned) offer nothing very attractive to his uncomprehending extra-terrestrial's eye except for a commentary from an unseen Interpreter whose vague

lady in a filac-coloured dress playing unaccompanied Bach in a cello-maker's workshop, and a physically well-endowed lady slipping out of her panties and brasslere. The idea behind David Gladwell's film is a first-rate one: let's pretend that we are looking at everyday things as if for the first time (i.e. through E.T.'s eyes). The mistake was to match the slow-motion, dream-like pictures with a dream-like, slow-motion

# The stooped, lonely figure who haunts an empty jail US has rethink

From Michael Binyon

Rudolf Hess, Hitler's former deputy and the only prisoner in the Allied war criminals jail in Spandau, West Berlin, is 90 today, a pathetic old man who has spent the past 43 years in

He will spend today as he has so many others, reading or watching television in his small cell in the dark, red-brick building constructed to hold 600 prisoners. The only con-cessions in the inflexible routine may be a speical meal prepared by the kitchen staff and, if the family request is granted, a visit from his three grandchildren, aged four to seven whom he has never seen.

Hess is still watched by detachments of 30 soldiers from each of the four powers -Britain, America, France and Russia - who take it in turn to guard him. There are four prison governors, one from each power, four doctors and several dozen warders, clerical staff and interpreters drawn from all four nationalities.

The man who once strutted, uniformed and fanatical, with other Nazi bosses before ecstatic crowds, has become the most expensive and loneliest prisoner in the world. The West German Government, which pays for his upkeep, recently revealed that it had cost more than DM20m (about £5m) since 1970. Last year alone. German taxpayers had to subsidize Spandau to the tune of DM2.3m.

For years, the prisoner's family, led by his son, Wolf Rüdiger, and others who consider his continued imprisonment "without any judicial or moral sense" (in the words of a Bonn official), have begged the wartime Allies to release him. They have started court cases, published appeals, lobbied statesman and politicions - to no avail.

Although the Western Allies are willing to release him, the Soviet Union will not hear of it. "He must drink the chalice of punishment to the last drop," a Soviet official once said. Hess was convicted at Nuremberg only of helping to prepare a war and acquitted of war crimes and atrocities, but, for the Russians and many others, he is a symbol of Nazi dictatorship. His dramatic lone flight to Scotland in 1941 in a futile attempt to seek a peace agreement with the British is considered irrelevant.

Over the years, the conditions under which Prisoner No 7 - us he is ordered to be referred to by the Allies - is held have eased, but only slightly. His original 6ft by 8ft cell has been doubled in size and neighbouring cells con-verted into a library, sitting room and separate bathroom. His cook no longer changes

with the guard each month, his visiting privileges have been extended from 30 minutes to an hour a month and a television set was installed in 1969. But he is still only allowed to receive one letter a week and to write one - censored - back of no more than 1,300 words.

His wife, Ilse, aged 84, who lives in the Bavarian village of Himdelang, can no longer make the trip to Spandau. She last saw her husband in 1981. During visits, no physical contact, no kisses or handshakes are allowed. When Wolf Rüdiger Hess briefly embraced his father in 1982, the British lodged a formal

Conversation, like his letters, is not allowed to touch on or efforts to free him. He has no legal assistance. Four directors and several armed guards are always present to nsure the rules are kept.

His life is surrounded by silence. Any comment about him, including those by visi-

tors, must be formally agreed in advance by all four powers. The Americans, who this month are in charge of Spandau, are not allowed to give any details of how he will spend today.

It is unclear whether Hess is sone or not - as it was during his Nuremberg trial. Fanati-cally loyal to Hitler, he has never expressed any remorse for his Nazi past, or been struck by guilt and repentance as was his one-time fellow prisoner, Albert Speer, Hitler's architect and armaments minister, who was released with Baldur von Schirach, the Hitler Youth leader, leaving Hess alone in Spandau since 1966.

Hess is a ghost from the past
one the Western Allies would
willingly release from the
hamted prison. But so awful was that past and so complex the present arrangements with the Russians over the legacy of that past that no one will open the door to freedom for the old man unilaterally.

The stopped, lonely figure of the surreptitious smuggled photographs still circles the prison yard, feeding the crows and talking to no one.

FLIGHT FROM GERMANY IN A MESSERSCHMITT

From The Times, Tuesday, May 13, 1941

Life's ups and downs (clockwise from the top): The feeble old man; Hess in his prime; with Göring at Nuremberg; and at a Nazi rally in Berlin with Hitler and Goebbels.

# on Nato frigate

From Frederick Bonnart

Mr Caspar Weinberger, the US Secretary of Defence, has ordered last-minute American qualifications to the memorandum of understanding on a common Nato frigate to be made as a matter of top priority.

They are due to be submitted today to the other seven partners in the undertaking -Britain, Canada, France, West Germany, Italy, The Netherlands and Spain.

As reported in The Times on April 16, the Americans had important lastpresented minute qualifications to a previously agreed but as yet unsigned memorandum which, according to European officials at Nato, had virtually nullified

Mr Weinberger was very upset last week when he heard of the reactions of the other partners, and said they made America a laughing stock.

An official, who asked to

remain anonymous, told The Times that Mr Weinberger had instructed his staff to review the qualifications, working if necessary throughout the Easter weekend

The American qualifications had been produced by the legal office of the US Department of Defence, and has not been cleared with the senior authorities there, the official added. They were in accordance with

American constitutional requirements and were transmitted to the US representative at the meeting, Dr Richard DeLauer, Under-Secretary of Defence for Research and Development, when he was

already in Brussels.

Mr Weinberger has now given instructions that they are to be reframed, shortened and modified to include his policy considerations. This should, the official said, provide a basis for agreement on American participation in the project. The Armed Services Com-

mittee of the US House of Representatives has, according to an American source, recently tabled an amendment which would waive some of the existing restrictive regulations so as to ease cooperation with allied countries. The proposal originated with

the Department of Defence, in fact, it is understood to be largely due to initiatives by Dr DeLauer himself

# **Miners** stick to hard

involved in the dispute, who met again yesterday with the Prime Minister in the chair to review developments, remained convinced that the divisions within the union must in time bring a resolution and that no intervention by the Govern-

> Satisfaction was expressed with the Coal Board's direction and management and Mr lan MacGregor, its Chairman, was judged to have timed shrewdly his apparent concession over the rate at which the board will seek redundancies.

> Local authorities demanded urgent talks yesterday with the Government over the extra cost of policing miners' picket lines, (the Press Association reports). Nottinghamshire will have to

pay £2m a week in extra police costs and was "bleeding to death", the county's finance committee chairman said.

Mr Michael Cowan told the executive council of the Conservative-dominated Association of County Councils that after three-and-a-half weeks of the dispute. Nottinghamshire faced a £6m bill. With the strike poised to continue, that would increase by £2m a week.

#### Maxwell agrees to pay unions' £150,000 fines Continued from page 1

the fines and sought sequestration of their assets they would be forced to take action against BPCC.

Both Sogat 82 and the NGA argued that they did not consider this another "Shah" case and pointed out that Mr Maxwell would need to have good relationships with the mions in the future, unlike Mr Eddie Shah, whose Stockport Messenger group now aimos completely non-union.

Talks went badly on Monday evening but on Tuesday morn-ing Mr Maxwell reopened discussions with the unions and it was then that he received the new claim for the 8,500 BPCC employees, understood to have been for a £15 across-the-board increase in addition to a nationally-agreed settlement for the printing industry.

As soon as agreement on payment of the fines was agreed both unions withdrew the claim.

#### Lockyer bicentenary

A service is to be held on Sunday, May 4, in the parish church of St Werburgh's at Wembary, near Plymouth, to mark the 200th anniversary of the birth of Major Edmund Lockyer, founder of West Australia. Lockyer, scion of an old Devon family, was sent by ship from Sydney in 1826 to forestall a possible French landing on the west coast of Australia and by raising the British flag he brought the whole of the continent under the Crown.
